Biochemistry Collections - Bernard S. Schlessinger 2019-12-05

This book, first published in 1982, offers an examination of the special nature of biochemistry collections. It focuses on the production, control, and use of the literature - diverse in nature, and analysed here by specialist contributors.

Neuroscience - Luis Yarzagaray 2000

High yield facts that get to the "meat" of a subject and form a perfect complementary review tool to McGraw-Hill's PreTest series. Series editor, Nikos M. Linardakis, incorporates into each "Bones" the factual knowledge and pearls that medical students must know to succeed on USMLE Step 1 and Step 2 exams. Concise tables, clinical examples, key study points, review of key terms...just some of the features that distinguish each Digging up the Bones text and make them the high-yield study aid of choice.
