Mary Baker Eddy Gill Gillian 1999-09-24 In 1866, a frail, impoverished invalid, middle-aged, widowed and divorced, rose from her bed after a life-threatening fall, asked for her Bible, and took the first steps toward the founding of the Christian Science Church. Four decades later, she was revered as their leader by thousands of churches in the U.S. and Europe, had founded a national newspaper, and had become probably the most powerful woman in America. Who was this astonishing woman, the mother of the Mother Church? How did she prepare for her illustrious career during her years of obscurity, and what was her inspiration for the healing practices and doctrine of Christian Science? Gillian Gill, a non-Christian

Science Scientist scholar, who managed to win unparalleled access to the Church archives, offers here an entirely new look at Mary Baker Eddy. For the first time readers will see the extraordinary leadership skills exercised by Mrs. Eddy despite the repressive forces facing women in her time. For the first time we learn the full story of the bizarre attack on Mrs. Eddy by Joseph Pulitzer and his New York World—alleging that she was at least senile and possibly not even alive. In this enthralling biography, we rediscover Mary Baker Eddy as a radical Christian thinker, pioneer in the recognition of mind/body connections, survivor of scandal, and target of both admiration and scorn from such eminent contemporaries as Mark Twain. Gillian Gill's sense of drama, her critical acumen, and her delicious wit bring to life a brilliant religious leader whose message has new meaning in our time.

Trease and Evans' Pharmacognosy William Charles Evans 2009-05-27 This encyclopedic reference work on pharmacognosy covers the study of those natural substances, principally plants, that find a use in medicine. Its popularity and longevity stem from the book's balance between classical (crude and powdered drugs' characterization and examination) and modern (phytochemistry and pharmacology) aspects of this branch of science, as well as the editor's recognition in recent years of the growing importance of complementary medicines, including herbal, homeopathic and aromatherapy. No other book provides such a wealth of detail. A reservoir of knowledge in a field where there is a resurgence of interest - plants as a source of drugs are of growing interest both in complementary medicine fields and in the pharmaceutical industry in their search for new 'lead compounds'. Dr Evans has been associated with the book for over 20 years and is a recognised authority in all parts of the world where pharmacognosy is studied, his knowledge and grasp of the subject matter is unique. Meticulously referenced and kept up to date by the editor, new contributors brought in to cover new areas. New chapter on 'Neuroceuticals'. Addition of many new compounds recently added to British Pharmacopoeia as a result of European harmonisation. Considers development in legal control and standardisation of plant materials previously regarded as 'herbal medicines'. More on the study of safety and efficacy of Chinese and Asian drugs. Quality control issues updated in line with latest guidelines (BP 2007).

Make Him Beg to Be Your Boyfriend J.D. Rockefeller 2015-06-21 We are born with the natural ability to attract a mate. But we have to learn the art of attracting a boyfriend. Males, including human males, are generally ready to mate at any and every opportunity. But mating to a male is just that. It is a physical act that feels good and is a natural bodily function. To the male, the act itself is the entirety of the mission. So, he is quite surprised when the act is completed and the female is still around. In our evolved state, he will normally find a way to "excuse" himself from the situation. Basically, he has two options. He can state, "that's all there is." Or he can run. He will run. Before we learn how to make a man "want" to be our boyfriend, we must define the term "boyfriend". A boyfriend is a "male companion that you have a deep relationship that sometimes includes a sexual nature". But let's explain what a boyfriend is not. He is not just a mating partner. If the entirety of the relationship is mating, that is what it is. He is not your boyfriend. He is just your sex buddy. (This is the big one). A boyfriend is NOT your husband. A husband has a legal and moral

obligation to care for you. He is required by society to hold you up when you can't stand. He promises to remain with you through whatever life throws your way. He is your protector, partner, friend and lover (and you are his). Being a husband is hard work. It takes dedication, commitment, and much effort. When a man moves from boyfriend status to husband status, he is in essence saying, he will put your needs before his own and build a life with you. It is not easy, which is why it comes with a legally binding license of marriage, which has no expiration date. If you want a man to beg to be your boyfriend, you must want a boyfriend. You must be honest with yourself. You want more than a sex buddy, but less than a husband. You want the closeness of a relationship, but understand it stops short of becoming a lifelong commitment. You want him to want to be with you and care for you, but you understand that you are required to care for yourself and be responsible for your own well-being. In essence being in a boyfriend/girlfriend relationship is digging deep into each other to determine if this is something you want to take to the next level. But keep those boundaries clear. Neither of you has the right to expect the benefits of "spouse". And, both of you have the right (and responsibility) to walk away if it is not the right balance. Okay so now we know what a boyfriend is and what it is not, and hopefully you still want one. So, how do we prepare ourselves to attract one? This book will show you how, so let's get started!
