Male and Female Sterilisation - Royal College of Obstetricians and Gynaecologists (Great Britain) 2004

This summary is based on the evidence-based and referenced guideline developed by a multidisciplinary guideline group and published by the Royal College of Obstetricians and Gynaecologists (RCOG) after extensive peer review. It replaces the previous version published in 1999. Sterilisation procedures were one of the first clinical areas to be subject to detailed review, because large numbers are performed on mainly healthy individuals at their request and because they attract a relatively high level of medico-legal activity. A study of the General Practice Research Database data suggests that in 1999 an estimated 47 268 tubal occlusions and 64 422 vasectomies were performed in England in the National Health Service and charitable sectors. The guideline synthesises available evidence and expert opinion on current tubal occlusion and vasectomy procedures in the UK. Its primary purpose is to inform healthcare providers and purchasers, so that patients receive a high-quality service based on the best evidence available. Identified articles were assessed on their methodology and the best evidence was used to form and support the recommendations. The guideline points towards best practice but does not preclude alternatives that can be justified on the basis of the individual needs of the case or special skills and innovations that are subject to ethically approved research. Particular attention should be paid to the estimate of average lifetime postoperative pregnancy rates and the specific consent issues that should be addressed in every case.

OK Boomer, Let's Talk - Jill Filipovic 2020-08-11

"Particularly relevant in an election year...This book is full of data—on the economy, technology,

and more—that will help millennials articulate their generational rage and help boomers understand where they're coming from." —The Washington Post "Jill Filipovic cuts through the noise with characteristic clarity and nuance. Behind the meme is a thoughtfully reported book that greatly contributes to our understanding of generational change." —Irin Carmon, coauthor of the New York Times bestseller *Notorious RBG* Baby Boomers are the most prosperous generation in American history, but their kids are screwed. In this eye-opening book, journalist Jill Filipovic breaks down the massive problems facing Millennials including climate, money, housing, and healthcare. In *Ok Boomer, Let's Talk*, journalist (and Millennial) Jill Filipovic tells the definitive story of her generation. Talking to gig workers, economists, policy makers, and dozens of struggling Millennials drowning in debt on a planet quite literally in flames, Filipovic paints a shocking and nuanced portrait of a generation being left behind: -Millennials are the most educated generation in American history—and also the most broke. -Millennials hold just 3 percent of American wealth. When they were the same age, Boomers held 21 percent. -The average older Millennial has \$15,000 in student loan debt. The average Boomer at the same age? Just \$2,300 in today's dollars. -Millennials are paying almost 40 percent more for their first homes than Boomers did. -American families spend twice as much on healthcare now than they did when Boomers were young parents. Filipovic shows that Millennials are not the avocado-toast-eating snowflakes of Boomer outrage fantasies. But they are the first American generation that will do worse than their parents. "OK, Boomer" isn't just a sarcastic dismissal—it's a recognition that Millennials are in crisis, and that Boomer voters, bankers, and policy makers are responsible. Filipovic goes beyond the meme, upending dated assumptions with revelatory data and revealing portraits of young people delaying adulthood to pay down debt, obsessed with "wellness"

because they can't afford real healthcare, and struggling to #hustle in the precarious gig economy. Ok Boomer, Let's Talk is at once an explainer and an extended olive branch that will finally allow these two generations to truly understand each other.

Vasectomy - John J. Fried 1972

Drawing from case studies, the author discusses the physiological and psychological aspects of a vasectomy.

Vasectomy - George C. Denniston 2002

For men contemplating vasectomy and for the women who want their man to take his turn at preventing pregnancy, this book tells them what they need to know.

Male and Female Sterilisation - Jane Smith 1995

A patient's guide to surgical procedures and hospitalization for the most common sterilization operations for men and women. The book provides the information needed for people to make an informed decision about the operation, and also considers possible post-operative complications.

How Not to Get Pregnant - Sherman J. Silber 1987

Methods covered include natural family planning, breast feeding, birth control pills, the intrauterine device or IUD, barrier methods, vasectomy, tubal ligation or female sterilization, and newer methods.

Matters of Life and Longing - Anne Line Dalsgaard 2004

This book presents and describes Northeast Brazilian women's motives for accepting and often actively seeking sterilization. It centers on individual subjects and their life-worlds but shows, too, that immersion in lived phenomenological worlds does not preclude the study of political economy. The book is written in a lucid and accessible language and will be of interest to a wide and varied audience, including both graduate and undergraduate students. This book merited an Honorable Mention in the competition for the Eileen Basker Memorial Prize in Gender and Health 2004
