[Ecological and Environmental Science: A Research Perspective - Prof. Dr. Nirmal Kumar, J.I.](#)

The book "Ecological and Environmental Science: A Research Perspective" is a compilation of authors' original research papers, scientific articles, review articles, popular articles, general articles, and short notes on forest ecology, wetland ecology, plant ecology, bird ecology, and animal ecology. The book is a perfect amalgamation of burgeoning and thrust topics spanning biodiversity, and conservation and management of floral and faunal elements including ecology and biodiversity of phytoplankton, zooplankton, aquatic macrophytes, mangroves, terrestrial plants, animals (butterflies, reptiles, mammals) and birds. It covers ecological and environmental factors affecting abiotic and biotic components prevailed in forest, desert, grassland and wetland habitats and ecosystems. The present book highlights field studies and laboratory investigations carried out by the authors during their research journey of 22 years (1998-2020). It discusses phenology, ethnobotanical, ethnomedicinal and aesthetic values of plants, resource use patterns by local inhabitants, socio-cultural aspects, livelihood dependency, rare and endangered plants, animals and birds, anthropogenic pressures, conservation and management strategies of endemic, exotic, and invasive species, and so on. The book covers unique and promising research topics e.g. hydrochemistry, geochemistry, biomonitoring of heavy metals in aquatic and terrestrial plants, metal remediation, environmental modeling, environmental archaeology, environmental bioindicators, environmental forensics, etc. The authors believe that this book is a perfect blend of their research work on two integral branches of biology i.e. ecology and environmental science, which will undoubtedly enrich and

enhance the knowledge and awareness of laymen and scientific community world over especially in the field of ecology and biodiversity of plants, animals, and birds, associated with physical, chemical, biological, ecological and environmental factors. The present book would certainly be useful and handy as a ready-reference material for students, academicians, researchers, scientists, ecological and environmental consultants, restoration specialists, practitioners, conservationists, and biodiversity managers at regional, national and global platform.

these thoughts and emotions. We are going to cover what your crush is actually about. Establishing what's really going on to help you to overcome doubt or wishful thinking. When you get clarity on what you REALLY want and need, it is much easier to make a new start. This book will help you understand the psychology of what is happening to you, why you really feel what you feel, and how to break free of a crush. Become more confident, feel more attractive and get yourself into the frame of mind where you can create the life you desire. Through positive insights, the book provides useful guidance on how to identify our strengths, weaknesses, and the factors underlying why we are attracted to people who we often can't, or shouldn't be with. How to avoid negative influences and focus on making peace with ourselves by improving our self-image and fulfilling our fundamental human needs; among them, how to feel secure and connected with people. **A Place to Stand** - Jimmy Santiago Baca  
2007-12-01

The Pushcart Prize-winning poet's memoir of his criminal youth and years in prison: a "brave and heartbreaking" tale of triumph over brutal adversity (The Nation). Jimmy Santiago Baca's "astonishing narrative" of his life before, during, and immediately after the years he spent in the maximum-security prison garnered tremendous critical acclaim. An important chronicle that "affirms the triumph of the human spirit," it went on to win the prestigious 2001 International Prize (Arizona Daily Star). Long considered one of the best poets in America today, Baca was illiterate at the age of twenty-one when he was sentenced to five years in Florence State Prison for selling drugs in Arizona. This raw, unflinching memoir is the remarkable tale of how he emerged after his years in the penitentiary—much of it spent in isolation—with the ability to read and a passion for writing poetry. "Proof there is always hope in even the most desperate lives." —Fort Worth Star-Telegram "A hell of a book, quite literally. You won't soon forget it." —The San Diego U-T "This book will have a permanent place in American letters." —Jim Harrison, New York Times—bestselling author of *A Good Day to Die*

**Rhythms of Feeling in Edward Lear, T. S. Eliot, and Stevie Smith** - Jasmine Jagger  
2022-04

Rich with unpublished material and detailed insight, *Rhythms of Feeling* offers a new reading of three of the most celebrated poets: Edward Lear, T.S. Eliot, and Stevie Smith. Tracing exciting lines of interplay, affinity, and influence between these writers for the first time, the book shifts the terms of critical debate on Lear, Eliot, and Smith and subtly reorients the traditional account of the genealogies of Modernism. Going beyond a biographically-framed close reading or a more general analysis framed by affect theory, the volume traces these poets' 'affective rhythms' (fits, tears, nerves) to consider the way that poetics, the mental and physical process of writing and reading, and the ebbs and flows of their emotional weather might be in dialogue. Attentive, acute, and often forensic, the book broadens its reach to contemporary writers and medical accounts of creativity and cognition. Alongside deep critical study, this volume seeks to bring emotional intelligence to criticism, finding ways of speaking lucidly and humanely about emotional and physical states that defy lucidity and stretch our sense of the human.
