Ethics, Conflict and Medical Treatment for Children E-Book - Dominic Wilkinson 2018-08-05

What should happen when doctors and parents disagree about what would be best for a child? When should courts become involved? Should life support be stopped against parents' wishes? The case of Charlie Gard, reached global attention in 2017. It led to widespread debate about the ethics of disagreements between doctors and parents, about the place of the law in such disputes, and about the variation in approach between different parts of the world. In this book, medical ethicists Dominic Wilkinson and Julian Savulescu critically examine the ethical questions at the heart of disputes about medical treatment for children. They use the Gard case as a springboard to a wider discussion about the rights of parents, the harms of treatment, and the vital issue of limited resources. They discuss other prominent UK and international cases of disagreement and conflict. From opposite sides of the debate Wilkinson and Savulescu provocatively outline the strongest arguments in favour of and against treatment. They analyse some of the distinctive and challenging features of treatment disputes in the 21st century and argue that disagreement

about controversial ethical questions is both inevitable and desirable. They outline a series of lessons from the Gard case and propose a radical new 'dissensus' framework for future cases of disagreement. This new book critically examines the core ethical questions at the heart of disputes about medical treatment for children. The contents review prominent cases of disagreement from the UK and internationally and analyse some of the distinctive and challenging features around treatment disputes in the 21st century. The book proposes a radical new framework for future cases of disagreement around the care of gravely ill people.

Down Girl - Kate Manne 2019-03-01

'An important and compelling analysis of a phenomenon that's everywhere' Cordelia Fine, Big Issue 'Offers a sharply cut prism through which to view our everyday experience' Afua Hirsch, The TLS A powerful, lucid analysis of the logic of misogyny from a remarkable feminist thinker, Down Girl is essential reading for the #MeToo era. Misogyny is a hot topic, yet it's often misunderstood. What is misogyny, exactly? Who deserves to be called a misogynist? How does misogyny contrast with sexism, and why is it prone to persist - or increase - even when sexist gender roles are waning? In Down Girl moral philosopher Kate Manne argues that misogyny should not be understood primarily in terms of the hatred or hostility some men feel toward all or most women. Rather, it is primarily about controlling, policing, punishing and exiling the

"bad" women who challenge male dominance. And it is compatible with rewarding "the good ones" and singling out other women to serve as warnings to those who are out of order.

[Cues](#) - Vanessa Van Edwards 2022-03-03

It's not enough to have great ideas. You also need to know how to communicate them. What makes someone charismatic? Why do some people captivate a room, while others have trouble managing a small meeting? What makes some ideas spread, while other good ones fall by the wayside? Cues - the tiny signals we send to others 24/7 through our body language, facial expressions, word choices and vocal inflection - have a massive impact on how we, and our ideas, come across. Our cues can either enhance our message or undermine it. In this entertaining and accessible guide to the hidden language of cues, Vanessa Van Edwards teaches you how to convey power, trust, leadership, likability and charisma in every interaction. You'll learn: - Which vocal cues make you sound more confident - Which body language cues assert, 'I'm a leader, and here's why you should join me' - Which verbal cues to use in pitches, branding and emails to increase trust (and generate excitement about interacting with you) - Which visual cues you are sending in your profile pictures, clothing and professional brand Whether you're pitching an investment, negotiating a job offer or having a tough conversation with a colleague, Cues can help you improve your relationships, express empathy and create meaningful connections with lasting impact. 'A must-have guide to becoming an unstoppable force' - Mel Robbins 'Packed with invaluable strategies for maximizing your message, Van Edward's energy will inspire you to become the best possible version of yourself' - Nir Eyal

Ninth Street Women - Mary Gabriel 2018-09-25

Five women revolutionize the modern art world in postwar America in this "gratifying, generous, and lush" true story from a National Book Award and Pulitzer Prize finalist (Jennifer Szalai, *New York Times*). Set amid the most turbulent social and political period of modern times, *Ninth Street Women* is the impassioned, wild, sometimes tragic, always exhilarating chronicle of five women who dared to enter the male-dominated world of twentieth-century abstract painting -- not as muses but as artists. From their cold-water lofts, where they worked, drank, fought, and loved, these pioneers burst open the door to the art world for themselves and countless others to come. Gutsy and indomitable, Lee Krasner was a hell-raising leader among artists long before she became part of the modern art world's first celebrity couple by marrying Jackson Pollock. Elaine de Kooning, whose brilliant mind and peerless charm made her the emotional center of the New York School, used her work and words to build a bridge between the avant-garde and a public that scorned abstract art as a hoax. Grace Hartigan fearlessly abandoned life as a New Jersey housewife and mother to achieve stardom as one of the boldest painters of her generation. Joan Mitchell, whose notoriously tough exterior shielded a vulnerable artist within, escaped a privileged but emotionally damaging Chicago childhood to translate her fierce vision into magnificent canvases. And Helen Frankenthaler, the beautiful daughter of a prominent New York family, chose the difficult path of the creative life. Her gamble paid off: At twenty-three she created a work so original it launched a new school of painting. These women changed American art and society, tearing up the prevailing social code and replacing it with a doctrine of liberation. In *Ninth Street Women*, acclaimed author Mary Gabriel tells a remarkable and inspiring story of the power of art and artists in shaping not just postwar America but the future.

White Fragility - Robin DiAngelo 2019-02-07

The International Bestseller 'With clarity and compassion, DiAngelo allows us to understand racism as a practice not restricted to "bad people." In doing so, she moves our national discussions forward. This is a necessary book for all people invested in societal change' Claudia Rankine Anger. Fear. Guilt. Denial. Silence. These are the ways in which ordinary white people react when it is pointed out to them that they have done or said something that has - unintentionally - caused racial offence or hurt. After, all, a racist is the worst thing a person can be, right? But these reactions only serve to silence people of colour, who cannot give honest feedback to 'liberal' white people lest they provoke a dangerous emotional reaction. Robin DiAngelo coined the term 'White Fragility' in 2011 to describe this process and is here to show us how it serves to uphold the system of white supremacy. Using knowledge and insight gained over decades of running racial awareness workshops and working on this idea as a Professor of Whiteness Studies, she shows us how we can start having more honest conversations, listen to each other better and react to feedback with grace and humility. It is not enough to simply hold abstract progressive views and condemn

the obvious racists on social media - change starts with us all at a practical, granular level, and it is time for all white people to take responsibility for relinquishing their own racial supremacy. 'By turns mordant and then inspirational, an argument that powerful forces and tragic histories stack the deck fully against racial justice alongside one that we need only to be clearer, try harder, and do better' David Roediger, Los Angeles Review of Books 'The value in White Fragility lies in its methodical, irrefutable exposure of racism in thought and action, and its call for humility and vigilance' Katy Waldman, New Yorker 'A vital, necessary, and beautiful book' Michael Eric Dyson

The Girl with No Name - Marina Chapman 2013-04-04

The next, I saw the flash of a black hand and white cloth, and before I even had a chance to cry out it had sailed towards my face, and completely covered it . . .' In 1954, in a remote South American village, a four-year-old girl was abducted and then abandoned deep in the Colombian rainforest. So begins the incredible true story of Marina Chapman, who went on to spend several years alone in the jungle, her only family a troop of capuchin monkeys. Using instinct to guide her, she copied everything they did and soon learned to fend for herself. At around ten years old, a completely feral Marina was returned to civilisation

by hunters, who sold her to a brothel. After being enslaved and beaten daily, she escaped - to live the perilous existence of a Colombian city street kid. Marina's life as a wild child wasn't over. In some ways, it had only just begun. This is her astonishing story.
