Wisdom Literature - Roland Edmund Murphy
1981

This is a print on demand book and is therefore non- returnable. Murphy sees three of the six books (Proverbs, Job, and Ecclesiastes) as being technically 'wisdom literature.' The others are either love poems or historical narrative that fit well within the context of the subject presented here. In this volume previous form-critical work is carefully evaluated, and the result is a thorough-going form-critical treatment of this part of the Old Testament. The work is enhanced by bibliographies for each Old Testament book and a glossary of general terms.

Love, Sex, and Desire in Modern Egypt - L. L. Wynn 2018-11-23

Cairo is a city obsessed with honor and respectability—and love affairs. Sara, a working-class woman, has an affair with a married man and becomes pregnant, only to be abandoned by him; Ayah and Zeid, a respectably engaged couple, argue over whether Ayah's friend is a prostitute or a virgin; Malak, a European belly dancer who sometimes gets paid for sex, wants to be loved by a man who won't treat her like a whore just because she's a dancer; and Alia, a Christian banker who left her abusive husband, is the mistress of a wealthy Muslim man, Haroun, who encourages business by hosting risqué parties for other men and their mistresses. Set in transnational Cairo over two decades, *Love, Sex, and Desire in Modern Egypt* is an ethnography that explores female respectability, male honor, and Western theories and fantasies about Arab society. L. L. Wynn uses stories of love affairs to interrogate three areas of classic anthropological theory: mimesis, kinship, and gift. She develops a broad picture of how individuals love and desire within a cultural and political system that structures the possibilities of, and penalties for, going against sexual and gender norms. Wynn demonstrates that love is at once a moral horizon, an attribute that "naturally" inheres in particular social relations, a social phenomenon strengthened

through cultural concepts of gift and kinship, and an emotion deeply felt and desired by individuals.

After A Funeral - Diana Athill 2012-10-04

This is the story of how and why a talented writer came to kill himself. When Diana Athill met the man she calls Didi, an Egyptian in exile, she fell in love instantly and out of love just as fast. Didi moved into her flat, they shared housework and holidays, and a life of easy intimacy seemed to beckon. But Didi's sweetness and intelligence soon revealed a darker side - he was a gambler, a drinker and a womanizer, impossible to live with but impossible to ignore. With painful honesty, Athill explores the three years they spent together, a period that culminated in Didi's suicide - in her home - an event he described in the journals he left for her to read as 'the one authentic act of my life'.

Egyptian Foreign Policy From Mubarak to Morsi - Nael Shama 2013-10-30

Egyptian Foreign Policy from Mubarak to Morsi explores an area rarely touched upon by researchers, the relationship between regime security and the national interest. Concentrating on Egyptian foreign policy under President Hosni Mubarak, this book analyses how it was used to bolster his internal hold on power. In considering Egyptian foreign policy, two central case studies are examined. Firstly, Egypt's reluctance to re-establish diplomatic ties with Iran, and secondly, Egypt's response to the efforts of the Bush administration in promoting political reform in the Middle East. When examining these case studies the impact of different societal factors on decision-making is taken into consideration, highlighting the role of business groups and the security apparatus in foreign policy decision-making. Concluding with a discussion of Egypt's foreign policy in the first year of Mohamed Morsi's rule, and arguing that it has departed little from Mubarak's policy, this book is a vital resource for anyone interested in contemporary Egyptian politics, Middle East Studies and International Relations more broadly.

Walk Like an Egyptian - Ramona Louise Wheeler 2005-07-01

The calendar material in this expanded edition of *Walk Like An Egyptian* provides further insight into the mind of the ancient world, a glimpse into a world in which every element of reality was a manifestation of the divine and the cosmic, a time in which even the counting of

days and months into years was a mystery of divine proportions. The calendar of ancient Egypt is older than astrology. The Egyptian calendar itself is almost forgotten, yet it is the direct ancestor of the Western calendar in use today. The ancient Egyptians were keenly focused on the concept of life as a journey through time, and the calendar was their map. In *Walk Like An Egyptian*, you will find one of the world's oldest guides to self-navigation in an easy-to-use format, a daily horoscope from the dawn of history. Each season, month and day is listed with its ancient name, together with the warnings and requirements, stories and scenarios of the gods involved in the story of the year. The day is divided into eight-hour segments of morning, afternoon and night. Sacred ceremonies and ritual feasts are also listed, making the calendar a complete guide to the Egyptian year, a horoscope unlike any other available in the modern world. The earlier editions of *Walk Like An Egyptian* brought the concepts of ancient Egyptian religion and philosophy into the context of the modern world. Readers around the globe found the once-obscure ideas of ancient wisdom interpreted as profound contemplations of the reality of human nature. Many familiar names in the ancient pantheon were revealed in modern terms, such as: Osiris, the divine and immortal portion of each human's soul clothed in mortal flesh; Re, the divine light of consciousness in the mind; Horus, who is the paradox of the universal nature of each soul's unique identity; Isis, bonding force of the soul; Thoth, representing the power of human thought and intellect, and more. The success of *Walk Like An Egyptian* led to Wheeler's collaboration with Diana Janeen Pierce, who had assembled a daily calendar of ancient Egyptian ceremonies, rituals and festivals. Wheeler and Pierce worked together on a translation of the lengthy and difficult Cairo Calendar Papyri, one of the few surviving documents detailing the system by which Egyptians organized their daily lives. Wheeler's accompanying interpretation of the Egyptian cosmos makes a lively counterpart to the horoscope, clarifying the often confusing material. Together, Wheeler and Pierce provide a modern evaluation of how to "walk like an Egyptian," attuned to eternity in your daily life

and guided by eternal principles.

Film and Counterculture in the 2011 Egyptian Uprising - Amir Taha 2021-04-15

This book examines how film articulates countercultural flows in the context of the Egyptian Revolution. The book interrogates the gap between radical politics and radical aesthetics by analyzing counterculture as a form, drawing upon Egyptian films produced between 2010 and 2016. The work offers a definition of counterculture which liberates the term from its Western frame and establishes a theoretical concept of counterculture which is more globally redolent. The book opens a door for further research of the Arab Uprising, arguing for a new and topical model of rebellion and struggle, and sheds light on the interaction between cinema and the street as well as between cultural narratives and politics in the context of the 2011 Egyptian uprising. What is counterculture in the twenty-first century? What role does cinema play in this new notion of counterculture?
