

Just Sex The Cultural Scaffolding Of Rape

The Hunting Ground - Kirby Dick 2016-05-17
The debate over sexual violence on campus is reaching fever pitch, from headlines about out-of-control fraternities, to the "mattress protests" by female students at Columbia University and other colleges. *The Hunting Ground*, the new documentary by award-winning filmmakers Kirby Dick and Amy Ziering, has taken this debate to a new level, becoming a galvanizing catalyst for discussion at the hundreds of campuses where the documentary is being screened each month. The film has sparked calls for legislation by Governor Andrew M. Cuomo of New York and other prominent public figures and sparked a backlash from university administrators, fraternities, and conservative

groups. Now, in a new companion volume to the film, all those concerned about the "rape culture" on campus will be offered an inside perspective on the controversy, as well as reactions to the film from a range of leading writers and guidance on how to learn more and get active. As in the film, it's the gripping personal stories told by female students—and the obstinate refusal of college administrators and law enforcement authorities to recognize the severity of the problem—that will rivet readers.

Rape Justice - Nicola Henry 2015-09-14

This book explores the burgeoning interest in alternative and innovative justice responses to sexual violence both within and

outside the legal system. It explores the limits of criminal law for achieving 'rape justice' and highlights possibilities for expanding how we think about justice in the aftermath of sexual violence.

Just Sex? - Nicola Gavey
2013-10-14

Winner of the Association for Women In Psychology 2006 Distinguished Publication Award! The past two decades have witnessed a significant shift in how rape is understood in Western societies. This shift in perception has revealed the startling frequency of occurrences of date rape, obscuring the divide between rape and what was once just sex. *Just Sex?* combines an overview of the existing literature with an analysis of recent research to examine the psychological and cultural implications of this new epidemic. The result is the conclusion that feminist theory on sexual victimisation has gone both too far and not far enough. The reader is presented with a challenging and original perspective on the

issues of rape, sex and the body, incorporating subjects including: * rape as a social problem * the social constructionism of sex, subjectivity and the body * heterosexuality under the microscope This book succeeds in making a valuable contribution to feminist and social constructionist work on rape that will be of interest to those studying psychology, gender studies, cultural studies and sociology. *Just Sex? The Cultural Scaffolding of Rape* was selected as a 2005 winner of AWP's (Association for Women in Psychology) distinguished publication award.

of gender equality and citizens' feelings of security, studies on the prevalence of sexual victimisation present a different picture, suggesting that the very countries that have invested much in establishing gender equality actually see a high prevalence of sexual violence. This book sheds light on the phenomenon and construction of rape and other forms of sexual violence within the Nordic region, exploring the ways in which rape and sexual violence are dealt with through criminal law and considering governmental policies aimed at combatting it, with a special focus on legal regulations and developments. Thematically organised, it offers new research on perpetrators, victimhood, criminal justice and prevention. Multi-disciplinary in approach, it brings together the latest work from a range of scholars to offer insights into the situation in the five Nordic countries, asking how and why rape and other forms of sexual violence occur, whilst also addressing the timely issues of

online sexual cultures, BDSM and the grey areas of sexual offences. As such, it will appeal to scholars of sociology, criminology and law with interests in gender and sexual violence.

[Sexual Violence on Trial](#) - Rachel Killean 2021-02-28
Sexual Violence on Trial provides a contemporary critical examination of the investigation, prosecution and cultural contexts of sexual violence. It draws on Northern Ireland as a case study, while also drawing on experiences from other jurisdictions across the United Kingdom and island of Ireland. Public and academic debates concerning the high-profile 'Belfast/Rugby Rape Trial' and the subsequent Gillen review of the arrangements to deliver justice in serious sexual offence cases have been mirrored at a global level with movements such as #MeToo and #TimesUp. This book brings together the perspectives of practitioners and academics to discuss contemporary challenges surrounding the societal and

legal framing of sexual violence. It examines key aspects of the criminal justice process including the challenges of supporting victims; of responding to a range of forms of sexual violence such as rape, peer abuse, intimate partner violence and forced-to-penetrate cases; as well as alternative perspectives and future reforms. It also considers broader debates including balancing the interests of victims and defendants; the impact of cultural myths and stereotypes; the challenges of the digital age; models of consent; legal representation for victims and anonymity and publicity surrounding trials. Written by leading authorities in the field, *Sexual Violence on Trial* will be of great interest to students and scholars of Criminology, Law and Sociology.

Big Pharma, Women, and the Labour of Love - Thea

Cacchioni 2015-07-27

In 2010, Thea Cacchioni testified before the US Food and Drug Administration against flibanserin, a drug proposed to treat low sexual desire in women, dubbed by the media the "pink Viagra." She was one of many academics and activists sounding the alarm about the lack of science behind the search for potentially lucrative female sexual enhancement drugs. In her book, *Big Pharma, Women, and the Labour of Love*, Cacchioni moves beyond the search for a sexual pharmaceutical drug for women to ask a broader question: how does the medicalization of female sexuality already affect women's lives? Using in-depth interviews with doctors, patients, therapists, and other medical practitioners, Cacchioni shows that, whatever the future of the "pink Viagra," heterosexual women often now feel expected to take on the job of managing their and their partners' sexual desires. Their search for sexual pleasure can

be a “labour of love,” work that is enjoyable for some but a chore for others. An original and insightful take on the burden of heterosexual norms in an era of compulsory sexuality, Cacchioni’s investigation should open up a wide-ranging discussion about the true impact of the medicalization of sexuality.

Thinking about Evolution - Rama S. Singh 2001

Originally published in 2001, this is the second of two volumes published by Cambridge University Press in honour of Richard Lewontin. This second volume of essays honours the philosophical, historical and political dimensions of his work. It is fitting that the volume covers such a wide range of perspectives on modern biology, given the range of Lewontin's own contributions. He is not just a very successful practitioner of evolutionary genetics, but a rigorous critic of the practices of genetics and evolutionary biology and an articulate analyst of the social, political and economic contexts

and consequences of genetic and evolutionary research. The volume begins with an essay by Lewontin on Natural History and Formalism in Evolutionary Genetics, and includes contributions by former students, post-docs, colleagues and collaborators, which cover issues ranging from the history and conceptual foundations of evolutionary biology and genetics, to the implications of human genetic diversity.

Preventing Sexual Violence -

N. Henry 2014-10-02

This unique interdisciplinary collection investigates the philosophy and practice of primary prevention of sexual violence within education institutions and the broader community.

Rape Work - Patricia Yancey Martin 2013-01-11

Despite the proliferation of rape crisis centers and other improvements in the treatment of rape victims over the past 20

years, many victims still find themselves the victims of what has been called a "second rape" by doctors, lawyers, judges, police, and administrators that process them. This book takes a critical look at the organizations and officials that process rape victims to see how the structure of their respective organizations often prevent them from providing responsive care.

Everyday Pornography -

Karen Boyle 2010-09-13

Public and academic debate about 'porn culture' is proliferating. Ironically, what is often lost in these debates is a sense of what is specific about pornography. By focusing on pornography's mainstream - contemporary commercial products for a heterosexual male audience - Everyday Pornography offers the opportunity to reconsider what it is that makes pornography a specific form of industrial

Sexual Harassment, Psychology and Feminism -
Lisa Lazard 2020-10-03

This book provides a feminist psychological analysis of contemporary resistance to sexual harassment in and around #MeToo. It explores how women's assumed empowerment in postfeminist and neoliberal feminist discourses has shaped understandings of sexual harassment and social responses to it. This exploration is grounded in the trajectories of feminist activism and psychological theory about sexual harassment. Lazard addresses the gendered binary of female victims and male perpetrators in contemporary victim politics and the treatment of perpetrators within postfeminist and neoliberal frames. In doing so, the author unpacks the cultural

This book will be a valuable resource not only for scholars and students from within the psychological sciences and gender studies, but for the wider social sciences and anyone interested in the psychological grounding of the #MeToo movement.
