Ask a Manager - Alison Green 2018-05-01

'I'm a HUGE fan of Alison Green's "Ask a Manager" column. This book is even better' Robert Sutton, author of *The No Asshole Rule* and *The Asshole Survival Guide* 'Ask A Manager is the book I wish I'd had in my desk drawer when I was starting out (or even, let's be honest, fifteen years in)' - Sarah Knight, New York Times bestselling author of *The Life-Changing Magic of Not Giving a F*ck* A witty, practical guide to navigating 200 difficult professional conversations Ten years as a workplace advice columnist has taught Alison Green that people avoid awkward conversations in the office because they don't know what to say. Thankfully, Alison does. In this incredibly helpful book, she takes on the tough discussions you may need to have during your career. You'll learn what to say when: · colleagues push their work on you - then take credit for it · you accidentally trash-talk someone in an email and hit 'reply all' · you're being micromanaged - or not being managed at all · your boss seems unhappy with your work · you got too drunk at the Christmas party With sharp, sage advice and candid letters from real-life readers, *Ask a Manager* will help you successfully navigate the stormy seas of office life.

The Big Disruption: A Totally Fictional But Essentially True Silicon Valley Story - Jessica Powell 2019-04-03

The first novel ever published by the digital platform Medium, *The Big Disruption* surpassed 100,000 readers in its first two weeks online and was described by Farhad Manjoo in *The New York Times* as "a zany satire [whose] diagnosis of Silicon Valley's cultural stagnancy is so spot on that it's barely contestable."

Contextual Safeguarding and Child Protection - Carlene Firmin 2020-05-20

This book offers a complete account of Contextual Safeguarding theory, policy, and practice frameworks for the first time. It highlights the particular challenge of extra-familial routes through which young people experience significant harm, such as child sexual exploitation, criminal exploitation, serious youth violence, domestic abuse in teenage relationships, bullying, gang-association, and radicalisation. Through analysing case reviews, observing professionals, and co-creating practices with them, Firmin provides a personal, philosophical, strategic, and practical account of the design, implementation and future of Contextual Safeguarding. Drawing together a wealth of practice examples, case studies, policy references, and practitioner insights for the first time, this book articulates a new safeguarding framework and provides a detailed account of its translation across an entire child protection system and its relevant component parts. It will be of interest to all scholars, students, and professionals working within social work, youth justice and youth work, policing and law enforcement, community safety, council services, forensic and clinical psychology, counselling, health, and education.

Infractions - Jerry Parkinson 2019-09-01

Jerry Parkinson spent nearly ten years, from 2000 to 2010, as a member of the NCAA's Division I Committee on Infractions, participating in over one hundred major infractions cases. He came away from that experience—and the experience of reading extensive commentary on infractions cases—with the conviction that most observers do not understand the NCAA's rules-enforcement process, despite the amount of public attention many major cases receive. Parkinson uses his insider's perspective, along with illustrative stories, to help readers understand how the NCAA's rules-enforcement process really works. These stories include: a university board of trustees chair committing suicide over an infractions case; a pay-for-play scandal leading directly to the state's governor; a head coach falsely portraying a deceased player as a drug dealer to cover up the coach's own misconduct; a gambler laundering his money by making the largest booster payments in NCAA history; and a coach's sexual abuse of children leading to some of the harshest sanctions ever imposed by the NCAA. Based on years of experience and infused with insight, Parkinson provides a broad view of the world of NCAA rule breakers and the NCAA rules-enforcement process.
