Straight from the Horse's Mouth - Meryem Alaoui 2020-09-15

Named a Best Book of the Year by the Los Angeles Public Library This hilarious, colorful portrait of a sex worker navigating life in modern Morocco introduces a promising new literary voice. Thirty-four-year-old prostitute Jmiaa reflects on the bustling world around her with a brutal honesty, but also a quick wit that cuts through the drudgery. Like many of the women in her working-class Casablanca neighborhood, Jmiaa struggles to earn enough money to support herself and her family—often including the deadbeat husband who walked out on her and their young daughter. While she doesn't despair about her profession like her roommate, Halima, who reads the Quran between clients, she still has to maintain a delicate balance between her reality and the "respectable" one she paints for her own more conservative mother. This daily grind is interrupted by the arrival of an aspiring young director, Chadlia, whom Jmiaa takes to calling "Horse Mouth." Chadlia enlists Jmiaa's help on a film project, initially just to make sure the plot and dialogue are authentic. But when she's unable to find an actress who's right for the starring role, she turns again to Jmiaa, giving the latter an incredible opportunity for a better life. In her breakout debut novel, Meryem Alaoui creates a vibrant picture of the day-to-day challenges faced by working people in Casablanca, which they meet head-on with resourcefulness and resilience.

Improving the Measurement of Late-Life Disability in Population Surveys - National Research Council 2009-11-29

Improving the Measurement of Late-Life Disability in Population Surveys summarizes a workshop organized to draw upon recent advances to improve the measurement of physical and cognitive disability in population surveys of the elderly population. The book

questions whether or not the measures of activities of daily living and instrumental activities of daily living used in many population surveys are sufficient as the primary survey-based indicators of late-life disability. If not, should they be refined or should they be supplemented by other measures of disability in surveys? If yes, in what ways should disability measures be changed or modified to produce population estimates of late-life disability and to monitor trends? The book also discusses what further research is needed to advance this effort.

Pool of Life - Kailāsha Jī Purī 2013

This life story of Kailash Puri, a Punjabi author and advice columnist, connects the narrative of her life to the history of Punjabi diaspora and

themes in Sikh studies. Beginning with her memories of childhood in West Punjab, the work evokes the rural customs and religious practices consistent with recent scholarship on Punjabi religion rather than with the currently dominant Sikh discourse of a religion sharply distinguished from Hindu society. An arranged marriage at the age of 15 to scientist Gopal Puri brought Kailash ever-widening horizons as they moved from India to London. Through such life experiences, and with her husband's constant encouragement, Kailash gained the confidence to begin writing and publishing numerous stories and articles. As her name recognition grew, those in distress began writing this agony aunt for advice and the descriptive narrative of her responses and advice and increasingly public profile provides insight into Sikhs' experience in their adopted country. An engaging look at the full life of a Sikh woman, this autobiography will be loved by anyone with an interest in Sikhism and the integration into western society.

Women in Buddhism - Diana Y. Paul 1985-04-23

"In seeking to explore the interrelationships between, and mutual influence of, varieties of sexual stereotypes and religious views of the Mahayana Buddhist tradition, Women in Buddhism succeeds in drawing our attention to matters of philosophical importance. Paul examines the 'image' of women which arise in a number of Buddhist texts associated with Mahayana and finds that, while ideally the tradition purports to be egalitarian, in actual practice it often betrayed a strong misogynist prejudice. Sanskrit and Chinese texts are organized by theme and type, progressing from those which treat the traditionally orthodox and negative to those which set forth a positive consideration of soteriological paths for women.

. . . In Women in Buddhism, Diana Paul may be forcing our consideration of the problem of female enlightenment. Thus the main purport and accomplishment of her scholarship is revolutionary."—Philosophy East and West
