Lovestrology Phyllis Vega 2007-07-01 Have you ever wondered how your date of birth affects your love life, the unique qualities that define you, and the passions that drive you? Or why everyone seems to be talking about Mars and Venus, and their influence on intimate relationships? In Lovestrology, the author draws on the predictive powers of astrology and the ancient art of numerology to create revealing romantic portraits that provide everything you need to know to enjoy great relationships. The book is divided into two sections. Part One: The 366 Birthdays of the Year gives a comprehensive individual romantic profile for each birth date. Part Two: Men and Women are from Mars and Venus delineates the drives and passions associated with each Mars sign, shows the ways in which you share love and affection via each Venus sign, and provides readings for each of the 144 possible Mars/Venus combinations. The sign connections between the planets of love and passion on your birthdays indicate the compatibility potential between you and your lover. Lovestrology manages to be unfailingly upbeat and positive without sugarcoating the challenges and difficulties symbolized by each of the 366 birthdays and 12 zodiacal signs. This provocative book sheds new light on your prospects for finding and maintaining a successful love relationship.

Matching Birthdays for Happiness Valerie Kaye 2021-12-21 Matching Birthdays for Happiness is a system that was devised by matching 5 astrology and numerology ingredients found in one's birth day. This rating system (1-5) determines the strength of a relationship. The majority of happy relationships that were evaluated by the system verified 3-5 matches in each couples birth day. The essential purpose of the book is to share the successful evaluation with just 5 ingredients. This matching system brought me tremendous happiness in my relationships. It is an essential part of the dating process. This system has been used for years. Every birth day contains characteristics and insightful information of that day. The System uses the compatibility found in the zodiac signs, numerology and Chinese astrology. Some people prefer to keep their age very private, and some easily share their birthday with others. The system identified the level of compatibility found when comparing each couple's birthday. Not only was it used to evaluate famous couples, it included historical couples, public officials, acquaintances, friends and family. Of course, everybody is in a relationship, with a friend or partner and if you're curious to know the reason of their attraction use the system. This book provides pages in the back of the book to process your own relationships with your friends. The system eliminates some of the uncertainty about compatibility in dating when the birthdays have matching ingredients. Also, it relaxes unrealistic expectations that often happens when we know nothing about the other person.
