Agnostic - Lesley Hazleton 2016-04-05
"Vital" -The New York Times Book Review
"Provocative...[Hazleton] paddles the river of doubt with energy and exuberance." -The Seattle Times
A widely admired writer on religion celebrates agnosticism as the most vibrant, engaging—and ultimately the most honest—stance toward the mysteries of existence. One in four Americans reject any affiliation with organized religion, and nearly half of those under thirty describe themselves as "spiritual but not religious." But as the airwaves resound with the haranguing of preachers and pundits, who speaks for the millions who find no joy in whittling the wonder of existence to a simple yes/no choice? Lesley Hazleton does. In

this provocative, brilliant book, she gives voice to the case for agnosticism, breaks it free of its stereotypes as watered-down atheism or amorphous "seeking," and celebrates it as a reasoned, revealing, and sustaining stance toward life. Stepping over the lines imposed by rigid conviction, she draws on philosophy, theology, psychology, science, and more to explore, with curiosity and passion, the vital role of mystery in a deceptively information-rich world; to ask what we mean by the search for meaning; to invoke the humbling yet elating perspective of infinity; to challenge received ideas about death; and to reconsider what "the soul" might be. Inspired and inspiring, *Agnostic* recasts the question of belief not as a problem to

be solved but as an invitation to an ongoing, open-ended adventure of the mind.

The Globalization of Crime - United Nations Office on Drugs and Crime 2010

In The globalization of crime: a transnational organized crime threat assessment, UNODC analyses a range of key transnational crime threats, including human trafficking, migrant smuggling, the illicit heroin and cocaine trades, cybercrime, maritime piracy and trafficking in environmental resources, firearms and counterfeit goods. The report also examines a number of cases where transnational organized crime and instability amplify each other to create vicious circles in which countries or even subregions may become locked. Thus, the report offers a striking view of the global dimensions of organized crime today.

[Infertility in the Male](#) - Larry I. Lipshultz

2009-09-24

The new edition of this canonical text on male reproductive medicine will cement the book's market-leading position. Practitioners across many specialties - including urologists, gynecologists, reproductive endocrinologists, medical endocrinologists and many in internal medicine and family practice - will see men with suboptimal fertility and reproductive problems. The book provides an excellent source of timely, well-considered information for those training in this young and rapidly evolving field. While several recent books provide targeted 'cookbooks' for those in a male reproductive laboratory, or quick reference for practising generalists, the modern, comprehensive reference providing both a background for male reproductive medicine as well as clinical practice information based on that foundation has been lacking until now. The book has been extensively revised with a particular focus on modern molecular medicine. Appropriate

Gaddafi's Harem - Annick Cojean 2013-09-03

This international bestseller is a “horrifying inside look at the lives of Libyan women under the Gaddafi regime . . . Powerful and compelling” (Booklist, starred review). Soraya was just fifteen, a schoolgirl in the coastal town of Sirte, when she was given the honor of presenting a bouquet of flowers to Colonel Gaddafi, “the Guide,” on a visit he was making to her school the following week. This one meeting—a presentation of flowers, a pat on the head from Gaddafi—changed Soraya’s life forever. Soon afterwards, she was summoned to Bab al-Azizia, Gaddafi’s palatial compound near Tripoli, where she joined a number of young women who were violently abused, raped, and degraded by Gaddafi. Heart-wrenchingly tragic but ultimately redemptive, Soraya’s story is the first one of many that are just now beginning to be heard. But sex and rape remain the highest

taboo in Libya, and women like Soraya (whose identity is protected by a pseudonym here) risk being disowned or even killed by their dishonored family members. In Gaddafi’s Harem, an instant bestseller on publication in France, Le Monde special correspondent Annick Cojean gives a voice to Soraya’s story, and supplements her investigation into Gaddafi’s abuses of power through interviews with people who knew Soraya, as well as with other women who were abused by Gaddafi. “A moving and disturbing wake-up call to the personal costs of totalitarianism.” —Publishers Weekly
