Genius on Television - Ashley Lynn Carlson 2015-07-11
Whether it's Sherlock Holmes solving crimes or Sheldon and Leonard geeking out over sci-fi, geniuses are central figures on many of television's most popular series. They are often enigmatic, displaying superhuman intellect while struggling with mundane aspects of daily life. This collection of new essays explores why TV geniuses fascinate us and how they shape our perceptions of what it means to be highly intelligent. Examining series like Criminal Minds, The Big Bang Theory, Bones, Elementary, Fringe, House, The Mentalist, Monk, Sherlock, Leverage and others, scholars

from a variety of disciplines discuss how television both reflects and informs our cultural understanding of genius.

The Sense of an Ending - Julian Barnes 2011-08-04

'A masterpiece... I would urge you to read - and re-read ' Daily Telegraph **Winner of the Man Booker Prize for Fiction 2011**
Tony Webster and his clique first met Adrian Finn at school. Sex-hungry and book-hungry, they would navigate the girl-less sixth form together, trading in affectations, in-jokes, rumour and wit. Maybe Adrian was a little more serious than the others, certainly more intelligent, but they all swore to stay friends for life. Now Tony is retired. He's had a career and a single marriage, a calm divorce. He's certainly never tried to hurt anybody.

Memory, though, is imperfect. It can always throw up surprises, as a lawyer's letter is about to prove. Now a major film

Sexual Violence Policies and Sexual Consent Education at Canadian Post-Secondary Institutions

- D. Scharie
Tavcer 2023-01-18

This book is the culmination of three years of research into sexual violence policies and sexual consent education at post-secondary institutions across Canada. The prevalence of sexual violence has not changed in more than 30 years, and its reporting to police or school authorities has only waxed and waned over those years. In response, this book asks what can be done differently to reduce the number of victims and potential perpetrators? The book provides an environmental scan of over 120 post-secondary institutions (PSIs) across Canada as well as a deeper analysis of 7 PSIs that also include student and staff experiences and opinions. The three-year research project

employed various phases to capture over 160 student voices and over 20 sexual violence staff and subject experts. Subject experts and students were also involved in reviewing the draft iterations of the proposed sexual consent education module. This book delivers readers with a broad-brush approach to understanding the landscape of sexual violence prevention and education services at PSIs across Canada. It provides a narrowed focus on 7 PSIs where student and staff survey responses and interviews provide positionality in response to the available literature. The book concludes with a proposed sexual consent education module, including its strengths and limitations, as a point of discussion for PSIs to include into their sexual violence prevention education repertoire. This book is intended for post-secondary audiences in Canada, North America, and elsewhere – for undergraduate and graduate students and faculty, staff, and administrators – where it is

the early months of 1995. Each entry provides names and addresses of the researchers, a detailed abstract, the source and amount of the grant(where applicable), the length of the project and details of published material about the research.

Reading Lena Dunham's Girls - Meredith Nash 2017-06-23

In this book, leading and emerging scholars consider the mixed critical responses to Lena Dunham's TV series *Girls* and reflect on its significance to contemporary debates about postfeminist popular cultures in a post-recession context. The series features both familiar and innovative depictions of young women and men in contemporary America that invite comparisons with *Sex and the City*. It aims for a refreshed, authentic expression of postfeminist femininity that eschews the glamour and aspirational fantasies spawned by its predecessor. This volume reviews the contemporary scholarship on *Girls*, from its representation of post-millennial gender politics to depictions of the messiness and

imperfections of sex, embodiment, and social interactions. Topics covered include Dunham's privileged role as author/auteur/actor, sexuality, body consciousness, millennial gender identities, the politics of representation, neoliberalism, and post-recession society. This book provides diverse and provocative critical responses to the show and to wider social and media contexts, and contributes to a new generation of feminist scholarship with a powerful concluding reflection from Rosalind Gill. It will appeal to those interested in feminist theory, identity politics, popular culture, and media.

The Pocketbook of Audience Research - Joke Hermes
2023-12-18

Focusing on qualitative methods, *The Pocketbook of Audience Research* uses contemporary, global television and cross-media examples to explain essential approaches to audience research and outline how they can be employed.

This handy guide is divided into three parts: the first part, 'Watching Post-Television', offers 'television' as a shortcut to understanding today's platform media and gives an introduction to key theoretical terms such as representation, identity and community. The second part, 'Methods with

Method', introduces different methodological tools to study cross-media texts and practices from an audience-led perspective. With individual chapters covering ethnography, textual analysis and visual methodologies, this part also functions as a toolset and starting point for small research projects. The third part, 'Methods in Action', offers a variety of recent case studies to show how these methodological principles work in practice. Drawing on different genres from drama to sports, *The Pocketbook of Audience Research* gives a sense of what audience-led cross-media research can achieve. This concise, accessible book gives students, early-career researchers and creative professionals the tools to do useful and inspiring audience research, whether for a paper, a proposal or a market survey.
