Transsexuality and the Art of Transitioning - Oren Gozlan 2014-08-13

Winner of The American Board and Academy of Psychoanalysis (ABAPsa) Book Prize for 2015

Transsexuality and the Art of Transitioning: A Lacanian approach presents a startling new way to consider psychoanalytic dilemmas of sexual difference and gender through the meeting of arts and the clinic.

Informed by a Lacanian perspective that locates transsexuality in the intermediate space between the clinic and culture, Oren Gozlan joins current conversations around the question of sexual difference with the insistence that identity never fully expresses sexuality and, as such, cannot be replaced by gender. The book goes beyond the idea of gender as an experience that gives rise to multiple identities and instead considers identity as split from the outset. This view transforms transsexuality into a particular psychic position, able to encounter the paradoxes of transitional experience and the valence of phantasy and affect that accompany aesthetic conflicts over the nature of beauty and being. Gozlan brings readers into the enigmatic qualities of representation as desire for completion and transformation through notions of tension, difference and aesthetics through examining the artwork of Anish Kapoor and Louise Bourgeois and the role played by confusion in the aesthetics of transformation in literature and memoir. Each chapter of the book presents a productive take on understanding the psychoanalytic demand to sustain and consider the dilemma that the unconscious presents to the knowledge and recognition of gender.

Fundamentally, this work understands transsexuality as a creative act, rich with desire and danger, in which thinking of the transsexual body as both an analytic and a subjective object helps us to reveal the creativity of sexuality. Ideal for psychoanalysts, psychologists, psychiatrists and social workers as well as students of psychoanalysis, cultural studies, literature studies and philosophy, Transsexuality and the Art of Transitioning offers a unique insight into psychoanalytic approaches to transsexuality and the question of assuming a position in gender.

"I Want to Be Like Nature Made Me" - InterACT 2017

"This report examines the physical and psychological damage caused by medically unnecessary surgery on intersex people, who are born with chromosomes, gonads, sex organs, or genitalia that differ from those seen as socially typical for boys and girls. The report examines the controversy over the operations inside the medical community, and the pressure on parents to opt for surgery"--Publisher's description.

Trans Activism in Canada - Dan Irving 2014-05-05

Centring the voices and experiences of trans identified people as experts on their own lives and agents of change, Trans Activism in Canada opens up a dialogue between scholars and community members in an effort to improve the lives of sex and gender variant people. The first of its kind, this anthology brings together activists and allies to examine the various strategies and forms of resistance needed to transform oppression into opportunity for change. Reflecting upon the challenges trans communities face and offering insight into achieving institutional reform, the themes addressed range from poverty and isolation to health care and best practices. Using personal narratives, archival material, and qualitative research, as well as case- and community-based research, this text demonstrates the leading role of trans and two-spirit activists in generating social change. By drawing on feminist, anti-racist, and social justice frameworks, the contributors approach oppression and activism as inseparable from hetero-patriarchal, colonialist, and

capitalist power relations. Written for trans activists, scholars, and allies, Trans Activism in Canada is poised to enrich transgender theorizing by focusing on concrete experiences and practical knowledge gained from the everyday lives of trans people.

Katherine's Diary - Katherine Cummings 2007

It reflects various types of stages and events that an LGBT community experiences in their lives. The author has highlighted the frequent phases of transgenderhood, which most of the lesbians, gays, bisexuals and transgenders undergo. The book covers imperative information about detransition, digital transgender archive, gender transition, healthcare, law, legal recognition, legal status of transgender people, LGBT in mythology, LGBT movements, LGBT sex education, medicalization, scientific studies of transsexuality, sex and gender, sexual orientation, spirituality, transfeminism, transgender day of remembrance, transgender history, transgender people and religion, and transvestism. It also focuses on some perceptive and discerning issues like criticism, discrimination, LGBT health disparities, suicide among LGBT youth, transgender inequality, transgender sex workers, transmisogyny, transphobia, violence against transgender people, and violence and criminal justice system. The author is acknowledging all the colleagues, friends, relatives, social media friends, and contemporaries for their suggestions, feedbacks, and opinions. This book will definitely be a 24x7 guide and a handy tool for all transgenders worldwide. The author feels highly indebted to 'The Almighty Living God', who has helped him directly or indirectly in writing of this book. May all LGBTs of the world live happy and peaceful life !

Current Critical Debates in the Field of Transsexual Studies - Oren Gozlan 2018-03-13

Current Critical Debates in the Field of Transsexual Studies introduces new thinking on non-conforming gender representation, addressing transsexuality as a subjective experience that highlights universal dilemmas related to how we conceive identity and exploring universal questions related to gender: its objects, objections, and obstacles. This book seeks to disassemble prejudicial orientations to the challenges and the everydayness of transsexuality and build new understanding and responses to issues including: medical biases, the problem of authenticity, and the agency of the child. Oren Gozlan leads an examination of three central pressures: transformation of a medical model, the social experience of becoming transgender, and the question of self-representation through popular culture. The chapters reframe several contemporary dilemmas, such as: authenticity, pathology, normativity, creativity, the place of the clinic as a problem of authority, the unpredictability of sexuality, the struggle with limits of knowledge, a demand for intelligibility and desire for certainty. The contributors consider sociocultural, theoretical, therapeutic, and legal approaches to transsexuality that reveal its inherent instability and fluidity both as concept and as experience. They place transsexuality in tension and transition as a concept, as a subject position, and as a subjectivity. The book also reflects the way in which political and cultural change affects self and other representations of the transsexual person and their others, asking: how does the subject metabolize the anxieties that relate to these transformations and facilitations? How can the subject respond in contexts of hostility and prohibition? Offering a much-needed interdisciplinary exploration, Current Critical Debates in the Field of Transsexual Studies will appeal to psychoanalysts and psychotherapist as well as psychologists and scholars of gender studies, cultural studies and sociology.

Gender Identity Disorder and Psychosexual Problems in Children and Adolescents - Kenneth J. Zucker 1995-10-13

This unique and timely volume provides a comprehensive overview of the most recent clinical work and research on the topic. Following an overview of the disorder, the first section of the book deals with young children, providing a detailed analysis of gender identity disorder in both boys and girls. The second section, which focuses on adolescents, covers gender identity disorder, transvestic fetishism - also based on the largest sample of individuals ever studied - and homosexuality. Detailed clinical case material, which brings the issues to life, is included throughout.

He Said, She Said - Gigi Gorgeous 2019-04-02

Today, Gigi Gorgeous is beloved for her critically-acclaimed documentary, her outrageous sense of humor, her no-holds-barred honesty, and her glam Hollywood lifestyle. Ten years ago, she was a gawky Canadian teen named Gregory. In *He Said, She Said*, Gigi brings us on her personal journey from Gregory to Gigi, going deeper than ever before and exposing her vulnerability behind each struggle and triumph, with her signature humor on every page. With stunning photography and heirloom snapshots, *He Said, She Said* takes us back to Gigi's early years as an Olympic-bound diver and high school mean girl, losing her mom at a tragically young age, and her journey of opening up about her sexuality and gender identity. She walks us through her transition, baring it all about dating and heartbreak in her stories of falling in love with both men and women. Uproarious, unconventional, and unabashedly candid, Gigi shares never-before-heard stories, inspiration, and advice about how your life can take you to incredible places once you get real with yourself.

Standardizing Injustice in Transition-related Medicine? - Kinnon Ross MacKinnon 2019

Transgender (trans) people experience barriers to transition medicine such as cross-sex hormones and sex reassignment surgeries. In response, standardized care protocols, such as the World Professional Association of Transgender Health standards of care (WPATH-SOC), are recommended to improve gaps in care. To better understand how standardized care protocols shape access to transition medicine in Canada, I draw on institutional ethnography as a critical research strategy. In this dissertation I thus explicate how the main protocols used to assess trans people's psychosocial readiness for hormones or surgeries serve a powerful coordinating function. Although significant advocacy targets the Diagnostic and Statistical Manual for Mental Disorders for pathologizing trans identity through the gender dysphoria diagnosis, my research demonstrates that the WPATH-SOC standardizes an entire model of care based in pathologization. This research project uses data obtained through talking with twenty-two trans people, clinicians, clinician-educators, and hospital administrators, observing clinician-education workshops, and analyzing pertinent assessment protocols and healthcare policy texts. My dissertation makes three substantive contributions to

the areas of public health, trans studies, and health professions education research. First, I show that standardized readiness assessments previously understood as innocuous instead contribute to inequities and further pathologize trans people. Second, I argue that in the absence of trans health in the formal health professions education curricula, standardized assessment protocols serve as a form of curriculum, coordinating how health professionals learn and teach this clinical sub-specialty. Third, the results of this research hold the potential to bolster trans health advocacy efforts by identifying how assessment protocols rule health professionals' and trans people's resistance practices. In the spirit of activist institutional ethnography this dissertation concludes with a discussion on recommended future advocacy and systems change in the areas of policy, education, and practice.

Transgender Jurisprudence, Identity and the Law - Lorraine Hor Kar Yip 2009

Sexual Orientation and Transgender Issues in Organizations - Thomas Köllen 2016-04-25

Over the last decade workforce diversity has attracted much scientific attention. Given the shortage of literature on issues related to homosexual, bisexual and transgender employees, compared to other facets of workforce diversity, this book opens up new perspectives on this issue. Emphasis is placed on the equal consideration of gay, lesbian, bisexual, and transgender issues. Thus the predominance of lesbian and gay issues in LGBT research (and practice), will be contrasted by an explicit consideration of the unique experiences, stressors and related needs of bisexual and transgender employees. Contributions provide deeper insights into the differing experiences the whole spectrum of LGBT employees make in the workplace in different national and occupational contexts. Furthermore, the collection offers contextualized insights for evaluating and conceptualizing organizational initiatives aiming at a higher level of inclusion for LGBT employees.

Sex Change, Social Change - Viviane Namaste 2011

Sex Change, Social Change: Reflections on Identity, Institutions, and Imperialism provides readers with an authoritative introduction to contemporary transsexual politics in Canadian and Québécois contexts. Through different case studies relating to the law, human rights, health care, and prostitution, Dr. Namaste exposes readers to the complex issues involved in how transsexual politics and feminism interrelate. Written in accessible language, and including interviews, essays, and political speeches, *Sex Change, Social Change* will appeal to academics and to activists in the community, as well as to the general reader. The second edition has been thoroughly updated with five new chapters and includes new commentary on the readings from the first edition. All royalties from the sale of this book go to PASAN (Prisoners' HIV/AIDS Support Action Network), in particular their emergency fund that provides modest amounts of money to prisoners upon their release. These funds enable people to secure housing, go to a job interview, and/or replace their identity documents.

The End of Gender - Debra Soh 2021-08-31

"International sex researcher, neuroscientist, and frequent contributor to *The Globe and Mail* (Toronto) Debra Soh [discusses what she sees as] gender myths in this ... examination of the many facets of gender identity"--

The Transsexual Delusion - G. Eugene Pichler 2016-07-08

In his book Pichler looks at transsexualism as a behavioral addiction, much like a sex addiction, Internet addiction or pathological gambling addiction, which is caused by a faulty reward system in the human brain. Pichler further reports that the medications that effectively treat behavioral addictions show good results in treating transsexualism. In fact modern research shows that the drugs that effectively treat epilepsies treat behavioral addictions, including transsexualism.
