Evolution and "the Sex Problem" - Bert Bender
2004

A noteworthy investigation of the Darwinian element in American fiction from the realist through the Freudian eras. theories of sexual selection and of the emotions are essential elements in American fiction from the late 1800s through the 1950s, particularly during the Freudian era and the years surrounding the Scopes trial. the Sex Problem, and what resulted was a great diversity of American narratives aligned with either Darwinian or a number of anti-Darwinian theories of evolution. Included are intriguing discussions of works by Frank Norris, Jack London, Stephen Crane, Theodore Dreiser, Gertrude Stein, Willa Cather, Sherwood

Anderson, F. Scott Fitzgerald, five writers of the Harlem Renaissance, John Steinbeck, and Ernest Hemingway. Among the ideas explored are Darwin's theory of common descent; the question of man's place in nature; the possibility of evolutionary progress; the issues of heredity and eugenics; the Darwinian basis of Freud's theory of sexual repression; the quandary of male violence and the role of female choice in sexual selection; the power of and the problems of racial and sexual selection; the power of and the problems of racial and sexual difference; and the ecological problems that arose directly from Darwin's theory of evolution. America's major narratives of human life and love and will be appreciated by literary scholars and readers

interested in Darwinism and culture.

Sex in Antiquity - Mark Masterson 2018-02-05

Looking at sex and sexuality from a variety of historical, sociological and theoretical perspectives, as represented in a variety of media, *Sex in Antiquity* represents a vibrant picture of the discipline of ancient gender and sexuality studies, showcasing the work of leading international scholars as well as that of emerging talents and new voices. Sexuality and gender in the ancient world is an area of research that has grown quickly with often sudden shifts in focus and theoretical standpoints. This volume contextualises these shifts while putting in place new ideas and avenues of exploration that further develop this lively field or set of disciplines. This broad study also includes studies of gender and sexuality in the Ancient Near East which not only provide

rich consideration of those areas but also provide a comparative perspective not often found in such collections. Sex in Antiquity is a major contribution to the field of ancient gender and sexuality studies.

Sex Objects - Jennifer Doyle 2006

The declaration that a work of art is “about sex” is often announced to the public as a scandal after which there is nothing else to say about the work or the artist-controversy concludes a conversation when instead it should begin a new one. Moving beyond debates about pornography and censorship, Jennifer Doyle shows us that sex in art is as diverse as sex in everyday life: exciting, ordinary, emotional, traumatic, embarrassing, funny, even profoundly boring. *Sex Objects* examines the reception and frequent misunderstanding of highly sexualized images, words, and performances. In chapters on the

“boring parts” of Moby-Dick, the scandals that dogged the painter Thomas Eakins, the role of women in Andy Warhol's Factory films, “bad sex” and Tracey Emin's crudely evocative line drawings, and L.A. artist Vaginal Davis's pornographic parodies of Vanessa Beecroft's performances, *Sex Objects* challenges simplistic readings of sexualized art and instead investigates what such works can tell us about the nature of desire. In *Sex Objects*, Doyle offers a creative and original exploration of how and where art and sex connect, arguing that to proclaim a piece of art “about sex” reveals surprisingly little about the work, the artist, or the spectator. Deftly interweaving anecdotal and personal writing with critical, feminist, and queer theory, she reimagines the relationship between sex and art in order to better understand how the two meet and why it matters. Jennifer Doyle is associate professor of English at the University of California, Riverside. She is coeditor, with Jonathan Flatley and Jos

Esteban Muoz, of *Pop Out: Queer Warhol*.

Wares atone end of the road and dogmatic'piety shouts warnings at the other - while between is chaos. And the chaos extends beyond ideas and talk, beyond novels and scenarios and Sunday feature stories, into the realm of actual conduct. Religion has indeed found substantial matter for its words of caution and disapproval: never in recent generations have human beings so floundered about outside the ropes 'oi social and religious sanctions. Art Sex Music - Cosey Fanni Tutti 2017-04-04
A SUNDAY TIMES, TELEGRAPH, ROUGH TRADE, PITCHFORK AND UNCUT MUSIC BOOK OF THE YEAR SHORTLISTED FOR THE PENDERYNN MUSIC BOOK PRIZE
Art Sex Music is the autobiography of a musician who, as a founding member of the avant-garde group Throbbing Gristle and electronic pioneers Chris & Cosey, has consistently challenged the boundaries of music over the past four

decades. It is the account of an artist who, as part of COUM Transmissions, represented Britain at the IXth Biennale de Paris, whose Prostitution show at the ICA in 1976 caused the Conservative MP Nicholas Fairbairn to declare her, COUM and Throbbing Gristle 'Wreckers of Civilisation' . . . shortly before he was arrested for indecent exposure, and whose work continues to be held at the vanguard of contemporary art. And it is the story of her work as a pornographic model and striptease artiste which challenged assumptions about morality, erotica and art. *Art Sex Music* is the wise, shocking and elegant autobiography of Cozey Fanni Tutti.
