Historical Linguistics, 1997 - Monika S. Schmid 1998-01-01

This volume presents a selection from the papers given at the 13th International Conference on Historical Linguistics. It offers a window on the current state of the art in historical linguistics: the papers cover a wide range of different languages, different language families, and different approaches to the study of linguistic change, ranging from optimality theory, theories of grammaticalization and the invisible hand, treatments of language contact and creolization to the linguistic consequences of political correctness. Among the languages under discussion are Akkadian, Catalan, Dutch, Finnish, Japanese, Sranan, Western Malayo-Polynesian, Yiddish, and a variety of Romance and Native American languages.

Sexuality and Public Space in India - Carmel Christy 2017-03-16

The topic of sexuality and gender within the South Asian context is timely and widely discussed across a variety of academic disciplines. Since the end of the last century, there have been debates in the cultural sphere in India on issues concerning Lesbian Gay Bisexual Transgender people's rights, gender, sex workers' rights and caste. There has also been an explicit visibility for sexuality in the form of discussion around intimate scenes in films, advertisements and moral concerns around pre-marital heterosexual relationships and same-sex relationships. This book brings out the modalities through which explicit visibility of sexuality gets constituted in the public space of India after the 1990s. The specificities through which relations of gender/ sexuality and caste get constituted and performed in regional media provide significant entry points to an understanding of larger structures and the ever-present fissures through which these larger structures emerge. Focussing on the southern state of Kerala, the book investigates women's sexuality and caste through a number of case studies: the Suryanelli rape case, neology in the media and the debates around the life narratives of Nalini Jameela, a sex worker. The book does not stop at representational practices as it also looks at the negotiations between the subject and her represented figures which is a significant addition to the existing body of work in the field of media and gender studies. Sexuality and Public Space in India is a careful interrogation of the mass-mediatized space of contemporary public discourse around sexuality. It will be of interest to academics in South Asian Studies, Sociology, Anthropology and Gender Studies.

Women's Work, Men's Work - National Research Council 1986-02-01

Even though women have made substantial progress in a number of formerly male occupations, sex segregation in the workplace remains a fact of life. This volume probes pertinent questions: Why has the overall degree of sex segregation remained stable in this century? What informal barriers keep it in place? How do socialization and educational practices affect career choices and hiring patterns? How do family responsibilities affect women's work attitudes? And how effective is legislation in lessening the gap between the sexes? Amply supplemented with tables, figures, and insightful examination of trends and research, this volume is a definitive source for what is known today about sex segregation on the job.

Doing Theology in the New Normal - Jione Havea 2021-07-30

Responses to the recent pandemic have been driven by fear, with social distancing and locking down of communities and borders as the most effective tactics. Out of fear and strategies that separate and isolate, emerges what has been described as the "new normal" (which seems to mutate daily). Truly global in scope, with contributors from across the world, this collection revisits four old responses to crises - assure, protest, trick, amend - to explore if/how those might still be relevant and effective and/or how they might be mutated during and after a global pandemic. Together they paint a grounded, earthy, context-focused picture of what it means to do theology in the new normal.

An essential manual for anybody who's ever considered a career as a phone sex operator, escort, call girl, exotic dancer, adult film performer or any other kind of sex worker.

Money for Something - Mia Walsch 2020-07-09

Mia is nineteen, too mentally ill and too often on drugs to keep a 'straight' job so she starts working at a massage parlour. She takes to sex work with recklessness, aplomb, and good humour. As she works her way through Sydney's many rub-and-tug joints, Mia, or Sasha as she is now known, meets women from every walk of life who choose sex work for myriad reasons. While negotiating the demands of her new job, she battles her problematic drug use, and the mental illness that has shaped her life. Rather than needing saving from sex work, it is the work that saves her from her many demons. This is a unique memoir that is shameless, painfully honest and with an ending that refuses to wrap up in a tidy bow. Rejecting the redemption narrative normally associated with sex work, this is an exploration of how it gave the author the stability she needed to save herself from drugs and mental illness. This alone sets it apart from other sex work memoirs, but it is the author's burning prose that is the real standout, shedding new light on mania, drug addiction and the benefits and pitfalls of sex work.

Work, Money and Duality - Raven Bowen 2021-05-19

Winner of the British Society of Criminology Annual Book Prize 2022. This valuable exploration of work duality calls for recognition of the experiences of sex workers, featuring the accounts of individuals who take extraordinary risks to hold jobs in both sex industries and non-sex work employment.

Citizen, Mother, Worker - Emilie Stoltzfus 2004-07-21

During World War II, American women entered the workforce in unprecedented numbers, and many of them relied on federally funded child care programs. At the end of the war, working mothers vigorously protested the termination of child care subsidies. In *Citizen, Mother, Worker*, Emilie Stoltzfus traces grassroots activism and national and local policy debates concerning public funding of children's day care in the two decades after the end of World War II. Using events in Cleveland, Ohio; Washington, D.C.; and the state of California, Stoltzfus identifies a prevailing belief among postwar policymakers that women could best serve the nation as homemakers. Although federal funding was briefly extended after the end of the war, grassroots campaigns for subsidized day care in Cleveland and Washington met with only limited success. In California, however, mothers asserted their importance to the state's economy as "productive citizens" and won a permanent, state-funded child care program. In addition, by the 1960s, federal child care funding gained new life as an alternative to cash aid for poor single mothers. These debates about the public's stake in what many viewed as a private matter help illuminate America's changing social, political, and fiscal priorities, as well as the meaning of female citizenship in the postwar period.

Not a Choice, Not a Job - JANICE G. RAYMOND 2013-07-15

A generation ago, most people did not know how ubiquitous and grave human trafficking was. Now many people agree that the \$35.7 billion business is an appalling violation of human rights. But when confronted with prostitution, many people experience an odd disconnect because prostitution is shrouded in myths, among them the claims that prostitution is inevitable, and prostitution is a job or service like any other. In *Not a Choice, Not a Job*, Janice Raymond challenges both the myths and their perpetrators. Raymond demonstrates that prostitution is not sex but sexual exploitation, and that legalizing and decriminalizing the system of prostitution as opposed to the prostituted women promotes sex trafficking, expands the sex industry, and invites organized crime. Specifically, Raymond exposes how legalized prostitution in the Netherlands, Germany, Australia, and Nevada worsens crime and endangers women. In contrast, she reveals, when governments work to prevent the demand for prostitution by prosecuting pimps, brothels, and prostitution users as in Norway, Sweden, and Iceland trafficking does not increase, women are better protected, and fewer men buy sex. Raymond expands the boundaries of scholarship in women's studies, making this book indispensable to human rights advocates around the world.

Contemporary Research on Sex Work - Jeffrey T. Parsons 2014-06-03

Gain important insight and a broader perspective on where, why, and how sex workers conduct their business. For years, the focus of sex work research has been on street-based male and female sex workers and the HIV-related risks they pose to their clients. *Contemporary Research on Sex Work* moves beyond the basic association between sex work and unprotected sex to a fuller description of the varied facets of the industry while still pursuing a better understanding of HIV risk among those working the streets. The diverse approaches in this unique book include targeted sampling, qualitative and quantitative interviews, ethnographic interviews with key informants, using sex workers as recruiters, and quasi-experimental intervention designs. *Contemporary Research on Sex Work* dispels the notion that all sex workers are prostitutes working the streets, highlighting instead various aspects of sex work in terms of gender, venue, and context. Social scientists from a variety of disciplines present research collected from across the United States, Cambodia, the Philippines, Argentina, and Canada that reflects the efforts to explore interventions and programs designed to improve the social and physical lives of male, female, and transgender sex workers—and their clients. The book examines how different circumstances determine different issues of power, control, health, social functioning, mental health, and HIV/STI risk each sex worker faces. *Contemporary Research on Sex Work* examines: condom use by transgender female sex workers the association between mental health issues and unprotected sex the influence of structural intervention in reducing biologically sexually transmitted infections (STIs) the “hidden” population of women who solicit clients in private locations off the street stigma resistance among male sex workers in Canada the relationship between childhood sexual abuse and subsequent involvement in sex work health services among male sex workers in Argentina how the intersection between race/ethnicity affects female sex workers in Los Angeles how sex workers deal with the negativity that surrounds their profession job-related risk and safety for sex workers in Canada legal concerns and policy issues and much more! *Contemporary Research on Sex Work* is your guide to the next generation of sex work research, highlighting the need to understand sex work as work. The book is an essential resource for researchers in the fields of sex research, sex work, and HIV/AIDS prevention, and for clinicians who work with those involved in the industry.

Sex Worker and Pig Struggle for Liberation - Alpha Lamb

This story is about two minorities struggling for liberation from human bondage. Sex Worker, better known as Prostitute, is often described as the world's oldest profession, or among the oldest. Sadly for herself if not for all others, she has been persecuted from pre-history ever since. She may have been tolerated as an exception, but never widely accepted. Does society owe her the obligation of rescue from fallen slavery, or should she be deterred from practising her trade by stiff punishment, in order to maintain the hygiene of the social fabric? What does she think, and does it matter what she thinks? The story begins with a girl forced into prostitution by destitution, until she fights back together with her fellow sister mates against inherent frustration, cruelty, and prejudice. Her argument is that she has an inalienable human right to dispose her body and sex, in private, in whichever way she desires, especially when such disposal is essential to earn a living. The imposition of public morality as her personal responsibility is what she cannot accept and endure. But it is more than that, since she is also in the other minority. She is a Pig, an itinerant animal dominated no shorter and no less by human civilization than what has been suffered by Prostitute. It is a moot point whether Prostitute or Animal has suffered more, or considered more despicable. Presumably Animal could have it easier since they are supposed to be of the lower order, with no intelligence whatsoever, until the relatively recent advent of animal right. Perhaps Animal should be grateful to human civilization for survival and multiplication too, whereas Prostitute can always be found in human survival. The story brings up the coincidence of Prostitute Struggle and Pig Struggle, initially each on its own, until reaching the stage when each finds the need to join force and cause, though a common front is anything but a smooth ride. The first public confrontation against the establishment, as can be expected, proves to serve not much more than a learning curve. However, the seed once buried and unburied would be allowed time and space to take root. Nourished non-stop by where they come from, the denizens of the joint struggle will not waver or lose hope for an eventual outcome. The author does not pretend to be entirely on their side morally. Take the story as a science fiction if you like. Whether it will come to pass is a matter of opinion.

Men who Sell Sex - Peter Aggleton 1999

Brings together an authoritative collection of essays from different countries and examines sexual behaviour, the reasons men sell sex, the meanings involved, and implications for HIV prevention.

Producing the Acceptable Sex Worker - Gwyn Easterbrook-Smith 2022-02-25

This book considers sex worker representation in the news, where the public draws their understanding of the industry in the absence of lived interaction with it. Using New Zealand as a case study, the author encourages emerging acceptability based on neoliberal postfeminist discourses of choice, desire, authenticity, and personal responsibility.

Sex Work - Colette Parent 2013-09-18

In the early twentieth century, abolitionists sought to stamp out sex work by penalizing all involved. In the generation that followed, neo-abolitionists looked at the sex industry from a feminist perspective, claiming that workers were victims caught in a patriarchal matrix. Yet both agreed that the industry was a destructive and corrupting force that should be eliminated. In this radical volume, five academics and activists convey their vision of prostitution as work, reclaiming the place of sex workers in the discussion of their lives and their work, and opposing discourses that position them as merely victims without agency.

Sex Markets - Marina Della Giusta 2008-03-03

Empirical and mathematically rigorous, this book provides a study of the economics of prostitution rather than focusing on the sociological and cultural themes. Using economic tools of analysis, internationally based editors have put together a theoretically informed volume that explores the supply and demand of prostitution. Prostitution is a globalized industry involving millions of workers and it is characterized by a high degree of inequality in working conditions (ranging from slavery to self-managed and legalized unionized employment), by different sub-markets and fully integrated in the productive system. Taking a

provocative approach to prostitution, this book is a must read for students and researchers in the area of gender and economics.

Sex Workers and Their Clients - Jerald L. Mosley 2020-12-15

This book draws on the voices of sex workers and their clients to critically assess the criminalization of prostitution in favour of decriminalization. It does so by contrasting their voices with the claims made by prohibitionists: those advocating the prohibition of prostitution or, at least, the prohibition of the purchase of sexual services, and notes scholarly research that gives context to those accounts and claims. Each

chapter is dedicated to a particular issue which is given currency in academic and public debates on sex work. The first part of each chapter reviews the state of research and publicly-aired contentions and the second part compares sex workers' voices with claims from prohibitionists. It highlights the gap between what many sex workers have to say about themselves and what theorizing prohibitionists say about all prostitution. It argues that there is often a striking contrast in attitude, perspective, interpretation and valuation. This books speaks primarily to prohibitionist thinking and sex work stereotyping and, secondarily, to the debate on decriminalization of sex work.
