*Sexual Assault and the Justice Gap: A Question of Attitude* Jennifer Temkin 2008-04-15 This book is set against the background of the 'justice gap' in sexual assault cases - the dramatic gap between the number of offences recorded by the police and the number of convictions. It seeks to examine the attitudinal problems which bedevil this area of law and possible strategies for addressing them. Written by a professor of law and a professor of psychology, it reviews evidence from socio-legal and social cognition research and presents new data drawn both from interviews with judges and barristers and from studies with prospective lawyers and members of the public. In the final part, it considers different ways in which rape trials could be improved and suggests steps that could be taken to change public attitudes about sexual assault.

**Driven To Kill** Gary C. King 2011-07-30 The true crime story of sex killer Westley Allan Dodd--his victims were too small to fight...and too young to die! Includes eyewitness execution report. By all appearances, twenty-nine-year-old Westley Allan Dodd was the perfect all-American boy—model high school student, camp counselor and U.S. Navy enlistee. But behind his mask of normalcy lurked a predatory sex fiend with a seventeen-year history of appalling acts of molestation and violence. Children were his victims and the parks of the Pacific Northwest his personal hunting grounds. On September 4, 1989, his unnatural desires had driven him past simple satisfaction to abduct, torture, and kill two young boys in Vancouver, Washington. Undetected despite his record, Dodd killed a third innocent victim only weeks later near Portland, Oregon. But only when he was caught trying to kidnap a child from a local movie theater was he finally taken into custody by police. Confessing to these heinous murders, he was convicted on all three counts and sentenced to death. Based on exclusive access to police files and riveting trial testimony, personal interviews with Dodd himself and excerpts from his chilling "diary of death," *Driven to Kill* dramatically recounts a hideous spree of death and horror that brought every parent's worst nightmare frighteningly to life! "Horrific...This story will leave you gasping." True crime author Jack Olsen

As a Union general during the Civil War, he was among the first soldiers to use "scorched earth" tactics, and was instrumental in forcing the surrender of Confederate leadership. As a civilian, he helped create and protect Yellowstone National Park. Career U.S. army officer PHILIP HENRY SHERIDAN (1831-1888) is an American icon, and this is the story of his life, in his own words. First published in 1888, this engrossing, highly readable biography covers Sheridan's early life-his education, his appointment to West Point, and first military postings in Texas in the 1850s-as well his later years, including his tour of Europe. But the bulk of the book is made up with his detailed recollections of the many campaigns during the Civil War, which will thrill military buffs with their you-are-there immediacy and insight. Readers of military nonfiction and students of American history will find this an enlightening work of autobiography.

**Invisible Punishment** Meda Chesney-Lind 2011-05-10 In a series of newly commissioned essays from the leading scholars and advocates in criminal justice, *Invisible Punishment* explores, for the first time, the far-reaching consequences of our current criminal justice policies. Adopted as part of "get tough on crime" attitudes that prevailed in the 1980s and '90s, a range of strategies, from "three strikes" and "a war on drugs," to mandatory sentencing and prison privatization, have resulted in the mass incarceration of American citizens, and have had enormous effects not just on wrong-doers, but on their families and the communities they come from. This book looks at the consequences of these policies twenty years later.

experienced an astonishing drop in violent crime, dramatically changing urban life. In many cases, places once characterized by decay and abandonment are now thriving, the fear of death by gunshot wound replaced by concern about skyrocketing rents. In *Uneasy Peace*, Patrick Sharkey, “the leading young scholar of urban crime and concentrated poverty” (Richard Florida, author of *The Rise of the Creative Class* and *The New Urban Crisis*) reveals the striking effects: improved school test scores, because children are better able to learn when not traumatized by nearby violence; better chances that poor children will rise into the middle class; and a marked increase in the life expectancy of African American men. Some of the forces that brought about safer streets—such as the intensive efforts made by local organizations to confront violence in their own communities—have been positive, Sharkey explains. But the drop in violent crime has also come at the high cost of aggressive policing and mass incarceration. From Harlem to South Los Angeles, Sharkey draws on original data and textured accounts of neighborhoods across the country to document the most successful proven strategies for combating violent crime and to lay out innovative and necessary approaches to the problem of violence. At a time when crime is rising again, the issue of police brutality has taken center stage, and powerful political forces seek to disinvest in cities, the insights in this book are indispensable.

**Every 25 Seconds** Tess Borden 2016 "The report, "Every 25 Seconds: The Human Toll of Criminalizing Drug Use in the United States," finds that enforcement of drug possession laws causes extensive and unjustifiable harm to individuals and communities across the country. The long-term consequences can separate families; exclude people from job opportunities, welfare assistance, public housing, and voting; and expose them to discrimination and stigma for a lifetime. While more people are arrested for simple drug possession in the US than for any other crime, mainstream discussions of criminal justice reform rarely question whether drug use should be criminalized at all"--Publisher's description.

**White Identity** Jared Taylor 2011 "Ten years in the making, this book is the sequel to Jared Taylor's seminal *Paved With Good Intentions*. In *White Identity*, Taylor systematically marshals the data to show that: People of all races pay lip service to the ideal of integration but generally prefer to remain apart. ; Study after scientific study suggests that racial identity is an inherent part of human nature. ; Diversity of race, language, religion, etc. is not a strength for America but a source of chronic tension and conflict. ; Non-whites--especially blacks and Hispanics but now even Asians--openly take pride in their race and put group interests ahead of those of the country as a whole. ; Only whites continue to believe that it is possible or even desirable to transcend race and try to make the United States a nation in which race does not matter. Taylor argues that America must reassess dated assumptions, and that we need policies based on a realistic understanding of race, not on fantasies. Most provocatively, Taylor argues that whites must exercise the same rights as other groups--that they must be unafraid of considering their own legitimate interests. He concludes by warning whites that if they do not defend their interests they will be marginalized by groups that do not hesitate to assert themselves, numerically and culturally. The culmination of 25 years of writing about race, immigration, and America's future, this is Jared Taylor's best and most complete statement of why it is vitally important for whites to defend their legitimate group interests."--Amazon.com.

**The Stop Child Molestation Book** Gene G. Abel 2001-12-01 The *Stop Child Molestation Book* has been called "groundbreaking," "hard-hitting," and "a must-read for every family in America." What makes this a break-through book is its plan of action to put an end to child molestation. Using new facts from their study of 16,000 people, Gene G. Abel, M.D. and Nora Harlow urge families to take three powerful steps to protect their children. "We want to stop child molestation in the United States before we die. Only a few years ago that goal seemed laughable. Now, the breakthroughs in testing, medicine, and therapies will stop the people who molest children. Child molestation — with its at least 39 million adult survivors and more than three million child victims — can end. The problem we face is getting the word out. Everything you need to know is in this book. We ask you to read it. We ask you to tell others. And, we ask you to become a hero and step forward to protect the children closest to you." -Gene G. Abel, M.D. and Nora Harlow

**Domestic Tyranny** Elizabeth Hafkin Pleck 2004 Elizabeth Pleck's *Domestic Tyranny* chronicles the rise and demise of legal, political, and medical campaigns against domestic violence from colonial times to the present. Based on in-depth research into court records, newspaper accounts, and autobiographies, this book argues that the single most consistent barrier to reform against domestic violence has been the Family Ideal--that is, ideas about family privacy, conjugal and parental rights, and family stability. This edition features a new introduction surveying the multinational and cultural themes now present in recent historical writing about family violence.
