**The Unbroken Thread** Kathryn Klein 1997-01-01 Housed in the former 16th-century convent of Santo Domingo church, now the Regional Museum of Oaxaca, Mexico, is an important collection of textiles representing the area's indigenous cultures. The collection includes a wealth of exquisitely made traditional weavings, many that are now considered rare. *The Unbroken Thread: Conserving the Textile Traditions of Oaxaca* details a joint project of the Getty Conservation Institute and the National Institute of Anthropology and History (INAH) of Mexico to conserve the collection and to document current use of textile traditions in daily life and ceremony. The book contains 145 color photographs of the valuable textiles in the collection, as well as images of local weavers and project participants at work. Subjects include anthropological research, ancient and present-day weaving techniques, analyses of natural dyestuffs, and discussions of the ethical and practical considerations involved in working in Latin America to conserve the materials and practices of living cultures.

*Exhausting Dance* Andre Lepecki 2006-07-13 The only scholarly book in English dedicated to recent European contemporary dance, *Exhausting Dance: Performance and the Politics of Movement* examines the work of key contemporary choreographers who have transformed the dance scene since the early 1990s in Europe and the US. Through their vivid and explicit dialogue with performance art, visual arts and critical theory from the past thirty years, this new generation of choreographers challenge our understanding of dance by exhausting the concept of movement. Their work demands to be read as performed extensions of the radical politics implied in performance art, in post-structuralist and critical theory, in post-colonial theory, and in critical race studies. In this far-ranging and exceptional study, Andre Lepecki brilliantly analyzes the work of the choreographers: \* Jerome Bel (France) \* Juan Dominguez (Spain) \* Trisha Brown (US) \* La Ribot (Spain) \* Xavier Le Roy (France-Germany) \* Vera Mantero (Portugal) and visual and performance artists: \* Bruce Nauman (US) \* William Pope.L (US). This book offers a significant and radical revision of the way we think about dance, arguing for the necessity of a renewed engagement between dance studies and experimental artistic and philosophical practices.

*Transfeminist Perspectives in and beyond Transgender and Gender Studies* Finn Enke 2012-05-04 Lambda Literary Award for Best Book in Transgender Nonfiction, 2013 If feminist studies and transgender studies are so intimately connected, why are they not more deeply integrated? Offering multidisciplinary models for this assimilation, the vibrant essays in *Transfeminist Perspectives in and beyond Transgender and Gender Studies* suggest timely and necessary changes for institutions of higher learning. Responding to the more visible presence of transgender persons as well as gender theories, the contributing essayists focus on how gender is practiced in academia, health care, social services, and even national border patrols. Working from the premise that transgender is both material and cultural, the contributors address such aspects of the university as administration, sports, curriculum, pedagogy, and the appropriate location for transgender studies. Combining feminist theory, transgender studies, and activism centered on social diversity and justice, these essays examine how institutions as lived contexts shape everyday life.

*Writing Dancing in the Age of Postmodernism* Sally Banes 1994-03-28 A leading critic traces three decades of contemporary dance from Balanchine to breakdancing Drawing of the postmodern perspective and concerns that informed her groundbreaking *Terpsichore in Sneakers*, Sally Banes's *Writing Dancing* documents the background and developments of avant-garde and popular dance, analyzing individual artists, performances, and entire dance movements. With a sure grasp of shifting cultural dynamics, Banes shows how postmodern dance is integrally connected to other oppositional, often marginalized strands of dance culture, and considers how certain kinds of dance move from the margins to the mainstream. Banes begins by considering the act of dance criticism itself, exploring its modes, methods, and underlying assumptions, and examining the work of other critics. She traces the development of contemporary dance from the early work of such influential figures as Merce Cunningham and George Balanchine to such contemporary choreographers as Molissa Fenley, Karole Armitage, and Michael Clark. She analyzes the contributions of the Judson Dance Theatre and the Workers' Dance League, the emergence of Latin postmodern dance in New York, and the impact of black jazz in Russia. In addition, Banes explores such untraditional performance modes as breakdancing and the "drunk dancing" of Fred Astaire.

**Musicology and Dance** Davinia Caddy 2020-08-27 Long treated as peripheral to music history, dance has become prominent within musicological research, as a prime and popular subject for an increasing number of books, articles, conference papers and special symposiums. Despite this growing interest, there remains no thorough-going critical examination of the ways in which musicologists might engage with dance, thinking not only about specific repertoires or genres, but about fundamental commonalities between the two, including embodiment, agency, subjectivity and consciousness. This volume begins to fill this gap. Ten chapters illustrate a range of conceptual, historical and interpretive approaches that advance the interdisciplinary study of music and dance. This methodological eclecticism is a defining feature of the volume, integrating insights from critical theory, film and cultural studies, the visual arts, phenomenology, cultural anthropology and literary criticism into the study of music and dance.

*A Psalm for the Wild-Built* Becky Chambers 2021-07-13 Winner of the Hugo Award! In *A Psalm for the Wild-Built*, bestselling Becky Chambers's delightful new Monk and Robot series, gives us hope for the future. It's been centuries since the robots of Panga gained self-awareness and laid down their tools; centuries since they wandered, en masse, into the wilderness, never to be seen again;

centuries since they faded into myth and urban legend. One day, the life of a tea monk is upended by the arrival of a robot, there to honor the old promise of checking in. The robot cannot go back until the question of "what do people need?" is answered. But the answer to that question depends on who you ask, and how. They're going to need to ask it a lot. Becky Chambers's new series asks: in a world where people have what they want, does having more matter? *Trap Door* Reina Gossett 2017-12-15 Essays, conversations, and archival investigations explore the paradoxes, limitations, and social ramifications of trans representation within contemporary culture. The increasing representation of trans identity throughout art and popular culture in recent years has been nothing if not paradoxical. Trans visibility is touted as a sign of a liberal society, but it has coincided with a political moment marked both by heightened violence against trans people (especially trans women of color) and by the suppression of trans rights under civil law. *Trap Door* grapples with these contradictions. The essays, conversations, and dossiers gathered here delve into themes as wide-ranging yet interconnected as beauty, performativity, activism, and police brutality. Collectively, they attest to how trans people are frequently offered "doors"—entrances to visibility and recognition—that are actually "traps," accommodating trans bodies and communities only insofar as they cooperate with dominant norms. The volume speculates about a third term, perhaps uniquely suited for our time: the trapdoor, neither entrance nor exit, but a secret passageway leading elsewhere. *Trap Door* begins a conversation that extends through and beyond trans culture, showing how these issues have relevance for anyone invested in the ethics of visual culture.

Mediating the Nation Mirca Madianou 2012-11-12 What does it mean to watch two-hour long news programmes every evening? Why are some people 'addicted' to the news while others prefer to switch off? Television is an indispensable part of the fabric of modern life and this book investigates a facet of this process: its impact on the ways that we experience the political entity of the nation and our national and transnational identities. Drawing on anthropological, social and media theory and grounded on a two-year original ethnography of television news viewing in Athens, the book offers a fresh, interdisciplinary perspective in understanding the media/identity relationship. Starting from a perspective that examines identities as lived and as performed, the book follows the circulation of discourses about the nation and belonging and contrasts the articulation of identities at a local level with the discourses about the nation in the national television channels. The book asks: whether, and in what ways does television influence identity discourses and practices? When do people contest the official discourses about the nation and when do they rely on them? Do the media play a role in relation to inclusion and exclusion from public life, particularly in the case of minorities? The book presents a compelling account of the contradictory and ambivalent nature of national and transnational identities while developing a nuanced approach to media power. It is argued that although the media do not shape identities in a causal way, they do contribute in creating common communicative spaces which often catalyse feelings of belonging or exclusion. The book claims a place in the emerging sub-field of media anthropology and represents the new

generation of audience research that places media consumption in the wider social, economic and political context.

**Race and Epistemologies of Ignorance** Shannon Sullivan 2012-02-01 Offering a wide variety of philosophical approaches to the neglected philosophical problem of ignorance, this groundbreaking collection builds on Charles Mills's claim that racism involves an inverted epistemology, an epistemology of ignorance. Contributors, explore how different forms of ignorance linked to race are produced and sustained and what role they play in promoting racism and white privilege. They argue that the ignorance that underpins racism is not a simple gap in knowledge, the accidental result of an epistemological oversight. In the case of racial oppression, ignorance often is actively produced for purposes of domination and exploitation. But as these essays demonstrate, ignorance is not simply a tool of oppression wielded by the powerful. It can also be a strategy for survival, an important tool for people of color to wield against white privilege and white supremacy. The book concludes that understanding ignorance and the politics of such ignorance should be a key element of epistemological and social/political analyses, for it has the potential to reveal the role of power in the construction of what is known and provide a lens for the political values at work in knowledge practices. *Reckless* Chrissie Hynde 2015-09-08 Chrissie Hynde, for nearly four decades the singer/songwriter/undisputed leader of the Pretenders, is a justly legendary figure. Few other rock stars have managed to combine her swagger, sexiness, stage presence, knack for putting words to music, gorgeous voice and just all-around kick-assedness into such a potent and alluring package. From “Tattooed Love Boys” and “Brass in Pocket” to “Talk of the Town” and “Back on the Chain Gang,” her signature songs project a unique mixture of toughness and vulnerability that millions of men and women have related to. A kind of one-woman secret tunnel linking punk and new wave to classic guitar rock, she is one of the great luminaries in rock history. Now, in her no-holds-barred memoir *Reckless*, Chrissie Hynde tells, with all the fearless candor, sharp humor and depth of feeling we’ve come to expect, exactly where she came from and what her crooked, winding path to stardom entailed. Her All-American upbringing in Akron, Ohio, a child of postwar power and prosperity. Her soul capture, along with tens of millions of her generation, by the gods of sixties rock who came through Cleveland—Mitch Ryder, David Bowie, Jeff Beck, Paul Butterfield and Iggy Pop among them. Her shocked witness in 1970 to the horrific shooting of student antiwar protestors at Kent State. Her weakness for the sorts of men she calls “the heavy bikers” and “the get-down boys.” Her flight from Ohio to London in 1973 essentially to escape the former and pursue the latter. Her scuffling years as a brash reviewer for *New Musical Express*, shop girl at the Malcolm McLaren and Vivienne Westwood boutique 'Craft Must Wear Clothes But The Truth Loves To Go Naked', first-hand witness to the birth of the punk movement, and serial band aspirant. And then ,at almost the last possible

*The Origins of Self* Martin P. J. Edwardes 2019-07-22 *The Origins of Self* explores the role that selfhood plays in defining human society, and each human individual in that society. It considers the genetic and cultural origins of self, the role that self plays in socialisation and language, and the types of self we generate in our individual journeys to and through adulthood. Edwardes argues that other awareness is a relatively early evolutionary development, present throughout the primate clade and perhaps beyond, but self-awareness is a product of the sharing of social models, something only humans appear to do. The self of which we are aware is not something innate within us, it is a model of our self produced as a response to the models of us offered to us by other people. Edwardes proposes that human construction of selfhood involves seven different types of self. All but one of them are internally generated models, and the only non-model, the actual self, is completely hidden from conscious awareness. We rely on others to tell us about our self, and even to let us know we are a self.

**Building the Case for Health Literacy** National Academies of Sciences, Engineering, and Medicine 2018-08-26 The field of health literacy has evolved from one focused on individuals to one that recognizes that health literacy is multidimensional. While communicating in a health literate manner is important for everyone, it is particularly important when communicating with those with limited health literacy who also experience more serious medication errors, higher rates of hospitalization and use of the emergency room, poor health outcomes, and increased mortality. Over the past decade, research has shown that health literacy interventions can significantly impact various areas including health care costs, outcomes, and health disparities. To understand the extent to which health literacy has been shown to be effective at contributing to the Quadruple Aim of improving the health of communities, providing better care, providing affordable care, and improving the experience of the health care team, the National Academies of Sciences, Engineering, and Medicine convened a public workshop on building the case for health literacy. This publication summarizes the presentations and discussions from the workshop, and highlights important lessons about the role of health literacy in meeting the Quadruple Aim, case studies of organizations that have adopted health literacy, and discussions among the different stakeholders involved in making the case for health literacy.

*Reel Inequality* Nancy Wang Yuen 2016-12-12 When the 2016 Oscar acting nominations all went to

whites for the second consecutive year, #OscarsSoWhite became a trending topic. Yet these enduring racial biases afflict not only the Academy Awards, but also Hollywood as a whole. Why do actors of color, despite exhibiting talent and bankability, continue to lag behind white actors in presence and prominence? *Reel Inequality* examines the structural barriers minority actors face in Hollywood, while shedding light on how they survive in a racist industry. The book charts how white male gatekeepers dominate Hollywood, breeding a culture of ethnocentric storytelling and casting. Nancy Wang Yuen interviewed nearly a hundred working actors and drew on published interviews with celebrities, such as Viola Davis, Chris Rock, Gina Rodriguez, Oscar Isaac, Lucy Liu, and Ken Jeong, to explore how racial stereotypes categorize and constrain actors. Their stories reveal the day-to-day racism actors of color experience in talent agents' offices, at auditions, and on sets. Yuen also exposes sexist hiring and programming practices, highlighting the structural inequalities that actors of color, particularly women, continue to face in Hollywood. This book not only conveys the harsh realities of racial inequality in Hollywood, but also provides vital insights from actors who have succeeded on their own terms, whether by sidestepping the system or subverting it from within. Considering how their struggles impact real-world attitudes about race and diversity, *Reel Inequality* follows actors of color as they suffer, strive, and thrive in Hollywood.

*Affective Trajectories* Hansjörg Dilger 2020-02-28 The contributors to *Affective Trajectories* examine the mutual and highly complex entwinements between religion and affect in urban Africa in the early twenty-first century. Drawing on ethnographic research throughout the continent and in African diasporic communities abroad, they trace the myriad ways religious ideas, practices, and materialities interact with affect to configure life in urban spaces. Whether examining the affective force of the built urban environment or how religious practices contribute to new forms of attachment, identification, and place-making, they illustrate the force of affect as it is shaped by temporality and spatiality in the religious lives of individuals and communities. Among other topics, they explore Masowe Apostolic Christianity in relation to experiences of displacement in Harare, Zimbabwe; Muslim identity, belonging, and the global ummah in Ghana; crime, emotions, and conversion to neo-Pentecostalism in Cape Town; and spiritual cleansing in a Congolese branch of a Japanese religious movement. In so doing, the contributors demonstrate how the social and material living conditions of African cities generate diverse affective forms of religious experiences in ways that foster both localized and transnational paths of emotional knowledge. *The Case for Marriage* Linda Waite 2002-03-05 A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. *The Case for Marriage* is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced—physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. *The Case for Marriage* combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. "A compelling defense of a sacred union. *The Case for Marriage* is well written and well argued, empirically rigorous and learned, practical and

commonsensical.” -- William J. Bennett, author of *The Book of Virtues* “Makes the absolutely critical point that marriage has been misrepresented and misunderstood.” -- *The Wall Street Journal*
