The 30-Day Love Detox - Wendy Walsh 2013-04-23

Encourages women to weed out the bad boys and discusses the five sexual myths that keep women single, when to begin the onset of sexual activity in a new relationship, and the biggest mistakes that one can make when dating online.

Aftermath - Rachel Cusk 2012-02-23

Using her own life as a starting point, Rachel looks at the issues that arise for a woman in the years after she has lived the defining experiences of femininity. She writes about marriage, separation, motherhood, work, money, domesticity and love. Cusk considers the kinds of generational knowledge the contemporary woman harbours, the terrors or expectations that have been passed down to her and that are refracted through the modern transformation of female status. *Aftermath* is written in the personal/political mode that characterised *A Life's Work*, Cusk's acclaimed book about becoming a mother.

Code Girls - Liza Mundy 2017-10-10

The award-winning New York Times bestseller about the American women who secretly served as codebreakers during World War II—a "prodigiously researched and engrossing" (New York Times) book that "shines a light on a hidden chapter of American history" (Denver Post). Recruited by the U.S. Army and Navy from small towns and elite colleges, more than ten thousand women served as codebreakers during World War II. While their brothers and boyfriends took up arms, these women moved to Washington and learned the meticulous work of code-breaking. Their efforts shortened the war, saved countless lives, and gave them access to careers previously denied to them. A strict vow of secrecy nearly erased their efforts from history; now, through dazzling research and interviews with surviving code girls, bestselling author Liza Mundy brings to life this riveting and vital story of American courage, service, and scientific accomplishment.

The Richer Sex - Liza Mundy 2012-03-20

Analyzes a growing trend in higher-earning working women to predict that more households will be supported by women within a generation, discussing how the dynamic will impact relationships.

Everything Conceivable - Liza Mundy 2007-04-24

Award-winning journalist Liza Mundy captures the human narratives, as well as the science, behind the controversial, multibillion-dollar fertility industry, and examines how this huge social experiment is transforming our most basic relationships and even our destiny as a species. Skyrocketing infertility rates and dizzying technological advances are revolutionizing American families and changing the way we think about parenthood, childbirth, and life itself. Using in-depth reporting and riveting anecdotal material from doctors, families, surrogates, sperm and egg donors, infertile men and women, single and gay and lesbian parents, and children conceived through technology, Mundy explores the impact of assisted reproduction on individuals as well as the ethical issues raised and the potentially vast social consequences. The unforgettable personal stories in *Everything Conceivable* run the gamut from joyous to tragic; all of them raise questions we dare not ignore.

Daring: My Passages - Gail Sheehy 2015-06-23

The author of the classic New York Times bestseller *Passages* returns with her inspiring memoir—a chronicle of her trials and triumphs as a groundbreaking "girl" journalist in the 1960s, to iconic guide for women and men seeking to have it all, to one of the premier political profilers of modern times. Candid, insightful, and powerful, *Daring: My Passages* is the story of the unconventional life of a writer who dared . . . to walk New York City streets with hookers and pimps to expose violent prostitution; to march with civil rights protesters in Northern Ireland as British paratroopers opened fire; to seek out Egypt's president Anwar Sadat when he was targeted for death after making peace with Israel. Always on the cutting edge of social issues, Gail Sheehy reveals the obstacles and opportunities encountered when she dared to blaze a trail in a "man's world." *Daring* is also a beguiling love story of Sheehy's tempestuous romance with and eventual happy marriage to Clay Felker, the charismatic creator of New York magazine. As well, Sheehy recounts her audacious pursuit and intimate portraits of many twentieth-century leaders, including Hillary Clinton, Presidents George H. W. and George W. Bush, and the world-altering attraction between Margaret Thatcher

and Mikhail Gorbachev. Sheehy reflects on desire, ambition, and wanting it all—career, love, children, friends, social significance—and lays bare her major life passages: false starts and surprise successes, the shock of failures and inner crises; betrayal in a first marriage; life as a single mother; flings of an ardent, liberated young woman; her adoption of a second daughter from a refugee camp; marriage to the love of her life and their ensuing years of happiness, even in the shadow of illness. Now stronger than ever, Sheehy speaks from hard-won experience to today's young women. Her fascinating, no-holds-barred story is a testament to guts, resilience, smarts, and daring, and offers a bold perspective on all of life's passages.

Michelle - Liza Mundy 2009-05-05

The Richer Sex - Liza Mundy 2014-05-09

Liza Mundy's smart, deeply reported analysis of the most important cultural shift since the rise of feminism. The coming era in which women will earn more than men, and how this will change work, love, and sex.

The End of Men - Hanna Rosin 2012-10-11

What Betty Friedan, Simone de Beauvoir, Susan Faludi and Naomi Wolf did for feminism, senior editor of *The Atlantic* Hanna Rosin does for a new generation of women: an explosive new argument for why women are winning the battle of the sexes and why men are no longer top dog. Women are no longer catching up with men. By almost every measure, they are out-performing them. We are at an unprecedented moment in history. In 2010, for the first time, the balance of the British workforce tipped towards women, who now hold around half of the nation's jobs. In the US, meanwhile, for every two men that receive a BA, three women will achieve the same. Not only do women now dominate colleges and professional schools on every continent except Africa, young single women in the US now earn more than their male counterparts, and more than a third of mothers in the UK and the US are their family's main breadwinner. The tides have turned. The 'age of testosterone' is decisively over. At almost every level of society women are proving themselves far more adaptable and suited to a job market that rewards people skills and intelligence, and a world that has a dramatically diminishing need for traditional male muscle. In this landmark, once-in-a-generation book, Hanna Rosin reveals how this new world order came to be and its profound implications for marriage, sex, children, work, families and society. Unhampered by old assumptions and ideologies and drawing on examples from across the globe, *The End of Men* helps us see how both men and women can - and must - adapt for a radically new era. 'In this bold and inspired dispatch, Rosin upends the common platitudes of contemporary sexual politics with a deeply reported meditation from the unexpected frontiers of our rapidly changing culture' Katie Roiphe, author of *The Morning After* and *Uncommon Arrangements* 'The End of Men describes a new paradigm that can, finally, take us beyond 'winners' and 'losers' in an endless 'gender war.' What a relief! Ultimately, Rosin's vision is both hope-filled and creative, allowing both sexes to become far more authentic: as workers, partners, parents...and people' Peggy Orenstein, author of *Cinderella Ate My Daughter* and *Schoolgirls* Hanna Rosin is a senior editor at *The Atlantic* magazine and a founder and co-editor of *DoubleX*, *Slate's* women's section. She has written for the *New Yorker*, *The New York Times*, *GQ*, and *The New Republic*, and for a number of years covered politics and religion for the *Washington Post*. In 2009 she was nominated for a National Magazine Award, and in 2010 she won one. She is the author of a previous book, *God's Harvard: A Christian College on a Mission to Save America*. Rosin lives in Washington, DC, with her husband, *Slate* editor David Plotz, and their three children.

Pete Seeger in His Own Words - Pete Seeger 2015-11-17

Long an icon of American musical and political life, Pete Seeger has written eloquently in a diverse array of publications but nowhere is his life story more personally chronicled than in these, his private writings, documents and letters stored for decades in his family barn. *Pete Seeger: His Life in His Own Words*, collects Seeger's letters, notes, published articles, rough drafts, stories and poetry - creating the most intimate picture yet available of Seeger as a musician, an activist and a family

man. The book covers the passions, personalities and experiences of a lifetime of struggle - from the pre-WWII labour movement and the Communist Party, to Woody Guthrie, the Civil Rights movement and the struggle against the war in Vietnam. The portrait that emerges is not of a saint, but a flesh-and-blood man, struggling to understand his time and his place.

The Obamas - Jodi Kantor 2012-01-10

When Barack Obama won the 2008 presidential election, he also won a long-running debate with his wife Michelle. Contrary to her fears, politics now seemed like a worthwhile, even noble pursuit. Together they planned a White House life that would be as normal and sane as possible. Then they moved in. In *The Obamas*, Jodi Kantor takes us deep inside the White House as they grapple with their new roles, change the country, raise children, maintain friendships, and figure out what it means to be President and First Lady. Filled with riveting detail and insight into their partnership and personalities, and written with a keen eye for the ironies of public life and the realities of power, *The Obamas* is an intimate portrait that will surprise even those who thought they knew the President and First Lady.

Wonder Women - Debora L. Spar 2014-10-07

Debora L. Spar spent most of her life avoiding feminism. Raised after the tumult of the 1960s, she presumed that the gender war was over. "We thought we could glide into the new era with babies, board seats, and husbands in tow," she writes. "We were wrong." Spar should know. One of the first women professors at Harvard Business School, she went on to have three children and became the chair of her department. Now, she's the president of Barnard College, arguably the most important women's college in the country, and an institution firmly committed to feminism. *Wonder Women* is Spar's story, but it is also the culture's. Armed with reams of new research, she examines how women's lives have, and have not, changed over the past fifty years—and how it is that the struggle for power has become a quest for perfection. Wise, often funny, and always human, *Wonder Women* asks: How far have women really come? And what will it take to get true equality for good?

Make Your Move - Jon Birger 2021-02-02

Modern romance is broken. It's time to flip the script. Apps have transformed dating from a mysterious adventure into a daily chore. Young, single, college-educated women are sick and tired of competing for a shrinking supply of guys. And marriage-material men, long expected to take the lead when it comes to asking women out, are suddenly balking at making the first move, fearing they'll come across as creepy or inappropriate. Society is changing, which means it's time for dating to evolve. Millennial and Gen Z women are more than capable of seeking out what—and who—they want. They're standouts in the classroom and champions on the playing fields. They're leaders in the workplace and trailblazers in city halls, state houses, and Congress. So why would we tell a generation of badass women that they're not allowed to be bold when it comes to finding love? Why should they have to sit back and wait (and wait and wait) for men to find them? In *Make Your Move: The New Science of Dating and Why Women Are in Charge*, Jon Birger, author of *Date-onomics*, offers women bold new strategies for finding the one. Backed by research showing that women can win at romance by making the first move with the men of their choice, Birger explains why: • It's better to choose than to be chosen • The "play hard to get" method is not only outdated but grounded in bad science • The first move does not have to be a big move • It's time to log off of dating apps and date men you actually know • The workplace can be a terrific place to meet a long-term romantic partner • . . . and more! *Make Your Move* is an honest, solution-based guide to finding love that lasts. If you're tired of playing by old rules, look no further: Make your move and win.

A revolution is under way. Within a generation, more households will be supported by women than by men. First, Do No Harm - Lisa Belkin 2021-02-16

"Crammed with provocative insights, raw emotion, and heartbreaking dilemmas," (The New York Times) *First, Do No Harm* is a powerful examination of how life and death decisions are made at a major metropolitan hospital in Houston, as told through the stories of doctors, patients, families, and hospital administrators facing unthinkable choices. What is life worth? And when is a life worth living? Journalist Lisa Belkin examines how these questions are asked and answered over one dramatic summer at Hermann Hospital in Houston, Texas. In an account that is fascinating, revealing, and almost novelistic in its immediacy, Belkin takes us inside a major hospital and introduces us to the people who must make life and death decisions every day. As we walk through the hallways of the hospital we meet a young pediatrician who must decide whether to perform a risky last-ditch surgery on a teenager who has spent most of his fifteen years in a hospital; we watch as new parents battle with doctors over whether to disconnect their fragile, premature twins from the machine that keeps them breathing; we are in the operating room as a poor immigrant, paralyzed from a gunshot in the neck, is asked by doctors whether or not he wishes to stay alive; we witness the worry of a kidney specialist as he decides whether or not to transfer an uninsured baby to the county hospital down the road. We experience critical moments in the lives of these real people as Belkin explores challenging issues and questions involving medical ethics, human suffering, modern technology, legal liability, and financial reality. As medical technology advances, the choices grow more complicated. How far should we go to save a life? Who decides? And who pays?
