**Women and Democracy in Cold War Japan** - Jan Bardsley 2014-06-19

Women and Democracy in Cold War Japan offers a fresh perspective on gender politics by focusing on the Japanese housewife of the 1950s as a controversial representation of democracy, leisure, and domesticity. Examining the shifting personae of the housewife, especially in the appealing texts of women's magazines, reveals the diverse possibilities of postwar democracy as they were embedded in media directed toward Japanese women. Each chapter explores the contours of a single controversy, including debate over the royal wedding in 1959, the victory of Japan's first Miss Universe, and the unruly desires of postwar women. Jan Bardsley also takes a comparative look at the ways in which the Japanese housewife is measured against equally stereotyped notions of the modern housewife in the United States, asking how both function as narratives of Japan-U.S. relations and gender/class containment during the early Cold War.

Cold War Women - Helen Laville 2002

For too long, American women have been hidden in the history of the Cold War. In \*Cold War women\* Helen Laville recovers their significance by examining the activities and ambitions of American women's organisations in the long period of uneasy peace.After the Second World War, women around the globe claimed that to avoid more death and devastation in the Atomic Age, they must promote internationalism and strive together for a peaceful future. However, as the Cold War escalated, American women abandoned the internationalist outlook of their foreign sisters in favour of solidarity with their national brothers. Far from being advocates of internationalism, many of these women became active agents for Americanism.This fascinating study will be invaluable to those in the field of gender and women's history, cultural studies, and American history.

With his own sanity on the line Duffy, Al and Karl travel across the country to foil the terrorists at the Notre Dame football opener and the Columbine-type massacre. When Duffy hears the bell everyone should keep their guard up. Praise for OUT COLD: "Out Cold floored me with a quick one two of the serious and seriously funny. Schreck's unique blending of the absurd and the sublime along with his rather oddball cast of characters makes Out Cold a great read." -Reed Farrel Coleman, two-time Shamus Award winning author of Empty Ever After "Out Cold is a fast, funny, rip-roaring read, and Shreck's wit and humor shines through on every page. But what I love most about Schreck's creation, Duffy Dombrowski, is the decency and dignity with which he treats the unforgettable cast of loonies, addicts, and criminals who parade through his office. I haven't cared this much about a protagonist in a good long while. Duffy is real hero and a true original." -Blake Crouch, author of Abandon "Tom Schreck will knock you to the mat with a sucker punch of laughs. Out Cold is an expert one-two combination of humor and humanity." -Mario Acevedo, author of Jailbait Zombie

**Cold Water: Women and Girls of Lira, Uganda** - McBrien, Jody Lynn 2015-08-06

In Cold Water: Women and Girls of Lira, Uganda, the women retell their horrifying experiences in northern Uganda during the 1987-2007 civil war and life after the war. In that war, Joseph Kony's Lord's Resistance Army disrupted lives, destroyed settlements, killed, abducted and raped thousands of children. The contributing authors not only recall the hopelessness felt during the war, but also narrate stories of hope and resilience after the war. Every page is crammed with emotional recollections of personal experiences.

The stories show how communities can be rebuilt even where hope seems to be lost. The book makes public the trauma, courage and triumph of the remarkable women of Lira. The women's words are the cold water that provides cool relief to experiences of pain through the retelling of stories of endurance in the struggle that makes life better after the war. The authors demonstrate the importance of culture and cultural values in transcending trauma. The resilience of the women of Lira is rooted in their beliefs in their community, their religion and solidarity of women. They also describe international efforts to empower young women to make meaning of their lives, relationships and hopes after the trauma.

**Real Knockouts** - Martha McCaughey 1997-07

Unprecedented numbers of American women are today learning how to knock out, maim, even kill men who assault them. From behind the scenes of gun ranges, martial arts dojos, fitness centers offering "Cardio Combat," and in padded attacker courses like "Model Mugging," Real Knockouts demonstrates how self-defense trains women out of the femininity that makes them easy targets for men's abuse. And yet much feminist thought, like the broader American culture, seems deeply ambivalent about women's embrace of violence, even in self-defense. Investigating the connection between feminist theory and a woman's balled fist, McCaughey found self-defense culture to embody, literally, a new kind of feminism, one that will change forever the way we think of gender politics, the female body, and feminism itself.
