Domesticity in Colonial India - Judith E. Walsh 2004-05-05

Domesticity in Colonial India offers a trenchant analysis of the impact of imperialism on the personal, familial, and daily structures of colonized people's lives. Exploring the 'intimacies of empire,' Judith E. Walsh traces changing Indian gender relations and the social reconstructions of the late nineteenth century. For urban middle-class Indians of this time, the Hindu woman and her domestic world were at the center of a debate over colonial modernity and indigenous home and family life. The practices of family, home, and daily life that resulted would define the Hindu woman of the twentieth and twenty-first centuries and the domestic worlds in which she was embedded. With its rich and compelling use of primary sources, this book will be invaluable not only to scholars and students of South Asian history, but also to a general audience interested in women's history and colonialism. The accompanying website includes a full array of the author's translations of never-before-studied Bengali-language domestic manuals.

Hindi Filmī Gīt - Alison E. Arnold 1991

This study traces the musical development of the Hindi film song from the beginning of Indian sound film in 1931 to the present day, with an emphasis on the years 1931-55. Based largely on fieldwork carried out within the Bombay film industry in 1982-83, this dissertation addresses questions that relate to musical as well as cultural, social, historical, and technological aspects of this popular song genre. The study examines the unique role of Hindi film song both in Indian musical culture--as an integral component of the commercial Hindi film and as the major form of native, mass-mediated popular music--and in Indian culture and society in general. It further explores the cultural, historical, and musical forces that have combined to produce this extraordinarily popular music. The organization of chapters reflects a chronological approach to the history

of Hindi film song. The first chapter deals with the transition from silent to sound film. Film sound production in the 1930s, the subject of Chapter 2, includes discussion of the new roles of film music director, film actor-singer and film musician, and the film studio structure, in addition to musical analysis of early Hindi film songs. Chapter 3 focuses on the revolutionary changeover from actor-singer to playback singer, enabled by technological advances. The fourth chapter describes the transition from film studios to independent film producers in the 1940s-early 1950s, with the establishment of 'formulas' and the emergence of an identifiable mainstream Hindi film song form, and also surveys the film gawwali/, bhajan, gazal, folk song, and thumri/. Chapter 5 turns to post Indian Independence (1947) developments: the 'golden age of melody,' the expansion of the film orchestra, the increasingly eclectic film song composition, and the impact of technology and commercialization. Chapter 6 summarizes the changes that have taken place since the mid 1950s, including the rise of a 'parallel' or 'New Wave' cinema. The last chapter draws together the particular combination of musical, historical, and cultural forces behind the creation and production of Hindi film song, and assesses the role of this popular music in 20th-century Indian music, culture, and society.

The Millennial Woman in Bollywood - Maithili Shyam Rao 2020-11-30

The subtitle says it all: how and why Bollywood found it worthwhile to explore the reality of the millennial women who are thriving in India - small part of the demographics but very influential. Advertising discovered women as The Hindi film Heroine is a brand and brand ambassador. The market met contemporary women who are independent, with freer attitudes to relationships, including pre-marital sex, Rom coms of the new millennium reflect this new-found freedom, defying patriarchy that still defines our society. Globalisation is culturally irreversible. From the 1990s onwards, Bollywood has responded to globalisation with fear of loss of identity and desire to integrate with global trends. It results in popular cinema becoming global. Bollywood celebrates

This happened with the energy infused into the mainstream by indie filmmakers with vision and the will to tell stories in their own way.
