The Climb - Chris Froome 2014-06-05

On 26th July 2015, Chris Froome entered the record books. He won cycling's ultimate race - the Tour de France - for the second time. Taking a double Yellow Jersey was a staggering achievement. This memoir shows just how remarkable it was, given the uphill struggle Froome faced. Growing up in Kenya, biking down mile after mile of dusty road, and staying in a humble tin hut, he developed a fierce passion and determination to win. The road to Europe was long, gruelling and filled with setbacks - but it prepared him for teamwork as a domestique and then the leap to leader of Team Sky and a shot at winning the Tour de France. In *The Climb*, written with the renowned investigative reporter David Walsh, he vividly recounts the struggles, the rivalries, the battles, the comebacks. Finally he traces his path to triumph and his mission to help clean up cycling. Inspiring and exhilarating, it will leave you ready to face your own challenges in life, whatever they may be. The American Roommate Experiment - Elena Armas 2022-09-06

A Most Anticipated Book of 2022 by Cosmopolitan, Goodreads, PopSugar, and more! From the author of the Goodreads Choice Award winner *The Spanish Love Deception*, the eagerly anticipated follow-up featuring Rosie Graham and Lucas Martín, who are forced to share a New York apartment. Rosie Graham has a problem. A few, actually. She just quit her well paid job to focus on her secret career as a romance writer. She hasn't told her family and now has terrible writer's block. Then, the ceiling of her New York apartment literally crumbles on her. Luckily she has her best friend Lina's spare key while she's out of town. But Rosie doesn't know that Lina has already lent her apartment to her cousin Lucas, who Rosie has been stalking—for lack of a better word—on

Instagram for the last few months. Lucas seems intent on coming to her rescue like a Spanish knight in shining armor. Only this one strolls around the place in a towel, has a distracting grin, and an irresistible accent. Oh, and he cooks. Lucas offers to let Rosie stay with him, at least until she can find some affordable temporary housing. And then he proposes an outrageous experiment to bring back her literary muse and meet her deadline: He'll take her on a series of experimental dates meant to jump-start her romantic inspiration. Rosie has nothing to lose. Her silly, online crush is totally under control—but Lucas's time in New York has an expiration date, and six weeks may not be enough, for either her or her deadline.
