*Creating True Prosperity* Shakti Gawain 2011-02-08 This practical handbook presents Shakti Gawain's definition of prosperity, one that places importance on the fulfillment of our real desires rather than the amount of money we have. Most people equate prosperity with money — if they only had more of it, they would prosper. In this new, innovative look at self-fulfillment, personal-growth pioneer Shakti Gawain shows us the pitfalls of such thinking — how people, regardless of their wealth, eventually find money fails to offer true contentment. Shakti Gawain presents a new definition of prosperity, one that places importance on fulfillment of the heart and soul rather than on monetary gain. She dismantles the cause-and-effect relationship most people construct around money and happiness, without ignoring the important role money plays in our lives. She challenges us to pay attention to our deepest longings, and yet to discard false desires. Shakti shows us how to create true prosperity, which includes satisfying relationships, happiness, and fulfillment. Her unique method of self-examination helps readers recognize the paradoxical relationships they establish with money. Instead of either denying its value or giving it too much importance, Gawain shows how money can be used to teach people to identify where they need more balance in their lives, freeing them to pursue fulfilling relationships and personal satisfaction — the main ingredients of true prosperity. She speaks with authority and warmth as she sheds new understanding on a subject that concerns us all.

**The Shadow King** Sidra Stone, PhD 2012-01-31 Many of us have worked to free ourselves from the rigid patriarchal values that have dominated our culture for so long. Dr. Sidra Stone helps us to take the next step by making us aware of the Inner Patriarch—the voice within each of us that echoes those values. This inner voice is called the Shadow King because he is invisible and works from the shadows to sabotage even the most liberated women. This book shows us how to transform our Inner Patriarch from an unseen enemy to a powerful ally so that we can claim our full feminine power.

**Developing Intuition** Shakti Gawain 2010-09-27 Intuition is a birthright, but many have lost touch with it. If embraced and followed, intuition can be an accurate force that permeates all facets of life. Shakti teaches readers how to tap into their inner knowledge and use it to enhance their lives and attain their goals. Chapters explore the role of intuition in health, creativity, work, and prosperity. Exercises based on Shakti's workshops and seminars help readers listen to their inner guide but also evaluate the worthiness of such knowledge in the context of the real world. Stories from her clients and her own life illustrate the practical advice she gives.

*The Eagle's Way* Dr. Peter Johnston 2012-11-20 In *The Eagle's Way: The Importance of Love in Healthcare*, the author, a general practitioner, looks back at the changes he has seen over fifty years of study and practice of medicine. Remarkable advances in medicine and surgery have been accompanied by the growth of alternative medicine. He sees the emergence of holistic/integrative medicine as an important development in the evolution of healthcare. In this guide, he explores the principles and philosophies of alternative medicine and its complementary relationship with traditional medicine. The underlying principle of orthodox medicine is fighting disease; in contrast, the underlying principle of alternative medicine is embracing disease, an approach consistent with the new paradigm of unity. Both principles are varied yet powerful. He believes that maintenance of scientific standards dictates that most alternative therapies will remain outside the parameters of orthodox medicine but will be complementary to it. Conventional medicine is intellectual, sensory, head-based, and extraverted in its approach, whereas alternative medicine, especially the new psychotherapies, tends to be intuitive, heartbased, and introverted. The latter tends to go with the flow rather than have set standards of treatment. Practitioners of holistic and integrative medicine using both systems are often viewed as the healers of the future. While both systems can offer help to the patient, the most powerful force in healing remains unconditional love in the form of nonjudgmental respect, care, trust, and compassion. Dr. Johnston presents this as the central core of holistic and integrative medicine in *The Eagle's Way*.

**The Heart of Healing** Regina Rosenthal 2013-02-01 "'The Heart of Healing' is the perfect book for those seeking to deepen their understanding of healing. Health-care professionals and the chronically ill know that this is a life-long journey of growth and development."--P. [4] of cover.

**Build a High-Nurturance Stepfamily** Peter K. Gerlach 2002-11-12 Note: hyperlinks below will take you to the Break the Cycle! Website (formerly "Stepfamily inFormation") that this book and series are based on. Use your browser's "back" button to return to Xlibris. This is the fourth volume in a series of six dedicated to breaking the epidemic [wounds + unawareness] cycle that promotes America's tragic divorce epidemic. The prior

volume, *Stepfamily Courtship* (Xlibris.com, 2002), outlines seven Projects to help courting couples make wise commitment decisions. This book for stepfamily coparents and supporters adds five more projects based on the prior seven ones. If couples didn't do the prior projects (which is common), they can start the first six any time. A sobering reality: if either partner made any unwise courtship choices, it's unlikely that doing these other 11 Projects will guard them and their dependents from the five hazards that promote psychological or legal re/divorce. Nonetheless, working at the projects will give minor kids their best chance at avoiding inherited psychological wounds, and passing them on to their descendants like their unaware ancestors did. The five post-re/wedding co-parenting projects are: 8) Nourish your re/marriage and steadily keep it your second priority, after personal integrity and wholistic health - except in emergencies. In complex multi-home stepfamilies this is hard for many couples to do; as they 9) Merge three or more multi-generational biofamilies, and evolve strategies to resolve inevitable values and loyalty conflicts and Persecutor-Victim-Rescuer relationship triangles; while you 10) (a) Build a co-parenting team with your kids other parents, (b) stay current on your kids progress with their many developmental and adjustment needs, and (c) continually adjust and refine your co-parenting job descriptions based on your stepfamily mission statement. Because all nine of these ongoing co-parent projects are complex, confusing, and conflictual 11) Intentionally build a support network for you and your kids, and use it regularly. Finally 12) Help each other (a) stay balanced personally, re/maritally, and co-parentally each day, and (b) enjoy this wholechallenging, en

*Collective Consciousness and Gender* Alexandra Walker 2018-08-22 This book explores collective consciousness and how it is applied to the pursuit of gender justice in international law. It discusses how the collective mode of behaviour and identity can lead to unconscious role-playing based on the social norms, expectations or archetypes of a group. Alexandra Walker contends that throughout history, men have been constructed as archetypal dominators and women as victims. In casting women in this way, we have downplayed their pre-existing, innate capacities for strength, leadership and power. In casting men as archetypal dominators, we have downplayed their capacities for nurturing, care and empathy. The author investigates the widespread implications of this unconscious role-playing, arguing that even in countries in which women have many of the same legal rights as men, gender justice and equality have been too simplistically framed as 'feminism' and 'women's rights' and that giving women the rights of men has not created gender balance. This book highlights the masculine and feminine traits belonging to all individuals and calls on international law to reflect this gender continuum.

**Build a Co-parenting Team** Peter K. Gerlach 2003-03-23 Note: links below connect to the non-profit educational Break the Cycle! Web site (Formerly "Stepfamily inFormation"). Close the pages or use your browsers "back" button to return here. Typical multi-home stepfamilies are riddled with conflicts between three or more co-parents and their relatives over child discipline, nutrition, visitations, custody, hygiene, religion, schooling, holidays, loyalties, expenses, names, responsibilities, and other topics. The scope, complexity, and persistence of these disputes among ex mates, stepparents, and relatives can significantly contribute to eventual re/divorce. (The "/" notes it may be a stepparents first union). This guidebook is part of a series intended to help co-parents and supporters overcome five common hazards that combine to (1) promote epidemic U.S. re/divorce, and (2) pass on significant psychological wounds to vulnerable children. The hazards are: co-parents shared unawarenesses and ignorance of key information; plus... unseen psychological wounds from low-nurturance childhoods; plus... incomplete or blocked grief in kids and/or adults, which inhibits new bonds and adult intimacy; plus... courtship neediness and romantic illusions; plus... little informed stepfamily help in the media and local community. Typical nuclear stepfamilies include three or more co-parents (bioparents and stepparents) and several minor kids shuttling between two or more homes: Parenting effectively in this environment is far more complex than in "traditional" intact biological families - which catches typical co-parents and relatives by surprise. Why this book (and series)? Families exist to nurture - i.e. to fill key needs of their kids and adults. Most U.S.

stepfamilies follow the divorce of one or both new mates, most of whom are parents. Divorce suggests that their kids weren't well nurtured in their first family, and have many concurrent developmental + special needs to fill in their complex stepfamily.

*Dialogue* Linda Ellinor 2023-03-11 Originally published in 1998 by John Wiley & Sons, this book offers insights, skills, and suggestions for how to introduce David Bohm's proposal of Dialogue into organizational contexts. In 1990 Peter Senge called Dialogue a key leadership tool for promoting team learning and fostering shared meaning, and community. The insights and skills offered in Dialogue: Discover the transforming power of conversation are just as relevant today as they were in 1998 or 1798 and will be far into the future. By republishing this book as an ebook, the material will now be more easily available. How do we, as members of a global human family engage the questions of global climate change, poverty, growing income inequality, wars, etc.? These are complex systemic issues with viewpoints becoming increasingly polarized. Many feel that the world is more divided and fragmented than ever. Dialogue is a way of connecting across such gaps of meaning; of listening, of speaking and being deeply heard and respected, building the trust that fosters people talking across positions and beliefs. New portals can then open for seeing beyond the levels of thinking that created the problems in the first place. Dialogue leads to new possibilities and hope for a vital future. Linda Ellinor and Glenna Gerard, co-founders of The Dialogue Group, collectively draw upon 50+ years of experience in multiple contexts ranging from corporations, education, and government, to personal and professional coaching. While the strategies in this book are focused on business contexts, they can help anyone to: -Develop trust building skills to speak about 'undiscussable' issues that block creativity, learning, effectiveness and satisfaction -Build strong and vital agreements that foster shared responsibility, collaboration, and accountability -Open doors to new and innovative ways of thinking and problem solving -See the roots of recurring problems' and make different choices moving forward -Reawaken and vitalize meaning, satisfaction and inspiration in all relationships, personal and professional. The Dialogue Group [www.thedialoguegroup.net](http://www.thedialoguegroup.net), is a consulting firm, with two private retreat centers, specializing in training and application of interpersonal communication skills for collaboration, full system engagement, innovation and strategic systemic thinking. A partial list of organizational clients include Boeing, 3COM, Silicon Graphics Inc., Levi Strauss & Company, University of San Diego, The Fetzer Institute, and The American Cancer Society.

*Acting, Imaging, and the Unconscious* Eric Morris 2011-05-06 *Acting, Imaging, and the Unconscious* is the fifth in a series of books written by Eric Morris on his unique system of acting. In this book the emphasis is on imaging as an acting tool to fulfill dramatic material. The work begins with an exploration of the various uses of imaging and goes on to delineate very specific techniques and approaches on how to image, when to image and why. Involved in this process are dreams and dreaming, as well as subpersonalities, which all serve to access and communicate with the unconscious,

where ninety-five per cent of an actor's talent lives. Also explored is a process of programming the unconscious to liberate the images that lie at the core of an actor's experience and talent, thus releasing the exciting wellsprings of creativity in the roles an actor plays. With complete examples taken from classical and contemporary plays and films, this book enters territories that had never before been tread upon, thus taking the art of acting into a totally new dimension.

**The Remarriage Book** Peter K. Gerlach 2003-04-14 Note - links below will take you articles and resources in the nonprofit Break the Cycle! Web site (formerly "Stepfamily inFormation"). Use your browsers "back" button to return to Xlibris.com. Love is not enough... Typical new stepparents and bioparents (co-parents) usually find that building a multi-home stepfamily is unexpectedly confusing and conflictual. Most recent stepfamily literature estimates that over half of American co-parents who attempt re/marriage after divorce or mate death ultimately re/divorce psychologically or legally - despite their love, maturity, commitment, and experience. The "/" notes that it may be a stepparents first union. This unique guidebook results from 27 years research into why so many U.S. couples re/divorce. It appears that there are five factors that combine to often defeat loves brightest dreams: unseen psychological wounds from childhood in stepfamily adults and kids, and... blocked grief from two or three major sets of losses in some co-parents and/or stepkids; and... co-parent unawareness of (a) their inner family of subselves and related psychological wounds; (b) healthy grieving basics; (c) vital parenting and relationship skills and (d) stepfamily realities; and... These factors and high neediness causing one or both partners to commit to wounded, unaware people (mate + ex mate + stepkids), for the wrong reasons, at the wrong time; and... Little informed co-parent support available in the media and their community. My work as a stepfamily therapist since 1981 suggests that courting and re/married partners can work patiently at 12 Projects together to overcome these five re/marital hazards and forge a strong, nourishing re/marriage

**Satisfactions** Peter K. Gerlach 2010-05 Links below will take you to the non-profit Break the Cycle! Web site (formerly Stepfamily inFormation). Use your browser's Back button to return to the Xlibris.com bookstore. Premise: From newborn infants to dying adults, we all communicate to reduce local discomforts - i.e. to fill current needs. Doing that promotes satisfaction. Anything you do that causes a significant emotional-spiritual-physical-mental change in another person can be called communication. It's impossible to not communicate with other people, for silence and inactivity cause reactions and presumed meanings. The quality of your life and key relationships depends largely on the effectiveness of the way you communicate - yet you probably don't know what you need to know about this vital life skill. To reality check that, mull these five challenges: 1) Name a learned skill that you rely on more often than communicating to get your key needs met. Note that thinking is internal communication. 2) How do you distinguish between effective and ineffective communication? If you're not sure, how can you tell if you're communicating effectively in important situations? 3) On a scale of 1 (totally ineffective) to 10 (totally effective), generally how effective a communicator would you rate yourself in calm times \_\_ and in conflicts \_\_ recently? 4) Identify the five most important people in your current life. From 1 to 10, how effective would you rate yourself in your communication with each of them in calm \_\_ and conflictual \_\_ times? How effective would each of them rate you? 5) Take your time, and see how well you do with this communication quiz. Then return. Would you like to improve your communication effectiveness with others and yourself? Seven Essential Skills This unique guidebook describes and illustrates seven vital communication skills that any motivated person can learn, with practice. They are: Awareness Clear thinking, Digging down, Effective assertion, Metatalking (talking cooperatively about communication),

*Relationship Power in Health Care* John B. Livingstone, M.D. 2016-04-19 The personal interface between clinician and patient is a misunderstood subject which can impact all areas of health care. Without adequate training in relationship science clinicians inadvertently contribute to empathic failure, poor medical decision process, difficulty changing health-related behavior, costly variation and derailment of care, extra litigation, and clinician burnout. *Relationship Power in Health Care* presents new knowledge and skills that empower health care and wellness professionals to become competent facilitators of behavior and lifestyle change, information transfer, and medical decision making in collaboration with their patients. The new approaches are supported by a wide variety of research and clinical evidence, derived from modern psychotherapy, brain biology, and the latest advances in health coaching and nursing science. Putting them to work to improve health care makes good sense both scientifically and ethically. This comprehensive text integrates past health psychology models starting from the 1950s with recent advances made since the 1990s in relationship psychology and interpersonal neurobiology. It also includes videos of brief medical interviews along with analysis of the strategies and tactics used. The tactics outlined and the interview demonstrations, conducted by a highly experienced clinical social worker and nurse Joanne Gaffney, offer a unique opportunity for all clinicians to acquire valuable skills in both clinician self-care and patient care.

In *Eastern Body, Western Mind*, chakra authority Anodea Judith brought a fresh approach to the yoga-based Eastern chakra system, adapting it to the Western framework of Jungian psychology, somatic therapy, childhood developmental theory, and metaphysics and applying the chakra system to important modern social realities and issues such as addiction, codependence, family dynamics, sexuality, and personal empowerment. Arranged schematically, the book uses the inherent structure of the chakra system as a map upon which to chart our Western understanding of individual development. Each chapter focuses on a single chakra, starting with a description of its characteristics and then exploring its particular childhood developmental patterns, traumas and abuses, and how to heal and maintain balance.
