**New Directions in Sexual Violence Scholarship** Kate Gleeson 2023-05-30 This edited collection brings together leading and emerging scholars in the important field of sexual violence scholarship. The last ten years have witnessed an international reckoning on sexual violence, typified in the mainstream imagination by the #MeToo movement, acknowledgement of the violence of university campus life, and the overdue recognition of the enduring harms of child sexual abuse. While the state has been forced to respond through law and other political processes, at times revealing its agility and at other times its archaic investment in the past, much of the real work responding to sexual violence and abuse has taken place within communities, and in the personal responses of the individuals writing the scripts of their experiences. This volume explores the nuances of these individual experiences and considers how they are shaped and reflected by intersecting axes of power including gender, race, class, age and able-bodied status. It reflects on law and law reform in the area and suggests new modes and frames through which to explain and understand sexual violence and institutional responses to it. Debates within this contested personal and political arena do not map onto longstanding binaries of liberal and radical feminism, nor conservative and progressive politics. This interdisciplinary volume traces that murky terrain and features some of the leading international scholars writing on sexual violence in English today. This book will appeal to scholars and students across the broad disciplines of law and legal studies; criminology; gender studies; political science and sociology.

It examines relationships involving Allied servicemen, civilians and between the legal and medical fraternities that sought to regulate and contain expressions of homosex in and out of the forces.

*The Censor's Library* Nicole Moore 2012 The first comprehensive examination of Australian book censorship, this enlightening and enthralling discussion is based on Nicole Moore's discovery of the secret "censor's library" in the National Archives. Combining scholarship with the narrative tension of a thriller, the book exposes the scandalous history of censorship in Australia. Built and maintained to ensure the books it held were not read--from the "Kama Sutra" to Lawrence's "Lady Chatterley's Lover" and Joyce's "Ulysses"--the censor's library was kept to negate the function of libraries: 793 boxes kept safe and intact for six decades. Through courtroom dramas and internecine bureaucracy, stolen libraries and police raids, authorial scandals and moral panics, this is a provocative account on a subject that continues to attract heated debate.

*The Origins of Australia's Capital Cities* Pamela Statham 1990-11-19 The Origins of Australia's Capital Cities is a comprehensive survey, well illustrated with maps and plans, which aims to answer two questions. First, why Australia's eight capital cities are situated where they are, and second, how they were established. Pairs of chapters on each of the State capitals - Sydney, Hobart, Perth, Adelaide, Melbourne and Brisbane - are accompanied by studies of Canberra as the federal capital and Darwin as a territorial capital. A capital is the administrative centre of a political entity, and in Australia, unlike many overseas countries, a uniquely high proportion of the population resides in the capitals. Companion chapters examine the causes of initial European settlement in each area, and reasons for the actual establishment of each capital city. Attention is given to such topics as planning and layout, the basis of growth, potential rivals, the social nature of the cities and the nature of their spread. While there have been no other volume covering all the capitals to seek answers to the same basic questions. This will therefore be an invaluable source book, and provide a stimulus to further enquiry in the social history of Australia. An introduction by the editor pulls together the general strands which link the chapters, and highlights the ways in which the Australian experience contrasts with the urban experience overseas.

Ecofeminism as Politics Ariel Salleh 1997-11 This is an exploration of the philosophical and political challenge of ecofeminism. It shows how the ecology movement has been held back by conceptual confusion over the implications of gender difference, while much that passes in the name of feminism is actually an obstacle to ecological change and global democracy. The author argues that ecofeminism reaches beyond contemporary social movements, being a synthesis of four revolutions in one: ecology is feminism is socialism is post-colonial struggle. Informed by a critical postmodern reading of the Marxist tradition, Salleh's ecofeminism integrates discourses on science, the body, culture, nature and political economy. The book opens with a short history of ecofeminism. Part Two establishes the basis for its epistemological challenge, while the third part consists of ecofeminist deconstructions of deep ecology, social ecology, ecosocialism and postmodern feminism. In the final section Salleh suggests that a powerful way forward can be found in commonalities between ecofeminist and indigenous struggles.

**THE ILLUSION OF FREE WILL** JJ Briggs 2020-05-21 If, like me, you have been in a relationship with a narcissist (whether you have realised it or not) and come out the other side, you will likely have reached a point of registering that you are in a "no win situation" before being able to remove yourself for good. Unfortunately for me, by the time I came to this conclusion I had hit rock bottom. I was financially bankrupt and ended up leaving a hotel room in a foreign country that my wife and I were staying in, with nothing more than the clothes I had on, and barely enough money to get away with. By this point I was so desperate to escape that I left without my passport, even though I was in the middle of Bangkok, because she had been keeping it from me for many years. This being just one of the methods my wife used to stop me from leaving her. Understandably, people find it hard to fathom why I did not take off earlier and waited so long to finally go. The truth is that I tried to do just that many times during the course of our four-year relationship. And as anyone that has been in a similar situation can attest, it just isn't that simple. For one thing if you truly believe, as I did, that you are in love and have found your soul mate (for want of a better word) you will do almost anything to see the relationship succeed. But the fact is that even though you are in love with this person or perhaps because of it, you are still completely screwed. The narcissist will never change. I would even argue that they are incapable of doing so. They are simply too focused on their own needs and desires at any given time to be able to. The result is that you decide to be the one that changes and capitulates, because if you don't, then the relationship simply won't last. You reason that at some point you will have managed to morph into the person he or she proclaims to want. All the while the goal posts keep being moved further and further away, until the day one realises that no amount of changing or giving, will ever be enough to satisfy the narcissist. They will always want and need more. However this book is not a self-help book, or a how to guide. It simply tells a story that starts at the point of initial meeting with Eve the narcissist in question, and ends with an escape through the streets of Thailand. To anybody that has experienced a similar relationship many things will be very familiar, like the narcissists total lack of empathy, financial exploitation, violence, great sex and even love at times. Other things will probably be unfamiliar, like being involved in a so-called cult. Though through experience I have now come to suspect that all cult leaders must also be narcissists or perhaps some extreme narcissists also become cult leaders. Either way round they then use their natural charisma and power of persuasion over others to coral and cajole followers into not only doing their bidding, but as minions they can use to control other people even further. If I had a single wish for this tale told in first person, it would be that beyond being an entertaining story, it could perhaps help someone in a similar situation recognise the signs of abuse sooner, rather than later. And that this story be a catalyst for an earlier removal from an ultimately futile relationship.

**All Fall Down** Matthew Condon 2015-10-01 Continuing on from the bestselling true crime stories *Three Crooked Kings* and *Jacks and Jokers*, *All Fall Down* follows Terry Lewis as he becomes police commissioner and the era of corruption at the highest levels of the police and government goes on. As the Queensland police become more connected with their corrupt colleagues in Sydney, the era of heavy drugs and crime also begins. Tony Murphy and Glen Hallahan, two of the original "crooked kings," become more enmeshed with "The Joke" which is run by bagman Jack Herbert. *All Fall Down* introduces new characters, more extraordinary behavior outside the law by the law, and along the way it charts the meteoric rise of police commissioner Terry Lewis. But with the arrival of the Fitzgerald Inquiry in the late 1980s, many will fall—and it's not always the people who should. Once again award-winning journalist and novelist Matthew Condon has drawn from unprecedented access to Terry Lewis, as well as hundreds of interviews with key players and conspirators to craft the definitive account of the rise—and spectacular fall—of one man, an entire state, and over a generation of corruption.

**The Fragmenting Family** Brenda Almond 2008-08-28 Brenda Almond throws down a timely challenge to liberal consensus about personal relationships. She maintains that the traditional family is fragmenting in Western societies, and that this fragmentation is a cause of serious social problems. She urges that we reconsider our attitudes to sex and reproduction in order to strengthen our most important social institution, the family, which is the key to ensuring healthy relationships between parents and children and a secure upbringing for the citizens of the future. Anyone who is concerned about how the framework of society is changing, anyone who has to face difficult personal decisions about parenthood or family relationships, will find this book compelling. It may disturb deep convictions, or offer an unwelcome message; but it is compassionate as well as controversial.

**The Delight Makers** Catherine L. Albanese 2023-01-17 "Can you draw a clear line through American history from the Puritans to the "Nones" of today? On the surface, there is not much connective tissue between the former, who often serve as shorthand for a persistent religious fanaticism in the United States, and the almost one quarter of the population who now regularly check the "None" or "None of the above" box when responding to surveys of religious preference. But instead of seeing a disconnect between these two groups separated by time, historian Catherine Albanese insists there is a deep connection that spans the centuries. With a targeted romp through American history from the seventeenth century to the present, Albanese ties together these seemingly disparate groups through a shared and distinctively American preoccupation with delight and desire.

Albanese begins our journey with the role of delight and desire in the brand of Calvinism championed by renowned Puritan minister Cotton Mather and later Jonathan Edwards. She then traces the development of these themes up through the present, treating the reader to revelatory readings of Ralph Waldo Emerson, Horace Bushnell, Andrew Jackson Davis, William James, Emma Curtis Hopkins, Elizabeth Towne, and others, revealing the contours of an evolving theology of desire. The result is an original and entertaining take on an underexamined through line in American history"--

**The Utopian Alternative** Carl J. Guarneri 2018-07-05 The utopian socialism of Charles Fourier spread throughout Europe in the mid-nineteenth century, but it was in the United States that it generated the most intense excitement. In this rich and engaging narrative, Carl J. Guarneri traces the American Fourierist movement from its roots in the religious, social, and economic upheavals of the 1830s, through its bold communal experiments of the 1840s, to its lingering twilight after the Civil War.

*The Festivalization of Culture* Jodie Taylor 2016-03-09 *The Festivalization of Culture* explores the links between various local and global cultures, communities, identities and lifestyle narratives as they are both constructed and experienced in the festival context. Drawing on a wide range of case studies from Australia and Europe, festivals are examined as sites for the performance and critique of lifestyle, identity and cultural politics; as vehicles for the mobilization and cementation of local and global communities; and as spatio-temporal events that inspire and determine meaning in people's lives. Investigating the manner in which festivals are no longer merely periodic, cultural, religious or historical events within communities, but rather a popular means through which citizens consume and experience culture, this book also sheds light on the increasing diversity of contemporary societies and the role played by festivals as sites of cohesion, cultural critique and social mobility. As such, this book will be of interest to those working in areas such as the sociology, consumption and commodification of culture, social and cultural geography, anthropology, cultural studies and popular music studies.

[Crime Over Time](#) Robyn Lincoln 2010-08-11 *Crime Over Time* features original contributions from some of Australia's most respected criminologists and historians. The book marries these two disciplines to offer a unique examination of crime and deviance over more than 200 years of Anglo-Australian history. This innovative compilation explores the intriguing ways in which Australian crime has evolved and the pioneering ways criminal justice agencies have dealt with offenders. The topics investigated range from colonial bushranging to terrorist attacks, along with emerging forms of criminal activity, such as cybercrime. The book also highlights the social construction of crime by using case studies, including the way that homosexual activity was policed in earlier times. The collection provides an engaging and thorough examination of the historical factors that have shaped crime and punishment and its contemporary context.

**Johnno** David Malouf 2015-11-23 "Despite Johnno's assertion that Brisbane was absolutely the ugliest place in the world, I had the feeling as I walked across deserted intersections, past empty parks with their tropical trees all spiked and sharp-edged in the early sunlight, that it might even be beautiful ... " Johnno is a typical Australian who refuses to be typical. His disorderly presence can disturb the staleness of his home town or destroy the tranquillity of a Greek landscape. An affectionately outrageous portrait, David Malouf's first novel recreates the war-conscious forties, the pubs and brothels of the fifties, and the years away treading water overseas.

**Odyssey of an Airhead** Malgorzata Duszak 2010-05-19 The book is written as a journal by a naive Catholic girl from Poland as she is thrown into the world, where she discovers herself in the spiritual maze of beliefs and concepts. She goes through life as it presents her with new experiences and she makes her way through them in the incessant longing to know and understand more. She doesn't offer dry facts of what she discovers and believes, she doesn't attempt to tell the readers what the truth is, or what reality is all about. She innocently and eagerly asks questions, but not necessarily always gives the answers. She is not anyone's teacher, but through her personal odyssey, spanning a period of about eight years, she compels the casual reader to think just a little less casually. The embracement of all human encounters, philosophies, and ways of living remains her key to the higher understanding of the experience of life. Although perceived as an "airhead" by some, she enthusiastically takes us through simple, but large, ideas; the religious and spiritual concepts the humanity developed to explain the inexplicable. Through her philosophical and esoteric growth the reader feels accompanied on their own inner search. Being a part of life's journey toward the Absolute, and going at the same time through the ordinary human experience full of pain and emotions qualifies anyone to talk about what unfolds along their way. This time, the journey is hers, and she invites everyone to join.

**The 1960s in Australia** Shirleene Robinson 2012-01-17 The 1960s is one of the most heavily mythologised decades of the twentieth century. More than 50 years on, the era continues to capture the public's imagination. The 1960s in Australia: People, Power and Politics recognises the complexity of social and cultural change by presenting a broad range of contributions that acknowledge an often overlooked fact - that not everyone experienced the 1960s in the same way. The diversity of the time is confirmed by contributions from a number of expert Australian historians who each provide an insight into Australia in the 1960s, offering an understanding of the social realities of this period as well as the ebbs and flows of transnational influence. This collection includes a featured contribution by prominent Australian historian, Raymond Evans, who provides a personal insight into the 1960s. Other contributors also place 'the lived experience' at the centre of their analysis by considering the growth of modern flats, the impact of cosmopolitanism, and sex and sexuality in the 'Sixties'. The book also highlights the way power was deployed and deconstructed during this era by considering the psychiatric profession, the agenda of the counter-culture, and the role that women's magazines played in reinforcing dominant gender paradigms. The complex politics of the era are also explored through the transnational impact of figures such as Anthony Crosland, the impact of the Vietnam War, and the multiplicity of motivations behind the anti-war protest and the Aboriginal rights movement of the era. The 1960s in Australia: Power, People and Politics is a fresh focus on a significant time in Australia's history. It brings together a collection of innovative and engaging explorations into the Australian 'Sixties', which underline the complexity of the time.

**Governance and Public Space in the Australian City** Anna Temby 2023-09-19 Governance and Public Space in the Australian City is a rich and evocative examination of the production and use of public spaces in Australian cities in the late-nineteenth and early-twentieth centuries. Using Brisbane as a case study, it demonstrates the way public spaces were constructed, contested, and controlled in attempts to create 'ideal' city spaces. This construction of space is considered not just in the literal and material sense but also as a product of aspirational and imaginative processes of city-building by municipal authorities and citizens. This book is as much about people as it is about cities - uncovering the manner in which perceived models of ideal urban citizenship were reflected in the production and ordering of city spaces. This book challenges common narratives that situate public spaces as universal or equalising aspects of the urban sphere. Exploring three distinct types of public space - the streets, slums, and parks - the book questions how urban spaces functioned, alongside how they were intended to function. In so doing, Governance and Public Space in the Australian City situates public spaces as products of manipulation and regulation at odds with broader concepts of individual liberty and the 'rights' of people to public space. It will be illuminating reading for scholars and students of urban history and Australian history.

**Sunshine and Rainbows** Clive Moore 2001 A history of the development of homosexuality as an Australian subculture. Proceeding chronologically from the 1820s through to the vibrant alternative culture that exists in 2000, this book argues that the manner in which gay and lesbian identity has been constructed in Queensland is typical of Australia generally.

**Essays on Socialism** Louis Patsouras 1992 This is an anthology not only on representative figures of the major socialist streams, but also on various problems of socialism. It includes sections on anarchism, Marxism, Communism, and democratic Socialism.

**A Tambo Girl** Terry Spring 2014 A TAMBO GIRL - HESTER'S STORY is based on a real-life family who resided in and around Tambo, a remote town in Queensland's outback. It tells the tale of a woman who, living in a time when men made the decisions, never really had her shot at life until her husband died and she was able to take command of it. Her living in Tambo was a constant struggle, with the primitive conditions, the distances, the weather and the attitudes of the men in her family. Hester found herself able to push through the misogyny of the time to run her own life and business in the bustle of Brisbane. How a woman, born and bred in the remote Tambo bush, came to be living a city life, in the jazz age, always intrigued the family. Hester Jane McDonough lived in the last century but was a woman of our time.
