Transformations in Queer, Trans, and Intersex Health and Aging - Alexandra C. H. Nowakowski 2020-10-07

This book utilizes collaborative autoethnography to examine transformations in health and aging among queer, trans, and intersex people in society. To this end, the authors each utilize their lived experiences as queer, trans, and/or intersex people to discuss inequalities and norms in U.S. healthcare. Further, they elaborate upon some ways U.S. healthcare systems may become more inclusive of queer, trans, and intersex populations over time. In so doing, they utilize the autoethnographic cases to illustrate and describe the complexities of sex, gender, and sexualities in health and aging as well as the ways such intricacies facilitate societal inequalities in health and aging.

Saving Face - Heather Laine Talley 2014

Winner, Body and Embodiment Award presented by the American Sociological Association Imagine yourself without a face--the task seems impossible. The face is a core feature of our physical identity. Our face is how others identify us and how we think of our 'self'. Yet, human faces are also functionally essential as mechanisms for communication and as a means of eating, breathing, and seeing. For these reasons, facial disfigurement can endanger our fundamental notions of self and identity or even be life threatening, at worse. Precisely because it is so difficult to conceal our faces, the disfigured face compromises appearance, status, and, perhaps, our very way of being in the world. In *Saving Face*, sociologist Heather Laine Talley examines the cultural meaning and social significance of interventions aimed at repairing faces defined as disfigured. Using ethnography, participant-observation, content analysis, interviews, and autoethnography, Talley explores four sites in which a range of faces are "repaired:" face transplantation, facial feminization surgery, the reality show *Extreme Makeover*, and the international charitable organization *Operation Smile*,. Throughout, she considers how efforts focused on repair sometimes intensify the stigma associated with disfigurement. Drawing upon experiences volunteering at a camp for children with severe burns, Talley also considers alternative interventions and everyday practices that both challenge stigma and help those seen as disfigured negotiate outsider status. Talley delves into the promise and limits of facial surgery, continually examining how we might understand appearance as a facet of privilege and a dimension of inequality. Ultimately, she argues that facial work is not simply a conglomeration of reconstructive techniques aimed at the human face, but rather, that appearance interventions are increasingly treated as lifesaving work. Especially at a time when aesthetic technologies carrying greater risk are emerging and when discrimination based on appearance is rampant, this important book challenges us to think critically about how we see the human face.

Trans Bodies, Trans Selves - Laura Erickson-Schroth 2014

This is a groundbreaking, personal, and informative guide for the transgender population, covering health, legal issues, cultural and social questions, history, theory, and more. It is a place for transgender and gender-questioning people, their partners and families, students, professors, and guidance counselors, to look for up-to-date information on transgender life.

Intersections of Ageing, Gender and Sexualities - King, Andrew 2020-09-16

Available Open Access under CC-BY-NC licence. With an increasingly diverse ageing population, we need to expand our understanding of how social divisions intersect to affect outcomes in later life. This edited collection examines ageing, gender, and sexualities from multidisciplinary and geographically diverse perspectives and looks at how these factors combine with other social divisions to affect experiences of ageing. It draws on theory and empirical data to provide both conceptual knowledge and clear 'real-world' illustrations. The book includes section introductions to guide the reader through the debates and ideas and a glossary offering clear definitions of key terms and concepts.

Older GLBT Family and Community Life - Christine A. Fruhauf 2019-07-09

It is a well known fact that our population of persons aged 65 and over are growing at a faster rate than any other demographic. Older adults are now living longer more complex lives than previous generations. Recent census data confirms the emergence of a growing, more visible older Gay, Lesbian, Bisexual and Transgendered (GLBT) community. In spite of the diversity that now exists in older GLBT communities, very little is known about their contemporary experiences and healthcare needs. What is needed is a more inclusive understanding of older GLBT family and community life. As a result, this book will educate community professionals about the experiences of older GLBT adults and the issues they face within their families and communities. In particular, physical and mental health, family relationships, and individual development are explored in this textbook. This multidisciplinary approach to GLBT aging will also benefit undergraduate students, graduate students, and academics specializing in anthropology, education, family studies, gerontology, health studies, human development, psychology, social work, and sociology. For that matter, anyone currently researching or working with older sexual communities. This book was published as a special issue of the *Journal of GLBT Family Studies*.

Traversing Gender - Lee Harrington 2016-05-01

In the current age of gender identity and transgender awareness, many questions are coming to light for everyone. Whether brought about by media and cultural attention or personal journeys, individuals who have never heard of transgender, transsexual, or gender variant people can feel lost or confused. Information can be hard to find, and is often fragmented or biased. Meanwhile, trans people are getting a chance to dialogue with each other and finally be heard by the world at large. In *Traversing Gender: Understanding Transgender Realities*, author Lee Harrington helps make the intimate discussions of gender available for everyone to understand. Topics include: What the words "trans" "transgender" mean, differences (and crossovers) between sex, gender, and orientation, the wide array and types of trans experiences, social

networking and emotional support systems for trans people, navigating medical care, from the common cold to gender-specific procedures, what "transitioning" looks like, from a variety of different approaches, how legal systems interplay with gender and trans issues, extra challenges based on gender, race, class, age and disability, skills and information on being a successful trans ally. Bringing these personal matters into the light of day, this reader-friendly resource is written for students, professionals, friends, and family members, as well as members of the transgender community itself.

Lesbian, Gay, Bisexual and Trans Individuals Living with Dementia* - Sue Westwood 2016-04-28

This groundbreaking collection is the first to focus specifically on LGBT* people and dementia. It brings together original chapters from leading academics, practitioners and LGBT* individuals affected by dementia. Multi-disciplinary and international in scope, it includes authors from the UK, USA, Canada and Australia and from a range of fields, including sociology, social work, psychology, health care and socio-legal studies. Taking an intersectional approach - i.e. considering the plurality of experiences and the multiple, interacting relational positions of everyday life - LGBT Individuals Living with Dementia addresses topics relating to concepts, practice and rights. Part One addresses theoretical and conceptual questions; Part Two discusses practical concerns in the delivery of health and social care provision to LGBT* people living with dementia; and Part Three explores socio-legal issues relating to LGBT* people living with dementia. This collection will appeal to policy makers, commissioners, practitioners, academics and students across a range of disciplines. With an ageing and increasingly diverse population, and growing numbers of people affected by dementia, this book will become essential reading for anyone interested in understanding the needs of, and providing appropriate services to, LGBT* people affected by dementia.

The SAGE Encyclopedia of LGBTQ Studies - Abbie E. Goldberg 2016-04-13

This far-reaching and contemporary new Encyclopedia examines and explores the lives and experiences of Lesbian, Gay, Bisexual, Transgender and Queer (LGBTQ) individuals, focusing on the contexts and forces that shape their lives. The work focuses on LGBTQ issues and identity primarily through the lenses of psychology, human development and sociology, emphasizing queer, feminist and ecological perspectives on the topic, and addresses questions such as: · What are the key theories used to understand variations in sexual orientation and gender identity? · How do Gay-Straight Alliances (GSA) affect LGBTQ youth? · How do LGBTQ people experience the transition to parenthood? · How does sexual orientation intersect with other key social locations, such as race, to shape experience and identity? · What are the effects of marriage equality on sexual minority individuals and couples? Top researchers and clinicians contribute to the 400 signed entries, from fields such as: · Psychology · Human Development · Gender/Queer Studies · Sexuality Studies · Social Work · Sociology The SAGE Encyclopedia of LGBTQ Studies is an essential resource for researchers interested in an interdisciplinary perspective on LGBTQ lives and issues.

Queering Multiculturalism - Aret Karademir 2018-10-15

Queering Multiculturalism argues for group-specific rights for ethno-cultural minorities, but without ignoring the possibility that such rights may lead to ethnic chauvinism, balkanization, and the cultural marginalization of minorities-within-minorities, such as ethnic LGBT people.

Inequalities and Disparities in Health Care and Health - Jennie J. Kronenfeld 2008

Deals with the topic of health inequalities and health disparities. This book examines racial and ethnic inequalities and disparities. It focuses on consumers and topics of health care disparities. It also focuses on issues related to substance abuse, mental health and related concerns.

Aging Masculinities in Contemporary U.S. Fiction - Josep M. Armengol 2021-07-26

This book focuses on representations of aging masculinities in contemporary U.S. fiction, including shifting perceptions of physical and sexual prowess, depression, and loss, but also greater wisdom and confidence, legacy, as well as new affective patterns. The collection also incorporates factors such as race, sexuality and religion. The volume includes studies, amongst others, on Philip Roth, Paul Auster, Toni Morrison, Ernest Gaines, and Edmund White. Ultimately, this study proves that men's aging experiences as described in contemporary U.S. literature and culture are as complex and varied as those of their female counterparts.

Living Apart Together - Cynthia Grant Bowman 2020-12-29

Argues for legal reforms to protect couples who live apart but perform many of the functions of a family Living Apart Together is an in-depth look at a new way of being a couple and "doing family"—living apart together (LAT)—in which committed couples maintain separate residences and finances. In Bowman's own 2016 national survey, 9% of respondents reported maintaining committed relationships while living apart, typically spending the weekend together, socializing together, taking vacations together, and looking after one another in illness, but maintaining financial independence. The term LAT stems from Europe, where this manner of coupledness has been extensively studied; however, it has gone virtually unnoticed in the United States. Living Apart Together aims to remedy this oversight by presenting original research derived from both randomized surveys and qualitative interviews. Beginning with the large body of social science literature from outside the US, Cynthia Bowman examines the prevalence of this lifestyle, the demographics of people who live apart, their reasons for doing so, and how these individuals manage finances, care during illness, and many other aspects of family life. She focuses in particular detail on three key demographics—women, gay men, and the elderly—and how individuals from these groups engage in LAT behavior. She finds that while these living arrangements are more common than previously believed, there are virtually no legal protections for the people involved. Bowman concludes by proposing a number of legal reforms to support the caregiving functions LAT partners perform for each other. Living Apart Together makes an important case for formal recognition of this growing but largely overlooked family structure.

Sexual Minorities - Michael K. Sullivan 2013-10-31

Explore the crucial issues facing the GLBT population in their struggle for acceptance in contemporary America! *Sexual Minorities: Discrimination, Challenges, and Development in America* examines the stumbling blocks that prevent gays, lesbians, bisexuals, and transgenders from living wholesome, healthy lives. This book concentrates on the effects of outside influences on the homosexual psyche from adolescence to mid-life and programs and services that need to be developed to improve quality of life. While some outside influences can make positive changes—such as Internet-based outreach to educate men in chat rooms about HIV—sexual minority groups face negativity from society in the forms of homophobia and heterosexism. *Sexual Minorities* uses statistics, charts, graphs, and surveys to reveal a remarkable trend correlating how contemporary American society treats sexual minorities and how it affects their psychological and psychosocial health. This book also reveals how—when internalized—this hurtful discrimination can cause self-hatred and depression. Each chapter focuses on a different aspect of the GLBT population, including: the history of homophobia and intolerance toward homosexuals with its basis in cultural, religious, and sociological views an in-depth survey utilizing Erikson's psychosocial model to determine the lifespan development of seven "out" gay males who discuss their coming-out period, their roles in society, their legacies, and later-life issues the lack of federal legislation protecting GLBT employees in the workplace and recommendations for creating a sense of security for these employees a case study revealing the high incidence rate of heterosexism amongst social workers and the repercussions this could have among homosexual clientele surveys and statistics investigating the rate of abusive behavior in lesbian relationships three chapters involving specific issues of gay, lesbian, and bisexual adolescents, such as coming out, risk and protective factors, and being homosexual in a rural environment as opposed to a city *Sexual Minorities* is an important tool for everyone in today's society—from students and practitioners of social work, health care, human sexuality, psychology, and sociology, to legislators, lawyers, activists, and business owners. This book is also vital for every parent, relative, or friend of a man or woman labeled as a sexual minority.

Ageing, Diversity and Equality - Sue Westwood 2018-10-31

Current understandings of ageing and diversity are impoverished in three main ways. Firstly, with regards to thinking about what inequalities operate in later life there has been an excessive preoccupation with economic resources. On the other hand, less attention has been paid to cultural norms and values, other resources, wider social processes, political participation and community engagement. Secondly, in terms of thinking about the 'who' of inequality, this has so far been limited to a very narrow range of minority populations. Finally, when considering the 'how' of inequality, social gerontology's theoretical analyses remain under-developed. The overall effect of these issues is that social gerontology remains deeply embedded in normative assumptions which

serve to exclude a wide range of older people. Ageing, Diversity and Equality aims to challenge and provoke the above described normativity and offer an alternative approach which highlights the heterogeneity and diversity of ageing, associated inequalities and their intersections. Gay, Lesbian, Bisexual, and Transgender Aging - Tarynn M. Witten 2012-06-01

The graying of the U.S. population draws increasing focus to historically unattended segments of society, including sexual and gender minorities. In this first comprehensive volume to address the challenges of aging in the gay, lesbian, bisexual, transgender, and intersex populations, this text presents what is currently known about aging GLBT individuals and what services are needed to support them. The editors first provide an introductory overview comparing caregiving in GLBT and normative aging communities. In chapters devoted to the issues of each alternative sexuality and gender identity community, top experts in the field discuss biomedical, psychological, social/sexual, spiritual, socioeconomic, and service topics related to that community's aging needs. GLBT populations face unique challenges as they age. Despite the often severe difficulties they encounter, many live out their final years with the dignity and grace that all of us deserve. With a combination of the latest biological and social science research, moving case studies and first-person accounts, practical advice for health professionals, and research literature citations, this book represents a major step forward in addressing concerns of aging GLBT populations. Integrating research, practice, and policy, this text is for students and professionals in gerontology, medicine, social work, psychology, nursing, public health, and related fields who wish to learn more about the life experiences and concerns of sexual- and gender-minority-identified older patients.

Outing Age - Sean Cahill 2000

The Routledge Handbook of International Critical Social Work - Stephen A. Webb 2022-11-11

The Routledge Handbook of International Critical Social Work is a companion volume to the Routledge Handbook of Critical Social Work. It brings together world-leading scholars in the field to provide additional, in-depth and provocative consideration of alternative and progressive

ways of thinking about social work. Critical social work is increasingly involved in a global conversation, and as a subfield of social work it is rapidly becoming an interdisciplinary field in its own right and promoting novel forms of political activism. The Handbook showcases the global influences and path-breaking ideas of critical social work and examines the different stances taken on important political and ethical issues. It provides the first complete survey of the vibrant field of critical social work in a rich international context. This definitive volume is one of the most comprehensive source books on crucial social work that is available on the international stage and an essential guide for anyone interested in the politics of social work. The Handbook is divided into seven sections • Thinking the Political • Politics and the Ruins of Neoliberalism • Negotiating the State: Resistance, Protest and Dissent • Race, Bordering Practices and Migrants • Post Colonialism, Subaltern and the Global South • Critical Feminism, Sexuality and Gender Politics • Posthumanism, Pandemics and Environment The Handbook is comprised of 46 newly written chapters (and one reprint) which concentrate on differences between European and American contributions in this field as well as explicitly identifying the significance of critical social work in the context of Latin America. It provides a further vital trajectory of intellectual practice theory via interdisciplinary discussion of areas such as biopolitics, critical race theory, boundaries of gender and sexuality, queer studies, new conceptions of community, issues of public engagement, racism and Roma people, ecological feminism, environmental humanities and critical animal studies. The Handbook is an innovative and authoritative guide to theory and method as they relate to policy issues and practice and focus on the primary debates of today in social work from a critical perspective, and will be required reading for all students, academics and practitioners of social work and related professions.
