*Kickboxing Geishas* - Veronica Chambers 2007-01-09

Forget the stereotypes. Today's Japanese women are shattering them -- breaking the bonds of tradition and dramatically transforming their culture. Shopping-crazed schoolgirls in Hello Kitty costumes and the Harajuku girls Gwen Stefani helped make so popular have grabbed the media's attention. But as critically acclaimed author Veronica Chambers has discovered through years of returning to Japan and interviewing Japanese women, the more interesting story is that of the legions of everyday women -- from the office suites to radio and TV studios to the worlds of art and fashion and on to the halls of government -- who have kicked off a revolution in their country. Japanese men hardly know what has hit them. In a single generation, women in Japan have rewritten the rules in both the bedroom and the boardroom. Not a day goes by in Japan that a powerful woman doesn't make the front page of the newspapers. In the face of still-fierce sexism, a new breed of women is breaking through the "rice paper ceiling" of Japan's salary-man dominated corporate culture. The women are traveling the world -- while the men stay at home -- and returning with a cosmopolitan sophistication that is injecting an edgy, stylish internationalism into Japanese life. So many women are happily delaying marriage into their thirties -- labeled "losing dogs" and yet loving their liberated lives -- that the country's birth rate is in crisis. With her keen eye for all facets of Japanese life, Veronica Chambers travels through the exciting world of Japan's new modern women to introduce these "kickboxing geishas" and the stories of their lives: the wildly popular young hip-hop DJ; the TV chef who is also a government minister; the entrepreneur who founded a market research firm specializing in charting the tastes of the teenage girls driving the country's GNC -- "gross national cool"; and the Osaka assembly-woman who came out publicly as a lesbian -- the first openly gay politician in the country. Taking readers deep into these women's lives and giving the lie to the condescending stereotypes, Chambers reveals the vibrant, dynamic, and fascinating true story of the Japanese women we've never met. *Kickboxing Geishas* is an entrancing journey into the exciting, bold, stylish new Japan these women are making.

**Conversations With My Childhood Self - A Japanese Girl's Life** -

Would you like to go back in time and talk to your childhood self? What events would you discuss? What advice would you give? This is the true story of Terri Yamaguchi, a Japanese girl growing up in a poor family during the 1970s and '80s. Each childhood episode is then followed by fictional discussions between the girl and her adult self, talking about the painful events of that day. The adult enters a meditative state in order to contact the girl while she is dreaming, and by using her adult perspective and spiritual beliefs, is able to console, encourage, and provide explanations for her childhood self in an effort to help her through painful times. This not only creates a healing effect for the girl, but the healing of the child also transcends time, reaching into the future to simultaneously heal the adult. The book begins with an introduction to Terri and her family and the circumstances of their lives. The dominant role of her father; the subservient role of her mother; the embarrassment of being poor; the controlling influence of their church; and how these forces combined with the nature of Japanese society to condition Terri to think and feel the way she did - as passive, powerless, and always obedient.

But as she grows older she finds important ways to overcome this conditioning, that eventually rescue her from what she thought would be a predetermined life of drudgery and control, and the simply awful fate of repeating her mother's life.

The stories are told in chronological order, beginning with memories of events that occurred as an infant, through to events that occurred at 24 years of age.

An alternative title for the book was 'Things I Wish I'd Known as a Child', and this is because the conversations that occur between Terri as an adult and Terri as a child, provide the girl with explanations that she never received from the adults around her at the time, and also provide her with spiritual philosophies that enable her to see the painful events of her life in a completely different light. Not just the wisdom that an adult could provide to a child, but wisdom that was virtually unknown in the 1970s, but is now helping thousands of people to find deeper meaning, renewed purpose, and greater ease in their lives.

□Let's say you had two lives to choose from. One is a life where people make you feel bad, and you have to then either 'fix' them or put up with feeling bad. And 'fixing' someone means you have a discussion, or an argument, or a fight to convince, coerce, or cause them to change. But these people will not stay 'fixed'. They'll eventually do the same thing again and you'll have to fix them all over again. And this goes on for maybe 80 years. How does that sound?□

Sounds like hell. What's the other life I have to choose from?□

□gThe other life is one where people still make you feel bad, but to make sure that doesn't happen again, you only ever have to 'fix' one person. And that one person is infinitely cooperative. They will agree with everything you think, and be willing to do whatever you decide, and they will always like you, no matter what. And each time you fix that one person, it will make it less likely that you will need to fix them in the future. So, how does that life sound?□

Sounds like heaven. And it sounds incredibly easier than the other life.□

### **Cultural Migrants from Japan** - Yuiko Fujita 2009-05-16

In recent years, a large number of young Japanese have been migrating to New York and London for the purpose of engaging in cultural production in areas such as dance, fashion, DJing, film, and pop arts in the hope of 'making it' as artists. In the past, this kind of cultural migration was restricted to relatively small, elite groups, such as American artists in Paris in the 1920's, but Cultural Migrants from Japan looks at the phenomenon of tens of thousands of ordinary, middle-class Japanese youths who are moving to these cities for cultural purposes, and it questions how this shift in cultural migration can be explained. Following Appadurai's theory of the relation between electronic media and mass migration, and using ethnographies of twenty-two young migrants over a five year period, Fujita examines how television, film, and the internet influence this mobility. She challenges emerging orthodoxies in the general discussion of transnationalism, demonstrating the disjunction migrants experience between the pre-existing expectations created by media exposure, and the reality of creating and living as a 'transnational' artist participating in a global community. Intersecting long-term, multi-sited ethnography with emerging transnational and globalization theory, Cultural Migrants from Japan is a timely look at the emerging shift in concepts of national identity and migration.

Children are supposed to have a family support system to raise them, but I didn't. The only support that came to my side was a devil in disguise of a human, my grandfather. He is a devoted Japanese man who decided to take me in from that disgraceful orphanage because of my skills. He is my marionette, and he pulled all my strings to mold me into a perfect heir to take over his legacy. The Saito clan is one of the wealthiest families coming out of Japan. The clan is based on an island open to the public, and my grandfather always stayed on top by doing whatever was necessary. All my life, I have never experienced the word freedom. Would I ever be able to?

Soon after the WHO declared a global pandemic in the spring of 2020, an Educational Assistant at Avondale Elementary recognized the significance of recording history. Her heart hurt, and she empathized with the fear and uncertainty, hardships and struggles many would face. She invited her coworkers to participate in a personal and school journaling project. A sensitive, creative heart enabled her to access and express her school family's vulnerabilities and successes, as well as her own. Together they relied on an age-old truth: "Two people are better off than one, for they can help each other succeed. If one person falls, the other can reach out and help. But someone who falls alone is in real trouble." (Ecclesiastes 4:9-10, NLT). *Every Story Starts with Small Steps: Avondale COVID-19 Journal* is a vulnerable, heartwarming, and sometimes heartbreaking glimpse into the experiences of a school community during the COVID-19 global pandemic. Karen weaves the stories seamlessly together, telling them with grace and compassion. Everyone who reads it will be able to relate to something in this book and will feel more connected and validated in their own experiences. —Kristina Black, Principal of Avondale School Thank you, Karen, for reminding me how incredible humanity is. —Rene Sonnenberg, National Team Coach, Curling Canada
