**Feminist Interrogations of Women's Head Hair** Sigal Barak-Brandes 2018-06-13 Feminist scholarship has looked extensively at the perception of the body as a flexible construction of cultural and social dictates, but head hair has been often overlooked. *Feminist Interrogations of Women's Head Hair* brings new focus to this underrepresented topic through its intersections with contemporary socio-cultural contexts. Scholars from a wide range of disciplines investigate private and public meanings associated with female head hair, problematising our assumptions about its role and implications in the 21st Century. Readers are invited to reflect on the use of hair in popular culture, such as children's television and pop album artwork, as well as in work by women artists. Studies examine the lived experiences of women from a range of backgrounds and histories, including curly-haired women in Israel, African American women, and lesbians in France. Other essays interrogate the connotations of women's head hair in relation to body image, religion, and aging. *Feminist Interrogations of Women's Head Hair* brings together cultural discourses and the lived experiences of women, across time and place, to reveal the complex and ever-evolving significance of hair. It is an important contribution to the critical feminist thought in cultural studies, fashion studies, media studies, African American studies, queer theory, gerontology, psychology, and sociology.

*All in the Best Possible Taste* Tom Bromley 2010-08-19 Television past, as LP Hartley might have once said, is another country. And, in the early 1980s it certainly was a different beast. There were still only three channels to watch; the evening's programmes finished with the playing of the national anthem; and the biggest prize on TV was not Chris Tarrant's million pounds but a speedboat on Bullseye . . . But as Tom Bromley suggests in this funny and warming memoir, all that was about to change: The 1980s saw the end of the original golden era of television, and the beginnings of TV as we know it today. In 1982, Channel 4 became the first new terrestrial channel for almost twenty years and by the end of the decade, Rupert Murdoch's Sky Television was vying to become Britain's first multi-channel provider. The result of all this was that slowly but surely, British viewers had more choice than ever before and the cost of this choice was the erosion of television as a shared national event. And no-one felt this change more deeply than Tom Bromley. Television played a large part in Tom's childhood. His first word was 'two', as in BBC Two, and his earliest childhood memory is seeing Johnny Ball at a church fete. With great humour and affection, Tom Bromley tells the story of a childhood spent with his three siblings and that other all-important family member; the television set.

A second group, now middle-aged, grew up in the 1950s and 1960s, when massive American bases were a fixture of the landscape. **Sex, Love and Money in Cambodia** Heidi Hoefinger 2013-07-04 Dealing with the complex and discomfiting 'grey' area where sex, love and money collide, this book highlights the general materiality of everyday sex that takes place in all relationships. In doing so, it draws attention to and destigmatizes the transactional elements within many 'normative' partnerships - be they transnational, inter-ethnic or otherwise. Focusing on Cambodia, and on a subculture of young women employed in the tourist bar scene referred to as 'professional girlfriends', the book shows that the resulting transnational relationships between Cambodian women and their foreign partners are complex and multi-layered. It argues that the sex-for-cash prostitution framework is no longer an appropriate model of analysis. Instead, a new vocabulary of 'professional girlfriends' and 'transactional sex' is used, with which the nuanced complexities of these transnational partnerships are analysed. Interdisciplinary in nature, the book inspires new understandings of gender, power, sex, love, desire, political economy and materiality within everyday relationships around the globe. It is a useful contribution for students and scholars of Anthropology, Sociology, Southeast Asian Studies, Gender and Sexuality Studies, and Cultural Studies.

bodies and minds have been embraced by new kinds of hairdressers and their clientele and embodied in styles that reflect shifting ideals of what it is to be and to look modern. The emergence of the ladies hairdressing salon, the rise of the celebrity stylist, the impact of Hollywood, an expanding mass media, and a new synergy between fashions in clothing and hairstyles have rippled out globally. Fashions in hair styles and their representation have taken on new meanings as a way of resisting dominant social structures, experimenting with social taboos, and expressing a modern sense of self. From the 1920s bob to the punk cut, hair has continued to be deeply involved in society's larger issues. Drawing on a wealth of visual, textual and object sources, and illustrated with 75 images, *A Cultural History of Hair in the Modern Age* presents essays that explore how politics, science, religion, fashion, beauty, the visual arts, and popular culture have reshaped modern hair and its significance as an agent of social change.

New Feminism in China Jiaran Zheng 2016-03-25 This book is based on rich empirical data and findings concerning the lives, perceptions and ambitions of young middle-class female graduates, thus providing essential insights into the lives and viewpoints of a previously unresearched group in China from a feminist scholarly perspective. The study shows how the lives of young women and debates over youthful femininity lie at the very heart of modern Chinese history and society. With a central focus on women's issues, the book's ultimate goal is to enable Western readers to better understand the changing ideologies and the overall social domain of China under the leadership of President Xi. The empirical data presented includes interviews and group discussions, as well as illustrations, tables and images collected during a prolonged period of fieldwork. The insights shared here will facilitate cross-cultural communication with both Western feminist academics and readers who are sensitive to different cultures.

New Perspectives on the History of Facial Hair Jennifer Evans 2018-03-02 This volume brings together a range of scholars from diverse disciplinary backgrounds to re-examine the histories of facial hair and its place in discussions of gender, the military, travel and art, amongst others. Chapters in the first section of the collection explore the intricate history of beard wearing and shaving, including facial hair fashions in long historical perspective, and the depiction of beards in portraiture. Section Two explores the shifting meanings of the moustache, both as a manly symbol in the nineteenth century, and also as the focus of the material culture of personal grooming. The final section of the collection charts the often-complex relationship between men, women and facial hair. It explores how women used facial hair to appropriate masculine identity, and how women's own hair was read as a sign of excessive and illicit sexuality.

**Dressing for the Culture Wars** Betty Luther Hillman 2015-10-01 Style of dress has always been a way for Americans to signify their politics, but perhaps never so overtly as in the 1960s and 1970s. Whether participating in presidential campaigns or Vietnam protests, hair and dress provided a powerful cultural tool for social activists to display their politics to the world and became both the cause and a symbol of the rift in American culture. Some Americans saw stylistic freedom as part of their larger political protests, integral to the ideals of self-expression, sexual freedom, and equal rights for women and minorities. Others saw changes in style as the erosion of tradition and a threat to the established social and gender norms at the heart of family and nation. Through the lens of fashion and style, *Dressing for the Culture Wars* guides us through the competing political and social movements of the 1960s and 1970s. Although long hair on men, pants and miniskirts on women, and other hippie styles of self-fashioning could indeed be controversial, Betty Luther Hillman illustrates how self-presentation influenced the culture and politics of the era and carried connotations similarly linked to the broader political challenges of the time. Luther Hillman's new line of inquiry demonstrates how fashion was both a reaction to and was influenced by the political climate and its implications for changing norms of gender, race, and sexuality.

One Parent's Story, Struggle "Teenagers" What Was I Thinking! Leon Segers Jr. 2012-10 Although the title of this book indicates "One parent's story, struggle" it's actually about the battle between all parents and teens; or simply adults and teens in general. I say battle, but it has actually risen to the potential for what I call generational warfare. Basically, teenagers have little respect for adults; especially parents. The protocol is simple; and yes most adults do recall progressing strategically in the same way during their own youth. Even before we're born; we make demands. Then after we've

grown a few years; we make many more demands. By the age of ten to thirteen, we more than expect those demands to unquestionably be met. Finally by the last 3 to 5 years of youth while living at home with our parents; we've assessed who our biggest enemy is and how we would like to take down who we now see as both an enemy, and a "dictator". Simply put: after you've bitten the hand that feeds you for so long; that hand begins to appear useless. And once that represents uselessness; the person behind that outreaching hand, also serves no purpose to you. So the stage is set. Teenagers won't look back with any sense of appreciation; and parents, who also continued to grow; will look back and wonder: was it all worth it. Many are optimistic, while others are in denial. But most can only feel one thing "What was I thinking."

Haunted by the murder of his fiancée, Chance McQueen—once a musician on the cusp of success but now a restaurateur—knows alcohol and toxic relationships are choices slowly killing his soul. Trying to balance the scales between guilt and redemption, Chance takes under his wing a fatherless teen and mentors him through the dramatic ups and downs of first love and the stutter steps of budding adulthood. But Chance is the last living relative of Don Carmelo, a Milwaukee crime lord, and when Chance's uncle taps him to become the next head of the family, his life spins out of control like an empty scotch bottle kicked down an alleyway. Not sure he can rescue himself; Chance focuses on rescuing Winnie. Awkward, sweet, and soulful, 19-year-old Winnie is suspended in the inertia of waiting for life to begin and not being sure where to start. Navigating first love, parental loss, and trying to find purpose, Winnie knows he must grow up—while Chance is figuring out he's not quite the man he knows he needs to be.
