History of American Dress from the 15th and 16th Century Through 1965 - Frances S. Howell
2010-02-08

This book crosses the bounds between textbook, and very beautiful general interest history. With over fifty wonderful illustrations, this book is a great companion for anyone interested in clothing worn during certain periods of American history, clothing design, costuming, stagecraft, or any of the dramatic arts and industrial designs. While it's primary emphasis is on American clothing from the very beginnings of the country, and the social, economic, technological, necessary changes in clothing design, it also makes a great general reference for anyone interested in American clothing, and, makes a great looking decorative piece. The book gives the reader the opportunity to survey the history of American dress in brief form. It's main concern, is to help people everywhere to understand clothing design in relationship to the social forces which constantly mold American life and culture. Factors ranging from geography to purpose, to technology, on to world events and needs govern the type of clothing we need to wear at any given time. In our rapidly changing world it is imperative that our people have a sound understanding of American history. Educators for some time have recognized the need for broadening the students' learning in this field of knowledge. Today, schools stress the importance of the American heritage. Such an approach opens

the door for discovery and exploration into many facets of life. It makes possible an appreciation for the social and economic forces behind historic facts. Too often political and military events are over-emphasized while students fail to grasp the significance of social and economic events. This book will have served its purpose if the reader can come to recognize the development of American dress as an important part of the American heritage and can in some small degree appreciate its inter-relatedness with many social and economic forces which contribute to its fulfillment. (Frances Howell, 1965)

Women's Costume of the Near and Middle East - Jennifer M. Scarce 2003

A lucid account of the development of women's dress from the fourteenth to the early twentieth century. This is set in the broader context of social and economic background of the Ottoman Empire, giving the subject a new and fascinating slant.

What to Wear? - Elizabeth Stuart Phelps 1873

Six essays exploring social, moral, economic, and gender issues surrounding women's clothing.

Why Women Wear What They Wear - Sophie Woodward 2007-11-01

Presents an intimate ethnography of clothing choice. This book uses real women's lives and clothing decisions-observed and discussed at the moment of getting dressed - to illustrate theories of clothing, the

body, and identity. It provides students of anthropology and fashion with a fresh perspective on the social issues and constraints.

Women & Fashion - Caroline Evans 1989

There are many new looks in fashion; here, at last, is a new look at fashion which focuses on the perplexing relationship between women, fashion and femininity: It brings together fashion and semiotics, psychoanalysis and style, interweaving the vocabulary of fashion literature with that of cultural studies and feminist theory. Helmut Newton's flashing model is contrasted with Deborah Tuberville's models of passive resistance, Jean Paul Gaultier's Dervish Bra with Elsa Schiaparelli's Shoe Hat, the cultural terrorism of punk in the 1970s with the postmodern bedlam of fashion in the 1980s. Analysing fashion at a level of representation, concerned more with images and ideas than with cut and fit, the authors make a series of sorties into fashion photography, design and cultural history, with centre around women, their bodies, and the pleasures and pains of fashion. An examination of attitudes to fashion in the early Women's Liberation Movement is followed by an analysis of how femininity has been appropriated and re-appropriated by women in the urban styles and subcultures of the 1970s and 1980s.

Dress, Distress and Desire - J. Batchelor 2005-05-11

Dress, Distress and Desire explores representations of sartorial experience in eighteenth-century literature. Batchelor's study brings together for the first time canonical and non-canonical texts including novels, conduct books and women's magazines to investigate the pressures that the growth of the fashion market placed on conceptions of female virtue and propriety. It shows how dress dispelled the sentimental myth that the body acted as a moral index and enabled the women reader to resist some of sentimental literature's more prescriptive advice.

Why French Women Wear Vintage - Aloïs Guinut 2020-08-06

"The sustainable fashion revolution has begun, and we must all be part of it." - Aloïs Guinut Stylish women everywhere are realizing the environmental damage of fast fashion and looking for new ways to dress that don't involve cramming their wardrobe with clothes that may never get worn. As Paris-based style-coach Aloïs Guinut explores in this invaluable book, French women have a lot to teach us about how to cherish the planet without sacrificing your style: - Know what works for you. - Buy less and buy better. - Mix vintage items with a few wisely chosen modern pieces. - Optimize your closet. - Look after what you have and make it last. - Seek out quality fabrics that don't poison the environment.

"We Wore what We'd Got" - Maggie Wood 1989

Husband Wearing Wife's Clothes Stories - Candy Kross 2014-06-14

"Tonight, I am going to dress you up as a woman and you are going to be exactly that, a woman." She said. "But, what if I resist and don't want to?" He said defiantly. "Well, then I will just have to post the video of you wearing women's clothes that I caught on my cell phone last week." She then held up her cell phone and showed him the video. "This will go out on the internet, to friends, co-workers and family members, then I will file for divorce and take full custody of our son, if you do not do what I say tonight." She said in a commanding and dominant voice. Andrew knew he had no choice. He had to listen to his wife. He didn't want to lose her, his son or his marriage or to have anyone know about his cross dressing secret. "Now, I am going to dress you up to look like the woman you really are." She said. Amy pulled out the short black micro mini dress that she had bought that week. She had also bought a black lace bra with matching panties, black thigh high fishnet stockings, black high heels and a blonde wig for Andrew to wear.

Costume in Detail - 1983

Detailed line drawings and photographs provide a comprehensive guide to the construction of women's garments

Women in Clothes - Sheila Heti 2014-09-04

THE NEW YORK TIMES BESTSELLER Women in Clothes is a book unlike any other. It is essentially a conversation among hundreds of women of all nationalities—famous, anonymous, religious, secular, married, single, young, old—on the subject of clothing, and how the garments we put on every day define and shape our lives. It began with a survey. The editors composed a list of more than fifty questions designed to prompt women to think more deeply about their personal style. Writers, activists, and artists

including Cindy Sherman, Kim Gordon, Kalpona Akter, Sarah Nicole Prickett, Tavi Gevinson, Miranda July, Roxane Gay, Lena Dunham, and Molly Ringwald answered these questions with photographs, interviews, personal testimonies, and illustrations. Even our most basic clothing choices can give us confidence, show the connection between our appearance and our habits of mind, express our values and our politics, bond us with our friends, or function as armor or disguise. They are the tools we use to reinvent ourselves and to transform how others see us. Women in Clothes embraces the complexity of women's style decisions, revealing the sometimes funny, sometimes strange, always thoughtful impulses that influence our daily ritual of getting dressed.

Women in Wartime - Geraldine Howell 2020-10-08

"Picture Post magazine was made famous by the range and quality of its photojournalism which vividly captured a panorama of wartime events and their effects on ordinary lives. Drawing on an absorbing range of photo-stories Women in wartime is the first book to use this fascinating primary source as a cultural record of the dress history of the period and the way it reflects the impact of war on women's lives. Across classes and communities, changing times and roles, this book takes a wide-angled view of fashion, the fashionable and perceptions of femininity and explores the critical connections between clothing, social culture and the contexts of war. Here are the living histories of real women revealed in all their diversity and detail through the material culture of dress."--Back cover.

A History of Women in Men's Clothes - Norena Shopland 2021-08-30

Traditionally, historic women have been seen as bound by social conventions, unable to travel unless accompanied and limited in their ability to do what they want when they want. But thousands of women broke those rules, put on banned clothing and travelled, worked and even lived whole lives as men. As access to novels and newspapers increased in the nineteenth century so did the number of women defying Biblical and social restrictions. They copied each other's motives and excuses and moved into the world of men. Most were working-class women who either needed to or wanted to, break away from constricted lives; women who wanted to watch a hanging or visit a museum, to see family or escape domestic abuse, some wanted to earn a decent living when women's wages could not keep a family. The reasons were myriad. Some were quickly arrested and put on display in court, hoping to deter other women from such shameful behaviour, but many more got away with it. For the first time, A History of Women in Men's Clothes looks at those thousands of individuals who broke conventions in the only way they could, by disguising themselves either for a brief moment or a whole life. Daring and bold, this is the story of the women who defied social convention to live their lives as they chose, from simply wanting more independence to move and live freely, to transgender and homosexual women cross-dressing to express themselves, this is women's fight to wear trousers.

Historical Pattern Archive - Thomas John Bernard 2019-11-28

Historical Pattern Archive: Women's Clothing 1837-1969 is the first book of its kind to capture such a wide range of women's period patterns in one book, featuring 83 patterns spanning over a century of clothing. The book offers an accurate pattern of each garment on a 1/8" graph that can be used to scale the pattern up to its original size, drawings of each piece from multiple angles, and instructions about how the original garment was constructed and what materials were used. Capturing research and information about garments that would have otherwise stayed hidden or disappeared permanently due to age, wear, or poor storage conditions, this volume is designed to be a tool to preserve history through documenting vintage clothing. Written for historians, reenactors, costumer makers, and costume designers, Historical Pattern Archive will enable readers to study the history behind each piece, implement their original techniques, and recreate unique garments that are both beautiful and historically accurate.

English Women's Clothing in the Nineteenth Century - Cecil Willett Cunnington 1958

Women's Lives and Clothes in WW2 - Lucy Adlington 2019-10-30

An illustrated history of World War II-era women's fashions, featuring ladies from all nations involved in conflict. What would you wear to war? How would you dress for a winter mission in the open cockpit of a Russian bomber plane? At a fashion show in Occupied Paris? Singing in Harlem, or on fire watch in Tokyo? Women's Lives and Clothes in WW2 is a unique, illustrated insight into the experiences of women

worldwide during World War II and its aftermath. The history of ten tumultuous years is reflected in clothes, fashion, accessories, and uniforms. As housewives, fighters, fashion designers, or spies, women dressed the part when they took up their wartime roles. Attractive to a general reader as well as a specialist, *Women's Lives and Clothes in WW2* focuses on the experiences of British women, then expands to encompass every continent affected by war. Woven through all cultures and countries are common threads of service, survival, resistance, and emotion. Historian Lucy Adlington draws on interviews with wartime women, as well as her own archives and costume collection. Well-known names and famous exploits are featured—alongside many never-before-told stories of quiet heroism. You'll indulge in luxury fashion, bridal ensembles, and enticing lingerie, as well as thrifty make-do-and-mend. You'll learn which essential garments to wear when enduring a bomb raid and how a few scraps of clothing will keep you feeling human in a concentration camp. *Women's Lives and Clothes in WW2* is richly illustrated throughout, with many previously unpublished photographs, 1940s costumes, and fabulous fashion images. History has never been better dressed.

I Came Home Early and Caught My Husband Wearing My Clothes - Bobbie Grove 2015

I am a male who identifies as a female. I always wear women's clothes and live a woman's lifestyle. But, I do

not try to impersonate a woman. This is a short introductory eBook on how to understand your transgender partner, family members and friends.

What to Wear - Elizabeth Stuart Phelps 2023-10-02

Reprint of the original, first published in 1873. The publishing house Anatiposi publishes historical books as reprints. Due to their age, these books may have missing pages or inferior quality. Our aim is to preserve these books and make them available to the public so that they do not get lost.

Women's Dress in the Ancient Greek World - Lloyd Llewellyn-Jones 2001-12-31

The clothing and ornament of Greek women signalled much about the status and the morality assigned to them. Yet this revealing aspect of women's history has been little studied. In this collection of new studies by an international team, ancient visual evidence from vase-painting and sculpture is used extensively alongside Greek literature to reconstruct how women of the Greek world were perceived, and also, in important ways, how they lived.

Women's Wear of the 1930's - Ruth S. Countryman 2001

A survey of women's patterns for the 1930's, from original garments, aimed at designers, costumers, historians and re-enactors, this book includes the patterns, sketches, notes and photographs of some original and reconstructed garments.
