Pandemic Exposures - Fassin
Didier 2021-11

An illuminating, indispensable analysis of a watershed moment and its possible aftermath. For people and governments around the world, the onset of the COVID-19 pandemic seemed to place the preservation of human life at odds with the pursuit of economic and social life. Yet this naive alternative belies the complexity of the entanglements the crisis has created and revealed not just between health and wealth but also around morality, knowledge, governance, culture, and everyday subsistence. Didier Fassin and Marion Fourcade have assembled an eminent team of scholars from across the social sciences to reflect on the myriad ways SARS-CoV-2 has entered, reshaped, or exacerbated existing trends and structures in every part of the globe. The contributors show how the disruptions caused by the pandemic have both hastened the rise of new social divisions and hardened

old inequalities and dilemmas. An indispensable volume, *Pandemic Exposures* provides an illuminating analysis of this watershed moment and its possible aftermath.

The Future of Finance -

Henri Arslanian 2019-07-15

This book, written jointly by an engineer and artificial intelligence expert along with a lawyer and banker, is a glimpse on what the future of the financial services will look like and the impact it will have on society. The first half of the book provides a detailed yet easy to understand educational and technical overview of FinTech, artificial intelligence and cryptocurrencies including the existing industry pain points and the new technological enablers. The second half provides a practical, concise and engaging overview of their latest trends and their impact on the future of the financial services industry including numerous use cases and practical examples. The book is a must read for any professional currently working in finance,

any student studying the topic or anyone curious on how the future of finance will look like.

You Had Me at Pet-Nat -

Rachel Signer 2021

"It was Rachel's dream to be that girl: the one smoking hand-rolled cigarettes out the French windows of her 19th-century Parisian studio apartment, wearing second-hand Isabel Marant jeans and sipping a glass of Beaujolais redolent of crushed roses with a touch of horse mane. Instead she was an under-appreciated freelance journalist and waitress in Brooklyn, frustrated at always being broke and completely miserable in love.

When she tastes her first pétillant-naturel (pét nat), a type of natural wine made with no additives or chemicals, it set her on a journey of self-discovery, both deeply personal and professional, that led her to Paris and eventually deep into the wilds of south

Australia, where she fell in love with someone completely different from what she thought she wanted-"Wildman." She is forced to ask herself the

hard question: can she really handle the unconventional life she claims she truly wants?

The discovery of natural wine became an introduction to a larger ethos and philosophy that Rachel had long craved: one rooted in egalitarianism, diversity, organics, environmental concerns, and ancient traditions. In *You Had Me at Pét Nat*, as Rachel begins to truly understand these revolutionary wine producers upending the industry, their deep commitment to making their wine with integrity and with as little intervention as possible, she is smacked with the realization that unless she faces, head-on, her own issues with commitment, she will not be able to live a life that is as freewheeling, unpredictable, and singular as the wine she loves"--

My Oxford Year - Julia Whelan
2018-12-01

She could never have guessed what the year would hold...

[Bioanalytical Tools in Water Quality Assessment](#) - Beate

Escher 2011-12-15

Part of Water Quality Set - Buy all four books and save over 30% on buying separately! Bioanalytical Tools in Water Quality Assessment reviews the application of bioanalytical tools to the assessment of water quality including surveillance monitoring. The types of water included range from wastewater to drinking water, including recycled water, as well as treatment processes and advanced water treatment. Bioanalytical Tools in Water Quality Assessment not only demonstrates applications but also fills in the background knowledge in toxicology/ecotoxicology needed to appreciate these applications. Each chapter summarises fundamental material in a targeted way so that information can be applied to better understand the use of bioanalytical tools in water quality assessment. Bioanalytical tools in Water Quality Assessment can be used by lecturers teaching academic and professional courses and also by risk assessors, regulators, experts,

consultants, researchers and managers working in the water sector. It can also be a reference manual for environmental engineers, analytical chemists, and toxicologists. Authors: Beate Escher, National Research Centre for Environmental Toxicology (EnTox), The University of Queensland, Australia, Frederic Leusch, Smart Water Research Facility (G51), Griffith University Gold Coast Campus, Australia. With contributions by Heather Chapman and Anita Poulsen

Gone, Baby, Gone - Dennis Lehane 2010-10-21
Boston private investigators Patrick Kenzie and Angela Gennaro are hired to find four-year-old Amanda McCready. Despite extensive news coverage and dogged investigation into her abduction, the police have uncovered nothing. The case is rife with oddities: Amanda's indifferent mother, a couple with a history of paedophilia and a shadowy police unit. As the Indian summer fades, Amanda McCready stays gone -

vanished so completely that she seems never to have existed. When a second child disappears, Kenzie and Gennaro face a local media more interested in sensationalizing the abductions than helping to solve them, a local police force seething with lethal secrets, and a faceless power determined to obstruct their efforts. Caught in a deadly tangle of lies, and determined to unravel the riddle that is anything but child's play, they soon discover that those who go looking for the missing may not come back alive.

Bringing Them Home - Australia. Human Rights and Equal Opportunity Commission 2007

This DVD was produced in 1997 and forms part of the 'Bringing them home' education resource for use in Australian classrooms. This resource is based on 'Bringing them home', the report of the 'National Inquiry into the Separation of Aboriginal and Torres Strait Islander children from Their Families', and on

the history of forcible separation and other policies which have impacted on the lives of Indigenous Australians. *There You'll Find Me* - Jenny B. Jones 2011-10-03

Grief brought high school senior Finley Sinclair to Ireland. Love will lead her home. Eighteen-year-old Finley Sinclair is witty, tough, talented, and driven. With an upcoming interview at the Manhattan music conservatory, she just needs to finish composing her audition piece. But her creativity disappeared with the death of her older brother, Will. She decides to take a break and study abroad, following Will's travel journal to Ireland. Her brother felt closest to God there, and she hopes to find peace about his death. Meanwhile, Beckett Rush—teen heartthrob and Hollywood bad boy—is flying to Ireland to finish filming his latest vampire movie. On the flight, he bumps into Finley—the one girl who seems immune to his charm. Undeterred, Beckett convinces Finley to strike an

unconventional bargain. As Finley deals with the loss of her brother, the pressures of school, and her impending audition, she wonders if an unlikely romance is blossoming between her and Beckett. Then she experiences something that radically changes her perspective on life. Has everything she's been looking for been with her all along? Don't miss Finding You—the movie based on There You'll Find Me—released in 2021 Contemporary Young Adult romance Stand-alone novel Book length: 78,000 words Includes discussion questions for book clubs

Character Mentor - Tom Bancroft 2012-11-12

You've researched your character extensively, tailored her to your audience, sketched hundreds of versions, and now you lean back content as you gaze at your final character model sheet. But now what? Whether you want to use her in an animated film, television show, video game, web comic, or children's book, you're going to have to make her perform.

How a character looks and is costumed starts to tell her story, but her body language reveals even more. Character Mentor shows you how to pose your character, create emotion through facial expressions, and stage your character to create drama. Author Tom Bancroft addresses each topic with clear, concise prose, and then shows you what he really means through commenting on and redrawing artwork from a variety of student "apprentices." His assignments allow you to join in and bring your drawing to the next level with concrete techniques, as well as more theoretical analysis. Character Mentor is an apprenticeship in a book. Professional artists from a variety of media offer their experience through additional commentary. These include Marcus Hamilton (Dennis the Menace), Terry Dodson (X-Men), Bobby Rubio (Pixar), Sean "Cheeks" Galloway (Spiderman animated), and more. With a foreword by comicbook artist Adam Hughes, who has produced

work for DC, Marvel Comics, Lucasfilm, Warner Bros. Pictures, and other companies.

David and Goliath - Malcolm Gladwell 2013-10-03

Why do underdogs succeed so much more than we expect? How do the weak outsmart the strong? In *David and Goliath* Malcolm Gladwell, no.1 bestselling author of *The Tipping Point*, *Blink*, *Outliers* and *What the Dog Saw*, takes us on a scintillating and surprising journey through the hidden dynamics that shape the balance of power between the small and the mighty. From the conflicts in Northern Ireland, through the tactics of civil rights leaders and the problem of privilege, Gladwell demonstrates how we misunderstand the true meaning of advantage and disadvantage. When does a traumatic childhood work in someone's favour? How can a disability leave someone better off? And do you really want your child to go to the best school he or she can get into? *David and Goliath* draws on the stories of remarkable

underdogs, history, science, psychology and on Malcolm Gladwell's unparalleled ability to make the connections others miss. It's a brilliant, illuminating book that overturns conventional thinking about power and advantage. 'A global phenomenon... there is, it seems, no subject over which he cannot scatter some magic dust' Observer

Was It Worth It? - Doug Peacock 2022-01-11

"If wilderness is outlawed, only outlaws can save wilderness." Edward Abbey In a collection of gripping stories of adventure, Doug Peacock, loner, iconoclast, environmentalist, and contemporary of Edward Abbey, reflects on a life lived in the wild, asking the question many ask in their twilight years: "Was It Worth It?" Recounting sojourns with Abbey, but also Peter Matthiessen, Doug Tompkins, Jim Harrison, Yvon Chouinard and others, Peacock observes that what he calls "solitary walks" were the greatest

currency he and his buddies ever shared. He asserts that "solitude is the deepest well I have encountered in this life," and the introspection it affords has made him who he is: a lifelong protector of the wilderness and its many awe-inspiring inhabitants. With adventures both close to home (grizzlies in Yellowstone and jaguars in the high Sonoran Desert) and farther afield (tigers in Siberia, jaguars again in Belize, spirit bears in the wilds of British Columbia, all the amazing birds of the Galapagos), Peacock acknowledges that Covid 19 has put "everyone's mortality in the lens now and it's not necessarily a telephoto shot." Peacock recounts these adventures to try to understand and explain his perspective on Nature: That wilderness is the only thing left worth saving. In the tradition of Peacock's many best-selling books, *Was It Worth It?* is both entertaining and thought provoking. It challenges any reader to make certain that the answer to the question for their own life is

"Yes!"

From Past to Present -

Michael J. Goc 1999

Sports Market Place - 1992

The premier reference book for everything and everybody related to the sports industry.

Transfigurations - Asbjørn

Grønstad 2008

In many senses, viewers have cut their teeth on the violence in American cinema: from Anthony Perkins slashing Janet Leigh in the most infamous of shower scenes; to the 1970s masterpieces of Martin Scorsese, Sam Peckinpah and Francis Ford Coppola; to our present-day undertakings in imagining global annihilations through terrorism, war, and alien grudges. *Transfigurations* brings our cultural obsession with film violence into a renewed dialogue with contemporary theory. Grønstad argues that the use of violence in Hollywood films should be understood semiotically rather than viewed realistically; *Tranfigurations* thus alters both our methodology of reading violence in films and

the meanings we assign to them, depicting violence not as a self-contained incident, but as a convoluted network of our own cultural ideologies and beliefs.

The Case for Marriage -

Linda Waite 2002-03-05

A groundbreaking look at marriage, one of the most basic and universal of all human institutions, which reveals the emotional, physical, economic, and sexual benefits that marriage brings to individuals and society as a whole. The Case for Marriage is a critically important intervention in the national debate about the future of family. Based on the authoritative research of family sociologist Linda J. Waite, journalist Maggie Gallagher, and a number of other scholars, this book's findings dramatically contradict the anti-marriage myths that have become the common sense of most Americans. Today a broad consensus holds that marriage is a bad deal for women, that divorce is better for children when parents are unhappy, and that marriage is essentially a

private choice, not a public institution. Waite and Gallagher flatly contradict these assumptions, arguing instead that by a broad range of indices, marriage is actually better for you than being single or divorced— physically, materially, and spiritually. They contend that married people live longer, have better health, earn more money, accumulate more wealth, feel more fulfillment in their lives, enjoy more satisfying sexual relationships, and have happier and more successful children than those who remain single, cohabit, or get divorced. The Case for Marriage combines clearheaded analysis, penetrating cultural criticism, and practical advice for strengthening the institution of marriage, and provides clear, essential guidelines for reestablishing marriage as the foundation for a healthy and happy society. “A compelling defense of a sacred union. The Case for Marriage is well written and well argued, empirically rigorous and learned, practical and

commonsensical.” -- William J. Bennett, author of *The Book of Virtues* “Makes the absolutely critical point that marriage has been misrepresented and misunderstood.” -- *The Wall Street Journal*

www.broadwaybooks.com

Cowboy Dressage - Jessica Black 2017-12-01

The equestrian pursuit known as Cowboy Dressage melds the best of Western riding traditions and classical dressage in the pursuit of a harmonious relationship with a horse. Intended to be accessible to all, Cowboy Dressage is open to all breeds and all levels of riders; there isn't a set frame for overall look, head carriage, or action. Lifelong horsewoman Jessica Black traces the evolution of Cowboy Dressage back to its roots, sharing the story of Eitan and Debbie Beth-Halachmy and their phenomenal Morgan horses that have served as the movement's ambassadors. Black then expertly weaves Eitan Beth-Halachmy's experience and expertise into

an engaging and articulate explanation of the philosophy of Cowboy Dressage; defines the expectations of the rider; describes what a participant needs in terms of equipment; and explores how the most important element—the horse—should be prepared. A wonderful and thorough section on groundwork, as well as specific training advice for achieving engagement, regulating the gaits, smoothing transitions, and balancing bend and straightness, get the reader started with a solid foundation. Specific descriptions of the Cowboy Dressage tests are provided, with additional tools for those interested in competition, including rules, divisions, and how to execute and judge tests.

The African Film Industry - UNESCO 2021-10-01

The production and distribution of film and audiovisual works is one of the most dynamic growth sectors in the world. Thanks to digital technologies, production has been growing rapidly in Africa in recent years. For the first

Downloaded from
legacy.opendemocracy.net
on 2022-03-07 by guest

time, a complete mapping of the film and audiovisual industry in 54 States of the African continent is available, including quantitative and qualitative data and an analysis of their strengths and weaknesses at the continental and regional levels. The report proposes strategic recommendations for the development of the film and audiovisual sectors in Africa and invites policymakers, professional organizations, firms, filmmakers and artists to implement them in a concerted manner.

Preaching about Racism -

Carolyn B. Helsel 2018-12-04
Equipping pastors to address racism faithfully from the pulpit. Of all the activities that come with being a minister, sermon preparation can loom largest - especially when racism is the subject. You've got to address racism with your white congregation from the pulpit. But, truthfully, you can't wrap your head around how to preach about this topic thoughtfully and sensitively. In *Preaching about Racism*,

preaching professor and pastor Carolyn Helsel speaks directly to other faith leaders about how to address racism from the pulpit. In her first book, *Anxious to Talk about It: Helping White Christians Talk Faithfully about Racism*, Helsel addressed the anxiety white Christians experience around conversations about race. In this follow-up, Helsel provides strategies and a theoretical framework for crafting biblical and theological sermons that incorporate insights from social sciences and psychology, gleaned from more than a decade of writing and teaching about racism. Written for the busy pastor, several chapters are quick reads - helpful reminders as you prepare a thoughtful and sensitive sermon - while others dig deeper on the theory behind the crucial work of dismantling racism.

Made to Matter - Fiona Probyn-Rapsey 2013

Most members of the Stolen Generations had white fathers or grandfathers. Who were these white men? This book

analyses the stories of white fathers, men who were positioned as key players in the plans to assimilate Aboriginal people by 'breeding out the colour'. The plan to 'breed out the colour' ascribed enormous power to white sperm and white paternity; to 'elevate', 'uplift' and disperse Aboriginality in whiteness, to blank out, to aid cultural forgetting. The policy was a cruel failure, not least because it conflated skin colour with culture and assumed that Aboriginal women and their children would acquiesce to produce 'future whites'. It also assumed that white men would comply as ready appendages, administering 'whiteness'

through marriage or white sperm. This book attempts to put textual flesh on the bodies of these white fathers, and in doing so, builds on and complicates the view of white fathers in this history, and the histories of whiteness to which they are biopolitically related.

Marilyn - Lois Banner
2012-08-02

As one of the founders of the field of women's history, Lois Banner reveals Marilyn Monroe in the way that only a top-notch historian and biographer could. Banner appreciates the complexities of Monroe's personal life in the context of her achievements as an actor, singer, dancer, comedian, model and courtesan.
