

Sex Museum In California

[Beyond the Blue Horizon](#) - Brian Fagan 2012-08-02

We know the tales of Columbus and Captain Cook, yet much earlier mariners made equally bold and world-changing voyages. In *Beyond the Blue Horizon*, archaeologist and historian Brian Fagan tackles his richest topic yet: the enduring quest to master the oceans, the planet's most mysterious terrain. From the moment when ancient Polynesians first dared to sail beyond the horizon, Fagan vividly explains how our mastery of the oceans changed the course of human history. What drove humans to risk their lives on open water? How did early sailors unlock the secrets of winds, tides, and the stars they steered by? What were the earliest ocean crossings like? With compelling detail, Fagan reveals how seafaring evolved so that the forbidding realms of the sea gods were transformed from barriers into a nexus of commerce and cultural exchange. From bamboo rafts in the Java Sea to triremes in the Aegean, from Norse longboats in the North Atlantic to sealskin kayaks in Alaska, Fagan crafts a captivating narrative of humanity's urge to challenge the unknown and seek out distant shores.

Sexual Segregation in Vertebrates - Kathreen Ruckstuhl 2006-01-05

Males and females often differ in developmental patterns, adult morphology, ecology and behaviour, and in many mammals males are often larger. Size dimorphism results in divergent nutritional and energetic requirements or reproductive strategies by the sexes, which in turn sometimes causes them to select different forage, use different habitats, and express differing social affinities. Such divergent life-styles often lead males and females to live large parts of their lives separately. Sexual segregation is widespread in animals. Males and females may share the same habitat, but at different times, for example, or they might use different habitats entirely. Why did sexual segregation evolve and what factors contribute to it? *Sexual Segregation in Vertebrates* explores these questions by looking at a wide range of vertebrates and is aimed as a synthesis of our current understanding and a guide for future research.

Sex Museums - Jennifer Tyburczy 2016-01-11

Museums have lengthy history, going back to the Renaissance Cabinets of Curiosity, and they are indices of changing fashions of perception insofar as the categories museum curators use to classify objects change over time. The major focus of Tyburczy's study is sexuality on display, which sets up, in turn, her investigation of the effects of museum display on the history of sexuality. Historical context for the museum is one of her themes (and how categories of normacy and perversity change over time), with another theme being the work of sex museums in redefining what sex means in the modern public sphere; she also folds in consideration of the pleasures and dangers of exhibiting marginalized sexual subjects (women, nonwhite races, LGBT individuals, and the like); last, she explores the paradox of asserting (as she does) that all museums are sex museums bodies move around and toward objects on display, they reshape the typical dances of museum-goers along with their preconscious motivations in visiting a museum. She proposes that explicit display or restagings of sexual artifacts provides new ways for approaching and understanding issues of desire, sexual identity, and sexual practices as they intersect with the history of the modern museum and with sexual history during the past two centuries. Her fieldwork sites are: the Leather Archives & Museum in Chicago, the Museum of Sex in New York, the World Erotic Art Museum in Miami Beach, and El Museo del Sexo in Mexico City. Such institutions allow Tyburczy to show how alternative sexuality (inclusive of kink, fetish, and sadomasochistic cultures) and slavery dangerously crisscross on the surface of objects. There are plenty of cases here, in short, to keep the casual reader titillated and the erudite reader surprised."

Sex in Cetaceans - Bernd Würsig 2023-09-25

Sex in Cetaceans provides an up-to-date review of multi-faceted aspects related to mating and reproduction in toothed and baleen whales. This open access book begins with discussions of sexual selection and anatomical traits related to mating and diversity between the sexes. The functions of non-conceptive copulations are reviewed as are different research techniques applied to explore sex in cetaceans. Authors and editors build knowledge of female and male social, mating, and parental strategies and tactics for several specific toothed dolphin/porpoise/whale species and baleen whale species. It concludes with a discussion of potential conservation efforts and ways to help especially beleaguered

species and populations the world over. The volume is intended as a major primer of cetacean sex for undergraduate and graduate students, new and established researchers in the field, and the public wishing to learn more.

Rooted in Barbarous Soil - California Historical Society 2000-10-04

The third in a four-volume series commemorating California's sesquicentennial, this volume brings together the best of the new scholarship on the social and cultural history of the Gold Rush, written in an accessible style and generously illustrated with black and white and color photographs.

Sex Objects - Jennifer Doyle 2006

In readings of the "boring parts" of *Moby Dick*, the role of women in Andy Warhol's films, the scandals surrounding Thomas Eakins, and other unlikely texts, Doyle (English, U. of California, Riverside) challenges simplistic readings of sexualized art. She weaves together anecdotal and personal writing with critical, feminist, and queer theory to re-imagine the relationship between sex and art and to reveal the diversity of sex in art.

Proceedings of the California Academy of Sciences - California Academy of Sciences 1926

Vol. 25 is composed entirely of the Alice Eastwood semi-centennial publications, no. 1-18, of the California Academy of Sciences.

Radical Eroticism - Rachel Middleman 2018-01-16

In the 1960s, the fascination with erotic art generated a wave of exhibitions and critical discussion on sexual freedom, visual pleasure, and the nude in contemporary art. *Radical Eroticism* examines the importance of women's contributions in fundamentally reconfiguring representations of sexuality across several areas of advanced art—performance, pop, postminimalism, and beyond. This study shows that erotic art made by women was integral to the profound changes that took place in American art during the sixties, from the crumbling of modernist aesthetics and the expanding field of art practice to the emergence of the feminist art movement. Artists Carolee Schneemann, Martha Edelheit, Marjorie Strider, Hannah Wilke, and Anita Steckel created works that exemplify these innovative approaches to the erotic, exploring female sexual subjectivities and destabilizing assumptions about gender. Rachel Middleman reveals these artists' radical interventions in both aesthetic conventions and social norms.

California Fish and Game - 1985

The Book of Kink - Eva Christina 2011-10-04

How to get your *Fifty Shades* on... For anyone who's felt...inspired...after reading *Fifty Shades of Grey*, *The Book of Kink* both entertains and enlightens, showing you the who, what, where, why, and how of kink. People everywhere are into kinky sex. For some, it's a way to spice up a withered sex life; for others, it's a way of life. No matter how or why we do it, kinky sex is as old as Adam and Eve and as commonplace as your next-door neighbor. For example, did you know: Japan organized the largest orgy ever caught on tape, featuring 500 participants? A Berlin hotel offers different rooms dedicated to kinky sex, including one with a coffin? Those who are into having sex with an armpit have a fetish called axillism? There is a university dedicated entirely to love and sex called the Loveology University? *The Book of Kink* is an entertaining and enlightening look into all things beyond the pale when it comes to sex. Exploring everything from equipment, sex classes, sex parties, and porn to the who, what, where, when, why, and how of kink, it delves into fetishes, turn-ons, role-playing, and how the Internet has put a new spin on kinkiness. It is an X-rated romp through cultural and social history and contemporary mores. Whether you're appalled to learn that people actually do this or are relieved to find out that you're not the only one, you'll never see sex the same way again.

[Exploring Sex and Gender in Bioarchaeology](#) - Sabrina C. Agarwal 2017
Archaeologists have long used skeletal remains to identify gender. As the contributors to this volume reveal, combining skeletal data with contextual information can provide a richer understanding of life in the past.

The Jet Sex - Victoria Vantoch 2013-04-09

Victoria Vantoch takes us on a fascinating journey into the golden era of air travel. The Jet Sex explores the much-mythologized stewardess within the context of the Cold War, globalization, and the emerging culture of glamour to reveal how beauty and sexuality were critical to national identity and international politics.

Artists of Chinese Origin in North America - 1993**Eccentric California** - Jan Friedman 2005

Jan Friedman's Eccentric America proved that the most unlikely events and landmarks could become tourist attractions. This award-winning title is dedicated to the sheer lunacy of California and her citizens, covering the biggest, the best, the wackiest and weirdest of the state's people and places. From art-car and golf-cart parades to the Valentine's Day Sex Tour at the San Francisco Zoo; from a festival that moons Amtrak to a town with its own language; from obsessed collectors of Pez, yo-yos, and bananas to kitschy theme motels and a man who built a three-storey mountain out of hay, adobe, and old paint. Eccentric California takes an in-depth look at one very peculiar place.

Negotiating Sexual Idioms - Marie-Luise Kohlke 2008

Negotiating Sexual Idioms: Image, Text, Performance affords new theoretical approaches and insights into the complexity of sexual discourse pervading contemporary cultures, exploring sexuality's role in dominant conceptualisations of self and society, in patterns of political belonging and exclusion, and in societal transformations. Opening with a substantial critical introduction, this collection of twelve essays and creative pieces contributes to significant current debates regarding sexual rights and their violation, queer theory and identity politics, sexual fantasy formations and strategies of pleasure, and the celebration of sexual diversity, topics explored through a variety of disciplinary frameworks, including gender and film studies, religious philosophy, neo-Victorian and postcolonial literature, sociology, pornography, and performance art. The volume positions the subjects of sex and sexuality as crucial to our ethical understanding of the human, both in individual and communal terms, exploring how claims for sexual subjectivity and citizenship are formulated and the entitlements they entail. The analytical insights offered signal important new directions for critical engagement with the socio-political construction of sexuality and its strategic deployment within the cultural imaginary. Designed to appeal equally to scholars, students, and general readers, Negotiating Sexual Idioms will prove essential reading for those interested in multi-disciplinary approaches to reading sex and sexuality within inter-cultural contexts, from the early modern period to the present-day.

Contemporary Issues in California Archaeology - Society for American Archaeology. Meeting 2012-03-15

Recent archaeological research on California includes a greater diversity of models and approaches to the region's past, as older literature on the subject struggles to stay relevant. This comprehensive volume offers an in-depth look at the most recent theoretical and empirical developments in the field including key controversies relevant to the Golden State: coastal colonization, impacts of comets and drought cycles, systems of power, Polynesian contacts, and the role of indigenous peoples in the research process, among others. With a specific emphasis on those aspects of California's past that resonate with the state's modern cultural identity, the editors and contributors—all leading figures in California archaeology—seek a new understanding of the myth and mystique of the Golden State.

Pornography and Public Health - Emily F. Rothman 2021

"Pornography is being indicted as a public health crisis in the U.S. and elsewhere, but the professional public health community is not behind the recent push to address pornography as a public health threat. While pornography may not be contributing directly to mortality or acute morbidity for a substantial percentage of people, it may be influencing other public health problems such as sexual violence, dating abuse, compulsive behaviour, and sexually transmitted infections. However, the evidence to support pornography as a causal factor is mixed and there are numerous other factors that have more strongly established associations with these outcomes of interest. Throughout history repressive forces have inflated the charges against sexually explicit material in order to advance a morality-based agenda. Nevertheless, a public health approach and tried public health practices, such as harm reduction and coalition-building, will be instrumental to addressing the emergence mainstream, internet pornography"--

The War on Sex - Chad Denton 2014-11-05

From earliest times, sex has fascinated and repulsed society in equal measure. In an effort to untangle Western society's complex relationship with the realities of sex, this provocative volume explores the ways in which governments, religious leaders and cultures in Europe tried to regulate sex and sexuality throughout history. From the sacred texts of ancient Israel to the slums of 19th century Britain, this book explores political, legal and cultural controls on consensual sex and the individuals and movements that resisted them. Topics range from prostitution and homosexuality to marriage, contraception and abortion. While traditional narrative holds that Europe alternated between sexual freedom and oppression through the Victorian age, this work reveals that the real story of how sex was regulated--and how people defied regulation--is not so clear cut.
