Sex and Drugs Before Rock 'n' Roll - Benjamin Roberts 2012

Sex and Drugs Before the Rock 'n' Roll is a fascinating volume that presents an engaging overview of what it was like to be young and male in the Dutch Golden Age. Here, well-known cohorts of Rembrandt are examined for the ways in which they expressed themselves by defying conservative values and norms. This study reveals how these young men rebelled, breaking from previous generations: letting their hair grow long, wearing colorful clothing, drinking excessively, challenging city guards, being promiscuous, smoking, and singing lewd songs. Cogently argued, this study paints a compelling portrait of the youth culture of the Dutch Golden Age, at a time when the rising popularity of print made dissemination of new cultural ideas possible, while rising incomes and liberal attitudes created a generation of men behaving badly.

Sex, Drugs, Rock & Roll, and Musicals - Scott Miller 2011

An endlessly entertaining and informative look at how musicals have both reflected and adapted to America's changing mores

How to Write Lyrics - Rikky Rooksby 2021-09-15

Lyrics sheds light on all aspects of writing lyrics for music and will make lyricists and songwriters feel more confident and creative when they tackle lyrics. It's perfect for all songwriters: those who don't like their own lyrics and find lyrics difficult to write, experienced writers looking for a creative edge, and those offering lyrics to set to music in a partnership. The book discusses channeling personal experiences into lyrics, overcoming writer's block, the right lyrics for a bridge, the separation between lyrics and poetry, exploring imagery and metaphor, avoiding clichés, and more. It also offers tips on the various styles of lyrics, from protests, spirituals, and confessionals to narratives and comic songs. New to this edition are artist and song references throughout to reflect musical history to date. Also, a new section provides examples of taking lyric ideas right through the drafting process, illustrating development and re-drafting and using a handful of contrasting approaches.

Heavy Metal - Deena Weinstein 2009-08-05

Few forms of music elicit such strong reactions as does heavy metal. Embraced by millions of fans, it has also attracted a chorus of critics, who have denounced it as a corrupter of youth—even blamed it for tragedies like the murders at Columbine. Deena Weinstein argues that these fears stem from a deep misunderstanding of the energetic, rebellious culture of metal, which she analyzes, explains, and defends. She interprets all aspects of the metal world—the music and its makers, its fans, its dress code, its lyrics—and in the process unravels the myths, misconceptions, and truths about an irreverent subculture that has endured and evolved for twenty years.

Hallo Sausages - Jemima Dury 2012-10-30

Presents the complete lyrics of rock musician Ian Dury, along with handwritten notes, candid photographs, and an audio CD featuring previously unreleased material.

The Book of Drugs - Mike Doughty 2012-01-10

Mike Doughty first came to prominence as the leader of the band Soul Coughing then did an abrupt sonic left turn, much to the surprise of his audience, transforming into a solo performer of stark, dusky, but strangely hopeful tunes. He battled addiction, gave up fame when his old band was at the height of its popularity, drove thousands of miles, alone, across America, with just an acoustic guitar. His candid, hilarious, self-lacerating memoir, *The Book of Drugs* -- featuring cameos by Redman, Ani DiFranco, the late Jeff Buckley, and others -- is the story of his band's rise and bitter collapse, the haunted and darkly comical life of addiction, and the perhaps even weirder world of recovery.

Sex, Drugs, and Rock 'n' Roll - Robert C. Cottrell 2015-03-19

Sex, Drugs, and Rock 'n' Roll: The American Counterculture of the 1960s offers a unique examination of the cultural flowering that enveloped the United States during that early postwar decade. Robert C. Cottrell provides an enthralling view of the counterculture, beginning with an examination of American bohemia, the Lyrical Left of the pre-WWII era, and the hipsters. He delves into the Beats, before analyzing the counterculture that emerged on both the East and West coasts, but soon cropped up in the American heartland as well. Cottrell delivers something of a collective biography, through an exploration of the antics of seminal countercultural figures Allen Ginsberg, Jack Kerouac, Timothy Leary, and Ken Kesey. Cottrell also presents fascinating chapters covering "the magic elixir of sex," rock 'n' roll, the underground press, Haight-Ashbury, the literature that garnered the attention of many in the counterculture, Monterey Pop, the Summer of Love, the Death of Hippie, the March on the Pentagon, communes, Yippies, Weatherman, Woodstock, the Manson family, the women's movement, and the decade's legacies.

Sex, Drugs and Rock 'n' Roll - Memoir of a Police Doctor - Wesley Boff 2022-11-30

I can claim to have enjoyed a satisfying and fulfilling medical career. British General Practice was the jewel in the NHS crown and I was a Family Doctor during its heyday before the Government decided to take control and tell the doctors how to do their job, demoralize the profession and seriously compromise patient care, destroying the respect between patients and their doctors and turning a vocation into a chore. I was fortunate that I began my career at the right time and got out at the right time. My almost thirty years working with the local police force was hard work but once I'd seen a few corpses and gained the respect of the local constabulary I enjoyed the work immensely even if I was so often denied a good night's sleep. The case load varied from the gruesome to the amusing but looking back it was never boring. *Sex, Drugs and Rock*

'n' Roll - Memoir of a Police Doctor is an account of my experience as a Forensic Physician - a facet of the rich tapestry of medical practice that Joe Public never realized existed.

Sex, Drugs & Rock n Roll - Zoe Cormier 2014-08-07

How can wordless collections of sounds send shivers down our spines and tickle ancient parts of our brains we share with reptiles? How did a chemist's quest to create a drug to ease the pain of childbirth result in the creation of LSD? Why do goats partake in oral sex, and how can a horse (or even a table) make us weak in the knees? And how on earth could the revered 'father of anatomy' not know where the clitoris was? From tortoiseshell condoms to superstar athletes on hallucinogens, these burning questions are explored and dissected, mixed with insights from some of the world's bravest, cleverest and downright weirdest scientist experimenting on the edge - and themselves. It's a sharp shocker, an eye opener, asking the big questions about what it means to be human, about consciousness and happiness. It'll pull you in and gross out. Exuberantly curious and shamelessly exuberant, Guerilla Science's Zoe Cormier reinvents popular science for a new generation by breaking all the rules. Let's rock.

Rock and Roll - Joe Stuessy 2003

This interesting book presents a history of rock and roll from its roots through its current trends. It gives a comprehensive analytical insight into the various musical styles of rock, providing thorough historical detail and discussing the social context of each style as it developed, from the early 1950s through the 60s, 70s, 80s, and today. Giving comprehensive historical detail and social context, this book places special emphasis on rock as a musical style, dealing with each parameter of music (rhythm, harmony, melody, form, and texture) as it applies to rock music. It covers such topics as the roots of rock, rock and roll as an emerging force, the Fifties, the Sixties, the Beatles, the British Invasion, folk music and folk rock, soul and Motown, San Francisco, jazz and art rock, the Seventies, the Eighties, and recent trends and developments. For anyone interested in a comprehensive book about the history of rock and roll, including those in the music industry, such as disc jockeys, rock music writers, and promoters.

Faith, God & Rock 'n' Roll - Mark Joseph 2011-08-01

God Rocks! Or at least for an increasing fraction of the global population he does. No longer associated with evangelical 'happy clappers' sporting tambourines and sandals, these days the Christian message is being delivered by a swelling number of faithful musicians from every genre - rock, pop, R&B, dance and country. Of course, the real aim to promote God remains, but at least it's not so cringeworthy anymore.

The Rolling Stones - Helmut Staubmann 2013-06-03

The contributors approach the Rolling Stones from a range of social science perspectives including cultural studies, communication and film studies, gender studies, and the sociology of popular music.

Back In Black - Eternia Publishing 2023-05-25

Sex, Drugs and Rock N Roll - A. E. Kearney 2006-03

Hear what God says in His word as you read the startling truth in these real life stories of teenager's encounters with sex, drugs and rock n roll, knowledge is power!

Roll Over Adorno - Robert Miklitsch 2012-02-01

Moves from Beethoven to Buffy to examine the blurred nexus of elite and popular culture in the twenty-first century.

Rock 'n' Roll Wisdom - Barry A. Farber 2007-06-30

In a novel look at rock 'n' roll lyrics, psychologist Barry Farber highlights those that rise above the rest because they are not only clever, but also wise in their psychological themes and conclusions. These great lyrics embody enduring truths about topics as diverse as love, identity, money, sex, religion, aging, social justice, and the search for meaning. Join Farber in a fun and informative journey across rock 'n' roll history to see how we can learn about significant areas of life through the medium of psychologically wise rock 'n' roll lyrics. The Beatles meet Sigmund Freud. Bob Marley trades ideas with Carl Rogers, and Joni Mitchell shares thoughts with psychological great Erik Erikson. Those aren't actual face-to-face meetings, but a reflection of the fascinating interplay developed for this book by Barry Farber. In a novel look at rock 'n' roll lyrics, Columbia University professor Farber shows us those lyrics that rise above the rest because they are not only clever but also wise in their psychological themes and conclusions. These great lyrics embody enduring truths about topics as diverse as love, identity, money, sex, religion, aging, social justice, and the search for meaning. Join psychologist Farber in a fun and informative journey across rock 'n' roll history to see how we can learn about significant areas of life through the medium of psychologically wise rock 'n' roll lyrics.

Sex, Drugs Rock 'N' Roll - Taslima Press House 2019-12-02

This music journal is PERFECT for all songwriters and composers. It is conveniently sized at 6' x9' and contains high quality interior stock GREAT COVER, matte finish Dimensions: 6' x 9' 100 Staff Manuscript Paper Simple music design interior Perfect staff line space easy to write in.

Ian Dury: Sex & Drugs & Rock 'N' Roll - Richard Balls 2011-09-23

Here is the complete, no-holds-barred biography of the late, great self-made Essex lad himself! The abrasive Dury always met life head on, in his relationships and in his music, and this acclaimed biography does not shrink from chronicling some of his darker moments as well as his triumphs. Author Richard Bells talked to over 50 of Dury's friends as well as Dury himself shortly before his death. Dury's extraordinary life was always a battle. As a rocker, lyricist, artist and actor he was unsentimental and uncompromising. As a man he was harder to fathom - until now. In this classic rock biography, the self-styled 'diamond geezer' stands revealed as a real diamond after all. This edition is updated to cover the release of the biopic Sex & Drugs & Rock 'N' Roll, and includes original interviews with Oscar-winning actor Andy Serkis who portrayed Dury in the film.
