Menstruation Across Cultures - Nithin Sridhar 2021-08-26

Menstruation across Cultures attempts to provide a detailed review of menstruation notions prevalent in India and in cultures from across the world. The world cultures covered in the book include Indic traditions like Hinduism, Buddhism, Jainism and Sikhism; ancient civilisations like Greece, Rome, Mesopotamia and Egypt; and Abrahamic religions of Judaism, Christianity, and Islam. Two themes of special focus in the book are: Impurity and Sacrality. While they are often understood as being opposed to each other, the book examines how

they are treated as two sides of the same coin, when it comes to menstruation. This is especially true in Indic traditions and pre-Christian polytheistic traditions like Greco-Roman, Mesopotamian and Egyptian. Impurity and Sacrality complement each other to form a comprehensive worldview in these cultures. The book also examines how the understanding of impurity in Abrahamic religions differs from those of polytheistic cultures. As part of the examination of the sacrality attached to menstruation, a special focus has also been given to the deities of menstruation in polytheistic cultures and to what Ayurveda and Yoga say about this essential function in a woman's physiology. Finally, a comparative

study of menstrual notions prevalent in modernity is presented, along with a Do and Don't dossier.

Pedophilia and Adult-Child Sex - Stephen Kershnar 2015-05-20

This book provides a philosophical analysis of adult-child sex and pedophilia. This sex intuitively strikes many people as sick, disgusting, and wrong. The problem is that it is not clear whether these judgments are justified and whether they are aesthetic or moral. By analogy, many people find it disgusting to view images of obese people having sex, but it is hard to see what is morally undesirable about such sex: here the judgment is aesthetic. This book looks at the moral status of such adult-child sex. In particular, it explores whether those who engage in adult-child sex have a disease, act wrongly, or are vicious. In addition, it looks at how the law should respond to such sex given the above analyses.

The Young Atheist's Handbook - Alom Shaha

2012-07-19

Growing up in a strict Muslim community in south-east London, Alom Shaha learnt that religion was not to be questioned. Reciting the Qur'an without understanding what it meant was simply a part of life; so, too, was obeying the imam and enduring beatings when he failed to attend the local mosque. But Alom was more drawn to science and its power to illuminate. As a teen, he lived between two worlds: the home controlled by his authoritarian father, and a school alive with books and ideas. In a charming blend of memoir, philosophy and science, Alom explores the questions about faith and the afterlife that we all ponder. This is a book for anyone who wonders what they should believe and how they should live. It's for those who may need the facts and the ideas, as well as the courage, to break free from inherited beliefs. In this powerful narrative, Alom shows that it is possible to live a compassionate, fulfilling and meaningful life without God.

The Philosopher's Index - 2008

Vols. for 1969- include a section of abstracts.

Loyalty - Eric Felten 2011-04-26

A witty, provocative, story-filled inquiry into the indispensable virtue of loyalty—a tricky ideal that gets tangled and compromised when loyalties collide (as they inevitably do), but a virtue the author, a prizewinning columnist for *The Wall Street Journal*, says is as essential as it is impossible. Felten illustrates the push and pull of loyalties— from the ancient Greeks to Facebook—with stories and scenarios in which conflicting would-be moral trump cards trap the unlucky in painful ethical dilemmas. The foundation of our greatest satisfactions in life, loyalty also proves to be the root of much misery. Can we escape the excruciating predicaments when loyalties are at loggerheads? Can we avoid betraying and being betrayed? When looking for love and friendship—the things that make life worthwhile—we are looking for loyalty. Who can we count on? And who can

count on us? These are the essential (and uncomfortable) questions loyalty poses. Loyalty and betrayal are the stuff of the great stories that move us: Agamemnon, Huck Finn, Brutus, Antigone, Judas. When is loyalty right, and when does the virtue become a vice? As Felten writes in his thoughtful and entertaining book, loyalty is vexing. It forces us to choose who and what counts most in our lives—from siding with one friend over another to favoring our own children over others. It forces us to confront the conflicting claims of fidelity to country, community, company, church, and even ourselves. Loyalty demands we make decisions that define who we are.

The Philosophy of Sex - Raja Halwani 2022-02-28

With 7 new essays, the 8th edition of this best-selling text examines the nature, morality, and significance of contemporary sexual phenomena. Topics include love; desire; rape; masturbation; sex online; homosexual, asexual, queer, and transgender issues; polyamory; paraphilia; drugs

and sex; objectification; BDSM; and sex and race.

Philosophy of Sex and Love - Alan Soble 2008-09

"This introductory textbook is an overview of the nature and the ethics of the many aspects of sex and love"--Provided by publisher.

Maternal Breast-Feeding and Its Substitutes in Nineteenth-Century French Art - Gal Ventura 2018-10-02

Gal Ventura explores the ideological sources promoting maternal breast-feeding in modern Western society, through a survey of hundreds of artworks produced in France from the French Revolution to the beginning of the twentieth century.

Encyclopedia of Philosophy - Donald M. Borcherdt 2006

This volume, covering entries from "Oakeshott, Michael" to "Presupposition," presents articles on Eastern and Western philosophies, medical and scientific ethics, the Holocaust, terrorism, censorship, biographical entries, and much

more.

Sex from Plato to Paglia - Alan Soble 2006

The Philosophy of Sex - Alan Soble 2008

Thirty contemporary essays that explore philosophically, conceptually, and theologically the nature, social meanings, and morality of contemporary sexual phenomena. From publisher description.

From Trent to Vatican II - Raymond F. Bulman 2006-05-25

The second Vatican Council was convened by Pope John XXIII between 1962 and 1965. It marked a fundamental shift toward the modern Church and its far-reaching innovations replaced or radically changed many of the practices, rules, and attitudes that had dominated Catholic life and culture since the Council of Trent in the sixteenth century. In this book a distinguished team of historians and theologians offers an impartial investigation of the relationship between Vatican II and Trent by examining such

issues as Eucharistic theology, liturgical change, clerical reform, the laity, the role of women, marriage, confession, devotion to Mary, and interfaith understanding. As the first book to present such a comprehensive study of the connection between the two great Councils, this is an invaluable resource for students, theologians, and church historians, as well as for bishops, clergy, and religious educators.

Ethics, Sexual Orientation, and Choices about Children - Timothy F. Murphy 2012

A critical review of the debate over the still-hypothetical possibility of prenatal intervention by parents to select the sexual orientation of their children. Parents routinely turn to prenatal testing to screen for genetic or chromosomal disorders or to learn their child's sex. What if they could use similar prenatal interventions to learn (or change) their child's sexual orientation? Bioethicists have debated the moral implications of this still-hypothetical possibility for several decades. Some commentators fear

that any scientific efforts to understand the origins of homosexuality could mean the end of gay and lesbian people, if parents shy away from having homosexual children. Others defend parents' rights to choose the traits of their children in general and see no reason to treat sexual orientation differently. In this book, Timothy Murphy traces the controversy over prenatal selection of sexual orientation, offering a critical review of the literature and presenting his own argument in favor of parents' reproductive liberty. Arguing against commentators who want to restrict the scientific study of sexual orientation or technologies that emerge from that study, Murphy proposes a defense of parents' right to choose. This, he argues, is the only view that helps protect children from hurtful family environments, that is consistent with the increasing powers of prenatal interventions, and that respects human futures as something other than accidents of the genetic lottery.

Coequal and Counterbalanced - John D. Garr
2013-01-16

God created woman and man so that they would be consubstantial and coequal and that they would manifest perfectly counterbalanced complementarity. The relationship of the two halves of humanity was to be one of love, mutuality, and fulfillment. By recovering the Hebraic understanding of God's blueprint for them, both women and men can finally experience the relationship that God designed to be heaven on earth; The God-Designed Two-in-One, Coequal, Counterbalanced Partnership; Designer-Fashioned Woman; Gender Self-Identity and Self-Fulfillment; Spare Ribs and Afterthoughts? Marriage as Heaven on Earth. \Whatever your race, ethnicity, gender, faith, or social status, this book and the other volumes in this series will literally set you free from misconceptions that have long perverted relationships between women and men. As you reconnect with the Hebraic foundations of your

faith, you will rediscover God's original design for humanity, and you will come to understand, respect, and honor the different God-designed distinctives, preferences, and roles for women and men that counterbalance and complement each other in mutuality and love.

A-L - Alan Soble 2006

Sex from Plato to Paglia [2 Volumes] - Alan Soble 2006

Sexuality has captured our imagination since antiquity. Its passion and mysteries have inspired numerous creative works and posed many ethical, legal, and social challenges. Because sex is so central to our personal lives and society, various thinkers have pondered its philosophical dimensions. This reference book, the first of its kind, offers comprehensive coverage of sexual philosophy. Unlike other works, which explore the biology of sex, this encyclopedia locates sexuality in its broader intellectual and social contexts. Alan Soble, one

of the world's foremost authorities on the philosophy of sex, has consulted an advisory board of distinguished specialists. Through more than 150 alphabetically arranged entries, the encyclopedia chronicles how people have thought about sexuality across time and cultures. The entries, written by more than 100 expert contributors who cite current scholarship, provide insightful discussions of thinkers, topics, movements, religions, and concepts. Includes more than 150 alphabetically arranged entries Draws upon the work of more than 100 expert contributors from a range of disciplines Provides biographical and topical entries Entries are fully cross-referenced and close with extensive bibliographies Provides a selected, general bibliography of major works
A Moral Defense of Prostitution - Rob Lovering
2021-07-09

Is prostitution immoral? In this book, Rob Lovering argues that it is not. Offering a careful and thorough critique of the many—twenty, to

be exact—arguments for prostitution's immorality, Lovering leaves no claim unchallenged. Drawing on the relevant literature along with his own creative thinking, Lovering offers a clear and reasoned moral defense of the world's oldest profession. Lovering demonstrates convincingly, on both consequentialist and nonconsequentialist grounds, that there is nothing immoral about prostitution between consenting adults. The legal implications of this view are also brought to bear on the current discourse surrounding this controversial topic.
Criminalizing Sex - Stuart P. Green 2020
"Starting in the latter part of the 20th century, the law of sexual offenses, especially in the West, began to reflect a striking divergence. On the one hand, the law became significantly more punitive in its approach to sexual conduct that is nonconsensual or unwanted, as evidenced by a major expansion in the definition of rape and sexual assault, and the creation of new offenses like sex trafficking, child grooming, revenge

porn, and female genital mutilation. On the other hand, it became markedly more permissive in how it dealt with conduct that is consensual, a trend that can be seen, for example, in the legalization or decriminalization of sodomy, adultery, and adult pornography. This book explores the conceptual and normative implications of this divergence. In doing so, it assumes that the proper role of the criminal law in a liberal state is to protect individuals in their right not to be subjected to sexual contact against their will, while also safeguarding their right to engage in (private consensual) sexual conduct in which they do wish to participate. Although consistent in the abstract, these dual aims frequently come into conflict in practice. The book develops a framework for harmonization in the context of a wide range of nonconsensual, consensual, and aconsensual sexual offenses (hence, the "unified" nature of the theory) -- including rape-as-unconsented-to-sex, rape-by-deceit, rape-by-coercion, rape of a

person who lacks capacity to consent, statutory rape, abuse of position, sexual harassment, voyeurism, indecent exposure, incest, sadomasochistic assault, prostitution, bestiality, and necrophilia"--

Science and Narratives of Nature - Sundar Sarukkai 2017-07-05

The discourse and practice of science are deeply connected to explicit and implicit narratives of nature. However, nature has been understood in diverse ways by cultures across the world. Could these different views of nature generate the possibility of alternate views on science? Part of the innovative series Science and Technology Studies, this volume looks at different conceptualizations of nature and the manner in which they structure the practice of the sciences. The essays draw upon philosophy, history, sociology, religion, feminism, mathematics and cultural studies, and establish a dialogue between cultures through a multi-disciplinary exploration of science. With
