**EU Quality Standards in Support of the Fight Against Trafficking in Human Beings and Sexual Exploitation of Children** Gert Vermeulen 2007

Trafficking in Human Beings Silvia Scarpa 2008-07-17 In recent decades the international community has focused its attention on trafficking in persons, one of the most worrying phenomena of the 21st century. In Part I, this book examines trafficking in persons in the light of the recent definition of the phenomenon given by the UN Trafficking Protocol, and various other international legal instruments including treaties and 'soft law'. It analyses trafficking causes and consequences, and the most common forms of exploitation related to it. Part II reviews the most important international conventions against slavery and the slave trade, and the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children. It also analyses the most important policy documents setting the basic standards of protection for trafficked victims - namely the United Nations High Commissioner for Human Rights' Recommended Principles and Guidelines on Human Rights and Human Trafficking - and comments on the extension of the jus cogens principle of international law that prohibits slavery, to argue that trafficking in persons ought rightly to be considered a part of it. Part III deals with the Council of Europe and the European Union, and their fight against trafficking in people, arguing that the focus has been placed mistakenly on the prosecution of traffickers rather than on the protection of trafficked victims. The book concludes with a recommendation to shift towards a more balanced approach to trafficking in persons, and the overriding need to conduct further research on specific issues related to the spread of trafficking and the exploitation of its victims.

*Sex Trafficking, Human Rights, and Social Justice* Tiantian Zheng 2010-09-13 The recognition of women's human rights to migrate and work as sex workers is disregarded and dismissed by anti-trafficking discourses of rescue in the latest United Nation's definition of trafficking. This volume explores the life experiences, agency, and human rights of trafficked women in order to shed light on the complicated processes in which anti-trafficking, human rights and social justice are intersected. In these articles, the authors critically analyze not only the conflation of trafficking with sex work in international and national discourses and its effects on migrant women, but also the global anti-trafficking policy and the root causes for the undocumented migration and employment. Featuring case studies on eleven countries including the US, Iran, Denmark, Paris, Hong Kong, and south east Asia and offering perspectives from transnational migrant population, the contributors rearticulate the trafficking discourses away from the state control of immigration and the global policing of borders, and reassert the social justice and the needs, agency, and human rights of migrant and working communities. This book will be of interest to students and scholars of politics, gender studies, human rights, migration, sociology and anthropology.

**Women and Sex Work in Cambodia** Larissa Sandy 2014-08-27 Prostitution is strongly embedded in local cultural practices in Cambodia. Based on extensive original research, this book explores the nature of prostitution in Cambodia, providing explanations of why the phenomenon is so widely tolerated. It outlines the background of the French colonial period, with its filles malades, considers the contemporary legal framework, and analyses the motivations for sex work, examining in particular how women become locked into debt bondage. Overall the book provides significant contributions to wider debates about sex work, sex trafficking and the constrained nature of women's choices.

**Demanding Sex: Critical Reflections on the Regulation of Prostitution** Marina Della Giusta 2016-05-13 Interrogating supply/demand from an inter- and multi-disciplinary perspective, this collection broadens engagement beyond the routine analysis of the locus of violence in prostitution and the validity of the prostitute's consent. A focus on the supply/demand dynamic brings into play a range of other societal, economic and psychological factors such as the social construction of sexuality, the viability of alternative choices for prostitutes and clients, and the impact of regulatory regimes on the provision of sexual services. The factors which underlie each component of the supply/demand dyad are also studied and an examination is made of their dynamic interrelation. The collection emphasizes the importance of rendering policy makers alert to the evidence emerging from empirical studies conducted in different fields of enquiry, in the hope of moving beyond polarity and politics at the local, national and international level.

Securitizing Youth Marisa O. Ensor 2021-04-23 *Securitizing Youth* offers new insights on young people's engagement in a wide range of contexts related to the peace and security field. It presents empirical findings on the challenges and opportunities faced by young women and men in their efforts to build more peaceful, inclusive, and environmentally secure societies. The chapters included in this edited volume examine the diversity and complexity of young people's engagement for peace and security in different countries across the globe and in different types and phases of conflict and violence, including both conflict-affected and relatively peaceful societies. Chapter contributors, young peacebuilders, and seasoned scholars and practitioners alike propose ways to support youth's agency and facilitate their meaningful participation in decision-making. The chapters are organized around five broad thematic issues that correspond to the 5 Pillars of Action identified by UN Security Council Resolution 2250. Lessons learned are intended to inform the global youth, peace, and security agenda so that it better responds to on-the-ground realities, hence promoting more sustainable and inclusive approaches to long-lasting peace.

**Transnational Crime and Human Rights** Susan Kneebone 2012 "Despite the international community's attempts to offer a coordinated response to the issue of human trafficking in the twenty first century, there are indications that the trafficking is actually on the increase, and is a growing part of the global economy. This book offers an evaluation of responses to the transnational crime of human trafficking and governance of the issue through a case study of the Greater Mekong Subregion (GMS) which comprises Cambodia, the People's Republic of China, Lao People's Democratic Republic, Myanmar, Thailand, and Vietnam. It analyses the international and national legal and policy frameworks and the role of governments, international and national non-governmental institutions, and regional processes, in responding to trafficking issues in the GMS. The book is based on the findings of a three year study conducted in the region, involving interviews with more than sixty individuals from relevant organizations and agencies, and examines the social, political and historical factors, including gender and age, labour exploitation and migration which are background to human trafficking issues in the GMS. The book does not just consider sex trafficking but also looks at labour trafficking and other forms of trafficking such as forced marriages and false adoptions. The advantages and limits of the new international framework for tackling human trafficking are explored from the perspective of the region's experience with international and national multi-lateral programmes, illustrating how the new international framework for tackling human trafficking has translated into practice. The book considers issues about competing mandates, and gaps in strategies for protection and concludes with a discussion of broader lessons to be learned from the GMS situation and suggestions for future governance strategies in the fight against trafficking"--

Combating Human Trafficking Christal Morehouse 2009-06-19 Human trafficking is one of the most urgent political challenges of our global age. As the UN defines it, human trafficking is essentially a form of non-institutional slavery, but also includes the trafficking of human organs. It has been resistant to abolition and difficult to combat. Human trafficking is organized through networks and is clandestine in nature, making it very hard for governments to even detect. Yet it is arguably the most severe form of human exploitation in the world. Traffickers trade in the immediate human suffering of their 'goods'. Human trafficking is a pressing political issue for two key reasons. First, because its victims are often subjected to virtual slavery, exposing them to severe physical and mental abuse. Their rights are brutally violated and they are robbed of their fundamental freedom and dignity. The severity and estimated scope of this abuse has made the issue a priority for the American and German governments. Second, - man trafficking is estimated to be one of the top three sources of income globally, for organized crime. Only trafficking in drugs and arms surpasses human trafficking as a means for such illegal networks to generate funds. Criminal networks undermine the integrity of democratic states and destabilize their social and economic order. - come generated from human trafficking provides such networks with the resources they need to sustain a wide range of harmful activities.

*Rule Systems Theory* Helena Flam 2008 Explaining the complexity of social life remains the central challenge of the social sciences. This book offers a variety of theoretical-empirical explorations and applications inspired by an important neo-institutional approach to tackling this complexity - the rule systems theory. Its point of departure is the assumption that institutions and cultural formations possess causal powers and relative autonomy, constraining and enabling people's social actions and interactions. Structural and cultural properties of society are carried by, transmitted, and reformed by human agents whose interactions generate, reproduce, elaborate and transform structures. The contributors are highly accomplished economists, sociologists and political scientists who come from the US and several European countries. The book is meant as a Festschrift for Tom Burns, a central figure in the development of the rule systems theory.

**Naming, Defining, Phrasing Strong Asymmetrical Dependencies** Jeannine Bischoff 2023-07-03 An examination of the terms used in specific historical contexts to refer to those people in a society who can be categorized as being in a position of 'strong asymmetrical dependency' (including slavery) provides insights into the social categories and distinctions that informed asymmetrical social interactions. In a similar vein, an analysis of historical narratives that either justify or challenge dependency is conducive to revealing how dependency may be embedded in (historical) discourses and ways of thinking. The eleven contributions in the volume approach these issues from various disciplinary vantage points, including theology, global history, Ottoman history, literary studies, and legal history. The authors address a wide range of different textual sources and historical contexts - from medieval Scandinavia and the Fatimid Empire to the history of abolition in Martinique and human rights violations in contemporary society. While the authors contribute innovative insights to ongoing discussions within their disciplines, the articles were also written with a view to the endeavor of furthering Dependency Studies as a transdisciplinary approach to the study of human societies past and present.

**Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States** National Research Council 2013-11-12 Every day in the United States, children and adolescents are victims of commercial sexual exploitation and sex trafficking. Despite the serious and long-term consequences for victims as well as their families, communities, and society, efforts to prevent, identify, and respond to these crimes are largely under supported, inefficient, uncoordinated, and unevaluated. *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* examines commercial sexual exploitation and sex trafficking of U.S. citizens and lawful permanent residents of the United States under age 18. According to this report, efforts to prevent, identify, and respond to these crimes require better collaborative approaches that build upon the capabilities of people and entities from a range of sectors. In addition, such efforts need to confront demand and the individuals who commit and benefit from these crimes. The report recommends increased awareness and understanding, strengthening of the law's response, strengthening of research to advance understanding and to support the development of prevention and intervention strategies, support for multi-sector and interagency collaboration, and creation of a digital information-sharing platform. A nation that is unaware of these problems or disengaged from solutions unwittingly contributes to the ongoing abuse of minors. If acted upon in a coordinated and comprehensive manner, the recommendations of *Confronting Commercial Sexual Exploitation and Sex Trafficking of Minors in the United States* can help advance and strengthen the nation's emerging efforts to prevent, identify, and respond to commercial sexual exploitation and sex trafficking of minors in the United States.

**Global Report on Trafficking in Persons 2018** United Nations 2019-03-21 This report, which comprises three booklets, provides a comprehensive analysis of the crime of trafficking in persons and how different countries are responding to this crisis. Countries worldwide have been detecting and reporting a larger number of victims and are also convicting more traffickers than ever before. This may well be the result of an increase in the capacity to identify victims over the last few years. While the number of reporting countries did not significantly increase, the number of victims reported in different countries did increase. The trend has unfortunately been growing over the past few years.

**Sex Trafficking in Southeast Asia** Trude Jacobsen 2016-11-10 This book brings an important new perspective to the study of sex trafficking by considering the different types of social contracts which existed in the past that had sexual labour or activity as an inherent component. It outlines the nature of these social institutions - marriage, temporary marriage, debt bondage, and slavery - which were recognized in local law, carried no stigma, and endured for long periods. It discusses how labour pledged in return for a loan of cash or as a result of a punishment dictated by the state often included sexual labour, and how this could take the form of servicing the master of the house, his guests, or foreign travellers, who paid the debt-holder for the privilege, and how even wives of different ranks, temporary or permanent, and children, were pledged as sureties for loans. The book, which covers the modern states of Myanmar, Thailand, Laos, Cambodia, and Vietnam, argues that cultural norms are not static, that sexual contracts are more complicated than simply 'marriage' or 'prostitution', and that as trafficking for sexual purposes increases, those engaging in humanitarian intervention should improve their knowledge of the historical underpinnings of cultural understandings of familial and contractual obligations.

**Documents, Working Papers - Council of Europe, Parliamentary Assembly** Council of Europe. Parliamentary Assembly 2001

**Trafficking and Sex Work** Mathilde Darley 2022-12-30 Set in different national contexts (Brazil, Bulgaria, France, Germany, Laos, Norway, Thailand) and in different social science disciplines, the chapters of this volume aim at questioning anti-trafficking policies and their practical impact on sex work regulation. Many actors, from media to researchers, from nonprofit organizations to law enforcement agencies, from "experts" to "reality tourists", contribute to produce knowledge on trafficking and sexual exploitation and thus to institutionalize it as a category of thought and action; by naming and framing perpetrators and victims, they make trafficking "come true" as a public problem. The book pays particular attention to the way the international expertise produced by these different actors and institutions on sexual exploitation and sex work impacts local control practices, especially with regard to law enforcement. The fight against trafficking as it gets institutionalized and put into practice then appears as a way to reaffirm a gendered and racialized public order. Building analytical bridges between different national contexts and relying on contextualized fieldwork in different countries, the book is of great interest for academics as well as for practitioners and/or activists working on sex and gender issues and migration policies. Also, it resonates with a broader literature on the construction of public problems in sociology and political science.

*The Age of Selfies* Adam J. MacLeod 2020-02-15 This book diagnoses an unexamined cause of the incivility in our public discourse. Our most contentious controversies today are moral. We disagree not only about questions of efficiency and democracy and civil liberties but also about what is right to do and who we are becoming as a people. We have not yet understood the implications of this shift in public reasoning from discourse about political ideals to debates about moral imperatives. The book prescribes a way to educate ourselves and our young people how to disagree well. We are not able to engage in moral discourse effectively because our educational programs are still organized around obsolete principles of political neutrality. Meanwhile, our young people have learned to bend moral claims in service to self-authorship. Also, different groups of us look to different sources of moral truth. Further complicating our efforts, different generations use the same language to refer to different moral ideas. The book suggests principles for a practical education that is robustly moral, that will enable us to understand and overcome these new challenges. And it lays out a framework for flourishing together in society despite our radical differences.

**Model Law Against Trafficking in Persons** United Nations Office on Drugs and Crime 2009 The publication was developed by the United Nations Office on Drugs and Crime (UNODC) in response to the request of the General Assembly to the Secretary-General to promote and assist the efforts of Member States to become party to and implement the United Nations Convention against Transnational Organized Crime and the Protocols thereto. It was developed in particular to assist States in implementing the provisions contained in the Protocol to Prevent, Suppress and Punish Trafficking in Persons, Especially Women and Children, supplementing that Convention. The Model Law will both facilitate and help systematize provision of legislative assistance by UNODC as well as facilitate review and amendment of existing legislation and adoption of new legislation by States themselves. It is designed to be adaptable to the needs of each State, whatever its legal tradition and social, economic, cultural and geographical conditions.

Sex, Drugs, Rock & Roll and Moral Dirigisme Michele Alexandre 2009 This Article builds upon various scholarly critics of moralistic laws to argue that legal prohibition of drugs and prostitution is inefficient. In so doing, it relies on economists' scholarship, which has demonstrated that the high costs of regulation are not justified, considering the minimal success of these regulations as well as the harm caused by those regulations. Philosophers, for millennia, have grappled with formulating principles of morality and have attempted to determine which of those principles ought to be codified and imposed as societal rules of law on individuals. Attempts to coerce individuals into adopting certain behavioral patterns or forgo destructive ones have been referred to as "moral dirigisme". Moral dirigisme manifests itself in "the attempt or tendency to control certain kinds of moral behavior by formal legal means." (See, e.g., Mario J. Rizzo, *The Problem of Moral Dirigisme: A New Argument Against Moralistic Legislation*, 1 N.Y.U. J.L. & LIBERTY 789, 791 (2005). Moral dirigisme (John Stuart Mill, *On Liberty* 13 (Stefan Collini ed., 1989) (1859) is an economic term, which describes an economic structure for which the government provides strong direction. (See generally Élie Cohen, *Le Colbertisme "High Tech": Économie Des Telecom et du Grand Projet* (1992); David Baker, *The Political Economy of Fascism: Myth or Reality, or Myth and Reality?*, 11 NEW POL. ECON., 157, 227-50 (2006). The term dirigisme derives from the French word diriger, which means to guide. (see WordReference.com, French to English Dictionary, (last visited Sept. 3, 2009). Moral dirigisme, by analogy, refers to the underlying philosophy which believes that moral behaviors can be changed through formal regulation. It is referred to, by Mario J. Rizzo, as "the attempt or tendency to control certain kinds of moral behavior by formal legal means." (See Rizzo, *supra* note 2, at 791). Rizzo views acts by the state to prohibit or authorize certain conduct of individuals in an attempt to force them to act morally as flawed. Id. The laws prohibiting drugs and prostitution serve as perfect examples of implementation of a moral dirigiste philosophy. I contend in this Article that the dirigiste approach to drugs and prostitution is erroneous and inefficient. From Plato's Socrates to Kant's Categorical Imperatives to Hume's observations, philosophers have confronted the nebulous intersection of absolutely necessary laws and purely beneficence-inducing laws, which cannot be implanted as a product of coercion. While the principles of justice have generally been perceived as capable of inspiring precise laws, other principles such as those guiding beneficence have been viewed by philosophers as more contingent on the individual's state of mind or circumstances and less likely to be regulated by formal rules. This Article explores the proper role the law should play in regulating behaviors (such as drug use and/or in prostitution) that society deems harmful, but that are resistant to prohibition. Additionally, it considers items deemed harmful to the public, but not subject to any form of prohibition. Furthermore, it re-examines the consequences of U.S. drug and prostitution policy, focusing on the inevitable "black market" effects of the punitive style of enforcement, and initiates serious consideration of policy alternatives to discourage drug use and limit the number of vulnerable women engaging in prostitution. Consequently, the Article is divided as follows. Part II considers the inefficiency of the prohibition of drugs and prostitution. Part III discusses the underlying legal and philosophical theories that support prohibitory legislation and analyzes why prohibition of drugs and prostitution, although a popular default mechanism, is ineffective at eradicating these behaviors. Part III also identifies the Smithian-Humean view of justice as a basis to evaluate prohibition-based laws. Part IV explores the issues inherent in the prohibition of drugs and considers alternative approaches. Part V explores issues that result from the prohibition of prostitution and Part VI proposes an alternative framework to the prohibition of prostitution. Part VII explores ways of preventing pro-prostitution regulations from strengthening the sex trafficking market. Finally, Part VIII borrows from philosophical frameworks to formulate a standard that helps differentiate between effective and ineffective prohibition. Through an analysis of the unintended effects of prohibition, this Article provides a strong economic and legal argument for the legalization of prostitution and, at the very least, marginal changes in U.S. drug policy.

**Human Trafficking** Elisha Jasper Dung 2021-11-05 This book uses a multidisciplinary approach to trace human trafficking throughout history.
