Routledge International Handbook of Sexual Addiction - Thaddeus Birchard
2017-09-11

The concept of sexual addiction has gained increasing recognition in the academic and healthcare communities since the 1990s. It has also captured the attention of the media, where there has been much debate over whether it can truly be described as an addiction. What is certain is that many people struggle with out of control sexual behaviour, which takes over their lives and has harmful consequences for their relationships, careers and finances. The Routledge International Handbook of Sexual Addiction brings together a comprehensive range of perspectives on sexual addiction from a worldwide selection of scholars and therapists. It sets out to define sexual addiction and to study its causes from a range of different psychological perspectives. A series of presentations of sexual addiction are outlined, including internet sexual addiction and the relationship between paraphilias and sex addiction. The handbook considers both individual and group treatment strategies, drawing on a wide range of approaches, including cognitive behavioural therapy, mindfulness and 12-step programmes. The book studies sex addiction in specific populations including women, adolescents and men who have sex with men. Finally, it considers some of the alternative discourses surrounding the concept of sexual addiction. This is the first comprehensive reference book to bring together global viewpoints on advances in research, theory and practice in one volume. This handbook provides an essential guide for academics and students of psychotherapy, counselling, nursing, addiction, sexualities, social work and health and social care, as well as professionals in practice and in training working with sexual addiction and related issues.

Sexual Health in Recovery - Douglas Braun-

Harvey 2010-12-15

"The curriculum provides a vision for chemical dependency treatment I have attempted to address for many years. This looks like an approach that finally meets this need." --Eli Coleman, PhD, Director of the Program in Human Sexuality University of Minnesota The ideal of successful treatment is to maintain abstinence for the rest of the addict's life; yet few treatment programs meet this goal. For many men and women in recovery, sexual behavior linked with drug or alcohol use is the primary reason for relapse. A large number of addicts have sex/drug-linked patterns of combining drugs, such as crystal meth, cocaine, alcohol, and club drugs, with sexual relations. In recovery, they may be unprepared for the dual absence of drug use and sexual relations. Additionally many addicts have past histories of sexual abuse. While great strides have been made in treating women and men suffering from addiction, their sexuality is too often marginalized. When sexuality is not directly and positively addressed in drug and alcohol treatment, it can contribute to treatment failure, relapse, and untold costs in the lives of addicts and their families. Sexual Health in Drug and Alcohol Treatment introduces a pioneering evidence-based curriculum, designed to integrate concepts of sexual health, current sex research, and recent developments in relapse prevention research. Complete with suggested group activities, guided discussions, role plays, and more, the program can reduce the risk of relapse and increase client retention for men and women with sex/drug linked addiction and alcoholism. This curriculum was created by drug and alcohol counselors, sexual health advocates, and psychological/sexological research specialists. Key Features: Helps women and men in recovery identify sexual thoughts and feelings associated with increasing or decreasing risk of relapse Is compatible with all treatment settings,

approaches, and clientele Includes psychoeducational material, experiential learning, skill-building exercises, assessments, worksheets, and more Proven to improve client retention and reduce sex/drug linked shame—a common cause of relapse

The Shamroques - Niall Spratt 2012-07-06

The Shamroques series of children's books (four titles) was first published in the early nineties and was a sensation. Orpen Press are pleased to announce the publication of new, updated editions of the first two books in this much-loved series, *The Shamroques – First Challenge* and *The Shamroques – Second Challenge*. The Shamroques are five magical creatures who were entrusted with the power of the high druids of Ireland when magic became forbidden in Ireland. Disguised as stones, they are awakened from their sleep by a little girl called Niamh. Together with Niamh and her brother Conor and sister Sinead, and with many other creatures they meet along the way, the Shamroques set about on a quest to save the local environment from its enemies. Having sold over 40,000 copies in its first edition, this series will delight a new generation of children.

Readers will also find: Three additional sessions with new exercises Comprehensive strategies for the creation of safe spaces in which men will feel comfortable expressing themselves, reflecting, and learning Information about how men experience and recover from addictions and trauma Ways to develop and learn teach the skills men need to maintain and sustain recovery from substance use disorders and live the life they want to live An indispensable collection of exercises and other resources for men in the criminal justice system who are struggling with substance misuse.

Helping Men Recover belongs on the bookshelves of social workers, clinicians, and other correctional system professionals.

Encyclopedia of Sex and Sexuality [2 volumes] - Heather L. Armstrong 2021-03-01

Providing a comprehensive framework for the broad subject of human sexuality, this two-volume set offers a context of historical development, scientific discovery, and sociopolitical and sociocultural movements. The broad topic of sex—encompassing subjects as varied as sexuality, sexual and gender identity, abortion, and such crimes as sexual assault—is one of the most controversial in American society today. This two-volume encyclopedic set provides readers with more than 450 entries on the subject, offering a comprehensive overview of major sexuality issues in American and global culture. Themes that run throughout the volumes include sexual health and reproduction, sexual identity and orientation, sexual behaviors

and expression, the history of sex and sexology, and sex and society. Entries cover a breadth of subjects, such as the major contributors to the field of sexology; the biological, psychological, and cultural dimensions of sex and sexuality; and how the modern-day political climate and the government play a major role in determining attitudes and beliefs about sex. Written in clear, jargon-free language, this set is ideal for students as well as general readers.

Motivational Interviewing in Groups -

Christopher C. Wagner 2012-11-28

A unique clinical resource, this book shows how to infuse the methods and spirit of motivational interviewing (MI) into group-based interventions. The authors demonstrate how the four processes of MI with individuals translate into group contexts. They explain both the challenges and the unique benefits of MI groups, guiding practitioners to build the skills they need to lead psychoeducational, psychotherapeutic, and support groups successfully. A wealth of clinical examples are featured. Chapters by contributing authors present innovative group applications targeting specific problems: substance use disorders, dual diagnosis, chronic health conditions, weight management, adolescent risk behaviors, intimate partner violence, and sexual offending. This book is in the Applications of Motivational Interviewing series, edited by Stephen Rollnick, William R. Miller, and Theresa B. Moyers.

Treating Out of Control Sexual Behavior -

Douglas Braun-Harvey, MA, MFT, CGP, CST
2015-11-05

Out of control sexual behavior is referred to variously as "sex addiction", "sexual compulsivity", and "hypersexuality", among other terms, has been a controversial and attention-getting issue since it first captured both public and professional attention over 30 years ago. Previous discussions of this behavior have been grounded in conceptualizing it as a pathologized, medical issue on par with substance abuse addictions, or, in backlash, as simply irresponsible behavior indicating weakness in the individual. In keeping with the call from many leaders in the mental health and sexual health areas to move beyond these two polarized conceptualizations of these sexual behavior problems, the authors present a model

for working with clients in both group and individual treatment settings. Based on their experience with hundreds of clients, this book provides a comprehensive and practical conceptualization of out of control sexual behavior framed as a sexual health problem within a larger model of human behavior, not a psychiatric or addictive disorder. The book includes step-by-step tools for assessment, treatment planning as well as treatment implementation. It describes a process for professionals to guide clients to define and be accountable for their own personal vision of sexual health as the foundation on which they regain sexual behavior control. The authors provide rich and varied composite case examples based on 20 years of clinical experience that demonstrate clinician sexual health treatment conversations and tools, as well as stories of hope and guidance so essential to individuals wanting to understand how sexual health can be the essential ally in changing their sexual behavior.

The Art of Sex Therapy Supervision -

James C. Wadley 2018-08-06

The Art of Sex Therapy Supervision is a collection of scholarly writings and case narratives that sheds light on issues that sex therapists face as supervisors or supervisees and provides techniques that can be adapted to fit clients' specific needs. Written by experts in a range of fields, this book covers a wide range of perspectives and methodologies for assisting diverse populations, including conservative Christians, LGBTQ clients, and those who exhibit out-of-control sexual behavior. It addresses individual, relational, and systemic engagement in the context of sexual function/dysfunction, and it also discusses obstructions clinicians can face when providing critical feedback to clients. This book will be useful for aspiring supervisors as well as those who supervise clinicians seeking licensure or certification.

Sexuality and Addiction -

Raven L. Badger
2012-07-06

This book provides an understanding of how sexuality and addiction are intertwined, helping those who counsel substance abusers and individuals who have experienced negative sexual messages or experiences to improve their sexual health and enjoyment. This book presents

a broad overview of sexual health issues that documents the links between sexuality and substance abuse, and describes how counselors can help individuals who have been impacted by negative sexual experiences can find a way out of the pain that leads them to addiction or back to substance abuse. Using the sexual health model as a framework for discussion, author Raven L. James, PhD, explains how sexual health and substance abuse are often connected, provides examples of real-life experiences, and identifies issues to consider in adopting healthier attitudes and sexual behaviors as well as effective methods for achieving them. Each chapter provides focused content followed by an explanation of the subject's connection to substance abuse. Tips for counselors, sample lesson plans and ideas, tangible tools to use in sexual health groups, and related resources are also included. Whether the reader is personally afflicted, a helper, or a loved one, the information in *Sexuality and Addiction: Making Connections, Enhancing Recovery* will provide a new perspective on how to help clients improve their sexual self-esteem, find ways to improve sexual relationships with themselves and others, and most of all, to restore hope for sexual health in recovery.

Practicing Harm Reduction Psychotherapy - Patt Denning 2011-11-14

This acclaimed clinical guide, now substantially revised and updated, has helped thousands of clinicians put the proven principles of harm reduction into practice with therapy clients who have substance use problems. Written by pioneers in the field, the book shows how to do effective therapeutic work with people still using alcohol or other drugs. It provides clear guidelines for conducting comprehensive assessments, making collaborative treatment decisions, and implementing interventions that combine motivational, cognitive-behavioral, and psychodynamic strategies. The focus is reducing drug-related harm while also addressing co-occurring psychological and emotional difficulties. Detailed clinical illustrations are featured throughout. New to This Edition

*Reflects over a decade of research advances and the tremendous growth of harm reduction clinical practice and training. *Section on applications, with chapters on community-based

settings, harm reduction groups, and working with families and friends. *Chapters on biological and psychodynamic aspects of treatment. *Expanded discussions of trauma, cultural sensitivity, and ethics. *Supplemental resources and training information at the authors' website:

Lowinson and Ruiz's Substance Abuse - Pedro Ruiz 2011

"A comprehensive, authoritative text on all aspects of substance abuse and addiction

medicine. Scientific topics such as the biology of various addictions and all dimensions of clinical treatment and management are addressed by a wide range of leading contributors. Behavioral addictions are addressed also, so the text is not solely devoted to specific substances and their misuse"--Provided by publisher.

Responding to Physical and Sexual Abuse in Women with Alcohol and Other Drug and Mental Disorders - Bonita Veysey 2012-12-06

Learn from the experiences of these program sites to develop better services for women with co-occurring disorders and histories of violence This book explores the efforts of the Women, Co-Occurring Disorders and Violence Study to address the significant lack of appropriate services for women trauma survivors with co-occurring mental health and substance use disorders. Experts describe the services integration programs of nine participating sites that address the multiple needs of these women. In this guide, you will find useful strategies for integrating services that are responsive to the strengths and needs of the individual as well as the community. This vital resource examines how—over a period of five years—sites designed, implemented, and evaluated their interventions. You will learn how sites developed their strategies for integrating services at both the clinical/individual level and at the services or systems level. The book also shows how trauma-informed, gender-specific, culturally competent care fosters treatment that is sensitive to related issues such as children and parenting, interpreting culture cues, and socioeconomic difficulties. In Responding to Physical and Sexual Abuse in Women with Alcohol and Other Drug and Mental Disorders, you will learn about the details of nine different programs, including: Franklin County Women’s Research Project—a collaborative project for rural women, designed and operated by local consumer/survivor/recovering women (CSRs) The Triad Women’s Project—a semi-rural comprehensive system of care to respond to the needs of women and children The Women Embracing Life and Living (WELL) Project—interventions include trauma, parenting, systems integration and mutual help groups with Integrated Care Facilitators providing resource coordination and advocacy services

PROTOTYPES, Centers for Innovation in Health, Mental Health, and Social Services—the three levels of integration the Systems Change Center implemented the Boston Health Commission—an integrated model of trauma-informed services culturally and linguistically appropriate for its service population of primarily poor Latina and African American women Palladia’s Portal Project—a comprehensive trauma-informed intervention designed to put trauma and safety first to assist women remaining in treatment Arapahoe House’s New Directions for Families—a family-oriented intervention for women and their dependent children Allies—comprehensive, integrated services for women as well as intervention for their children, ages 5-10 The District of Columbia Trauma Collaboration Study (DCTCS)—a two-phase project addressing the needs of dually diagnosed women trauma survivors Responding to Physical and Sexual Abuse in Women with Alcohol and Other Drug and Mental Disorders provides you with first-hand accounts of the process by which programs and service systems were transformed. As challenges were met and strategy was adapted to “real world” situations, the sites discussed in this text found new and improved methods for helping this unique group of women. The book offers tips, solutions, and possibilities to mental health professionals, substance abuse professionals, and domestic violence professionals, and even patients and/or clients searching for support.
