Crisis Intervention Handbook - Albert R. Roberts 2005-07-14

As a result of the growing amount of acute crisis events portrayed in the media that impact the lives of the general public, interest in crisis intervention, response teams, management, and stabilization has grown tremendously in the past decade. However, there exists little to no literature designed to give timely and comprehensive help for crisis intervention teams. This is a thorough revision of the first complete and authoritative handbook that prepares the crisis counselor for rapid assessment and timely crisis intervention in the 21st century. Expanded and fully updated, the Crisis Intervention Handbook: Assessment, Treatment, and Research, Third Edition focuses on crisis intervention services for persons who are victims of natural disasters, school-based and home-based violence, violent crimes, and personal or family crises. It applies a unifying model of crisis intervention, making it appropriate for front-line crisis workers-clinical psychologists, social workers, psychiatric-mental health nurses, and graduate students who need to know the latest steps and methods for intervening effectively with persons in acute crisis.

Capsules - 1977

Coping with Academic Anxiety - Allen J. Ottens 1991

Describes effective and practical strategies for reducing tension and developing positive attitudes toward academic endeavors

Counseling Female Offenders and Victims - Katherine S. Van Wormer 2001

Serving Mentally Ill Offenders - Gerald Landsberg 2002-01-10

This volume addresses the complex issues associated with the criminalization of mentally ill offenders in the United States and the ways in which mental health professionals can best channel their efforts to create better services and treatment. (Midwest).

Crisis Intervention Handbook - Albert R. Roberts 1990

As a result of the growing amount of acute crisis events portrayed in the media that impact the lives of the general public, interest in crisis intervention, response teams, management, and stabilization has grown tremendously in the past decade. However, there exists little to no literature designed to give timely and comprehensive help for crisis intervention teams. This is a thorough revision of the first complete and authoritative handbook that prepares the crisis counselor for rapid assessment and timely crisis intervention in the 21st century. Expanded and fully updated, the Crisis Intervention Handbook: Assessment, Treatment, and Research, Third Edition focuses on crisis intervention services for persons who are victims of natural disasters, school-based and home-based violence, violent crimes, and personal or family crises. It applies a unifying model of crisis intervention, making it appropriate for front-line crisis workers-clinical psychologists, social workers, psychiatric-mental health nurses, and graduate students who need to know the latest steps and methods for intervening effectively with persons in acute crisis.

Sexual Violence on Campus - Allen J. Ottens, PhD 2000-12-14

This is a somber reminder that sexual aggression, violence, and rape are chronic and serious problems on college campuses today. The volume proposes proactive strides toward stopping such violence. It addresses the role of alcohol and rape, includes the latest information on club drugs and drug-facilitated rape, and explores the special issues surrounding gay, lesbian and transgender violence. Chapters also address changing "the culture" found in, and often fostered by, fraternities and sororities as well as some athletic teams. It puts forward constructive strategies for preventing sexual assault, managing anger, group counseling for survivors, and more. This book will aid counselors and administrators in understanding and stopping sexual assault on college campuses across the country.

Strengthening Forensic Science in the United States - National Research Council 2009-07-29

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to

ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Journal of Education for Social Work - 2001

Intimate Partner Violence - Carol E. Jordan, MS 2004-07-23

This training manual synthesizes the clinical and research literature on victims, offenders, and child witnesses, and uses the empirical evidence to provide generalist clinicians with manageable, concrete guidance for providing care in these cases. Each chapter begins with a summary of the issues to be covered and an outline of the specific topics to be discussed, and ends with a recap and list of questions for practitioners in training. The authors offer expertise in forensic psychology, victimization, and substance abuse; they discuss the clinical, legal, and ethical complexities that violence against women brings to the mental health practice environment.

Report of the Secretary's Task Force on Youth Suicide: Strategies for the prevention of youth suicide - United States. Department of Health and Human Services. Secretary's Task Force on Youth Suicide 1989

Victim Assistance - Thomas L. Underwood 2003

Based on the acclaimed professional certificate program, Advanced Institute on Victim Studies: Critical Analysis of Victim Assistance, this book identifies core content areas essential for practitioners working with crime victims. Recognizing the multidisciplinary, multisystem field that encompasses victim assistance, the contributors present a solid foundation of the varying concepts and theories on victims and victims services. The balance of the text addresses the skills and strategies needed to enhance services to victims at the individual, organizational, and societal levels. Each chapter concludes with an analysis and application section, including representative scenarios and key questions for review.

Psychological Abuse in Violent Domestic Relations - K. Daniel O'Leary, PhD 2004

This volume addresses the importance of measuring psychological abuse and shows that psychological aggression can be reliably measured. Part I identifies measurement issues and contains several scales and inventories for measuring psychological maltreatment. Part II discusses the interpersonal dynamics with specific populations, including battered women, low-income women, and African American women. This remains an important resource in the field of domestic violence.

Battered Women and Their Families - Albert R. Roberts, DSW, PhD, BCETS, DACFE 2007-01-18

With a foreword by Barbara W. White, PhD, University of Texas at Austin The definitive work on battered women is now in a timely third edition. Considered the complete, in-depth guide to effective interventions for this pervasive social disease, Battered Women and Their Families has been updated to include new case studies, cultural perspectives, and assessment protocols. In an area of counseling that cannot receive enough attention, Dr. Robert's work stands out as an essential treatment tool for all clinical social workers, nurses, physicians, and graduate students who work with battered women on a daily basis. New chapters on same-sex violence, working with children in shelters, immigrant women affected by domestic violence, and elder mistreatment round out this unbiased, multicultural look at treatment programs for battered

women.

Forthcoming Books - Rose Arny 1988

National Register of Health Service Providers in Psychology - 1983
Directory of certified or licensed psychologists in independent practice to provide some form of preventive, diagnostic, or therapeutic care of persons. Covers the United States. Alphabetical listing. Entry gives name, highest degree, address, telephone number, states in which person is licensed or certified, and American Board of Professional Psychology specialties. Also geographical listings.

Gender Inclusive Treatment of Intimate Partner Abuse - John Hamel 2005-02-08

cs.psych.clinc_psych

Domestic Violence Screening and Intervention in Medical and Mental Healthcare Settings - Mary Beth Phelan, MD 2004-10-12
Despite the need and the potential for healthcare providers to play an active role in prevention and intervention into domestic violence, there is little evidence that they are doing so in large numbers or systematic ways. This book reviews the literature on screening, identification,

intervention, and prevention of partner violence across healthcare specialties and disciplines to benefit the development of effective domestic violence prevention programs. Primary care, psychiatric and mental health care, emergency department settings as well as subspecialties such as emergency rooms, ophthalmology, and infectious disease are considered.

Bibliographic Guide to Psychology - New York Public Library. Research Libraries 1998

Preventing Adolescent Suicide - Dave Capuzzi 2013-08-21

First published in 1988. Many people absolutely reject suicide under any circumstances. However, most of us can sympathize with the suicidal motives. let's say, of an elderly person afflicted with terminal cancer. But it disturbs the core of our being that a child would find this life so empty of hope that death would be preferable. Teenagers are so full of pain. pleasure. sexuality. energy. curiosity. idealism. bravado. vulnerability. rebellion. and promise! This book comes to grips with the reality of adolescent suicide. In the book are fifteen chapters organized under five major parts.
