its hardships Strawberries -- big, ripe, and juicy. Ten-year-old Birdie Boyer can hardly wait to start picking them. But her family has just moved to the Florida backwoods, and they haven't even begun their planting. ";Don't count your biddies 'fore they're hatched, gal young un!"; her father tells her. Making the new farm prosper is not easy. There is heat to suffer through, and droughts, and cold snaps. And, perhaps most worrisome of all for the Boyers, there are rowdy neighbors, just itching to start a feud.

Together Things Michelle Vasiliu 2020-02-11 Her mother says you can't see her daddy's hurt because it's inside his head. One in five adults experiences depression in their lifetime, but young children are often left in the dark when their mother or father suddenly can't play like they used to. Together Things will resonate with the thousands of young children who know what it's like to live with a parent experiencing mental illness, helping them to understand — in an age appropriate and sensitive way — that it is okay for them to feel mad or sad about their parent's illness, but that, while their parent is getting better, they may have to do different things together to preserve their relationship, such as reading stories or drawing pictures, instead of the imaginative play their parent cannot currently envision through the haze of mental illness. Through wondrous illustrations and a compelling story, young children can understand the importance of mental health discussions and that sometimes they must adapt their interactions while the people in their lives focus on their mental health.
