

The Homosexualization Of America The Americanization Of The Homosexual

La fractura de las identidades LGBT bajo el capitalismo neoliberal - La Izquierda Diario

Friday essay: my brush with Susan Sontag and other tales from the ... - *The Conversation*

Encyclopedia of Gay Histories and Cultures - George Haggerty 2013-11-05

First Published in 2000. Routledge is an imprint of Taylor & Francis, an informa company.

Gays, Lesbians, and Consumer Behavior - Daniel L. Wardlow 2014-01-02

Marketing practitioners have begun to target gays and lesbians as consumers, although little is known about their buying behavior, expectations in consumption, or of their treatment in the marketplace. *Gays, Lesbians, and Consumer Behavior* is the first attempt at presenting the roles, treatment, and expectations of gays and lesbians as consumers in the marketplace. It asserts that homosexuality often entails a fully elaborated lifestyle, many details of which revolve around, and reflect differences from, mainstream society. These findings are of practical value since consumers, businesses, channels of distribution, and media forms are all segmented, addressing a diversity of attitudes and behaviors and reaching consumers through targeted marketing. In *Gays, Lesbians, and Consumer Behavior*, Editor Daniel L. Wardlow brings together research which builds upon the theoretical and empirical bases of consumer behavior. Each chapter contributes to an understanding of consumption in the gay and lesbian subculture and raises a series of questions and ethical concerns to guide future research in this area. Chapters center on the four broad themes of consumption rituals, presentation through consumption, discrimination and tolerance, and application and accommodation. Specific topics covered include: ritualistic consumption in a sub-cultural context lesbian consumption of lesbian imagery discrimination issues in retail customer service and hotel reservations effects of homosexual imagery on advertising gift-giving behavior among homosexuals using marketing in HIV/AIDS prevention counseling market profiling and strategy suggestions accommodating gays and lesbians as consumers in the marketplace The research presented in *Gays, Lesbians, and Consumer Behavior* draws from a diverse collection of academic disciplines and fields of inquiry to present a glimpse at the consumption behavior of gay men, lesbians, and bisexuals, and at the marketing response to these different populations. As a pioneering effort, *Gays, Lesbians, and Consumer Behavior's* scope is not comprehensive, but deliberately broad to allow researchers to delineate avenues for subsequent research. Many of the chapters are empirical or descriptive in nature and contain insights for academic and practitioner alike. Academics in marketing, psychology, sociology, consumer behavior, gay and lesbian studies, and cultural anthropology will find this a valuable addition to their reading material. Marketing, advertising, and retailing professionals will be able to put the information and findings to practical use as they aim to reach more consumers and broaden their audience.

The Black Studies Reader - Jacqueline Bobo 2004

A long overdue look at the central role Black studies has played within academic life and culture, this volume explains how, as a truly transdisciplinary field, Black studies brought nonwhite Barbies, the pragmatics of political activism, and profound educational initiatives into the classroom.

Psychopathology and Psychotherapy in Homosexuality - Michael W. Ross 1988

An up-to-date review of the full range of affirmative treatments and therapies for lesbian and gay clients.

The Case for Gay Rights - David A. J. Richards 2005

As Americans wrestle with debates over traditional values, defense of marriage, and gay rights, reason often seems to take a back seat to emotion. In response, legal scholar Richards reflects upon the constitutional and democratic principles--relating to privacy, intimate life, free speech, tolerance, and conscience--that underpin these often heated debates. The distillation of Richards's thirty-year advocacy for the rights of gays and lesbians, his book provides a reflective treatise on basic human rights that touch all of our lives. He places in context two key Supreme Court cases: the 1986 *Bowers v. Hardwick* decision, and the 2003 *Lawrence v. Texas* decision which overturned it. Drawing upon his own experiences as a gay man, Richards interweaves personal observations with philosophical, political, judicial, and psychological insights

to make a case that gays should be entitled to the same rights and protections that every American enjoys.-- From publisher description.

Passion and Power - Kathy Lee Peiss 1989

Passion and Power brings together some of the most recent and innovative writings on the history of sexuality and explores the experiences, ideas, and conflicts that have shaped the emergence of modern sexual identities. Arguing that sexuality is not an unchanging biological reality or a universal natural force, the essays in this volume discuss sexuality as an integral part of the history of human experience. Articles on sexual assault, homosexuality, birth control, venereal disease, sexual repression, pornography, and the AIDS epidemic examine the ways that sexuality has become a core element of modern social identity in the nineteenth- and twentieth-century United States. It is only in recent years that historians have begun to examine the social construction of sexuality. This is the first anthology that addresses this issue from a radical historical perspective, examining sexuality as a field of contention in itself and as part of other struggles rooted in divisions of gender, class, and race. Author note: Kathy Peiss is Associate Professor of History and Women's Studies at the University of Massachusetts at Amherst and author of *Cheap Amusements: Working Women and Leisure in Turn-of-the-century New York* (Temple). >P>Christina Simmons is Assistant Professor of History at the University of Cincinnati-Raymond Walters College.

Gay and Lesbian Politics - Mark Blasius 1994

An active participant in and theorist of the gay and lesbian movement, Mark Blasius contends that being gay or lesbian is by definition political. By extension, the phenomenon of a movement founded on collective identity is a quintessential part of American politics. The continually rising public consciousness of the needs and interest of gays and lesbians provides Blasius with a vehicle for showing how a particular aspect of human life comes to assume political dimensions. Upon this premise, he analyzes the process of how power is exercised through sexuality and traces the historical conditions that have made possible a gay and lesbian politics Drawing on works of political philosophy, social science, including Foucault, and gay and lesbian studies, Blasius explores the invention of a gay and lesbian ethos, through which participation, even for apolitical gays and lesbians, goes beyond a shared culture and perspective. It is a way of life more encompassing than either sexual orientation or lifestyle alone. Though he acknowledges and reflects upon the divergent range of gay and lesbian experiences, Blasius provides a framework based on theories of power, sexuality, and ethics that elaborates the significance of the movement as a whole within contemporary society. Author note: Mark Blasius, Associate Professor of Political Science at City University of New York, LaGuardia, is the co-author of *We Are Everywhere: An Historical Sourcebook in Gay and Lesbian Politics*.

African American Literary Theory - Winston Napier 2000-07

Fifty-one essays by writers such as Langston Hughes, W.E.B. Du Bois, Ralph Ellison, and Zora Neale Hurston, as well as critics and academics such as Henry Louis Gates, Jr. examine the central texts and arguments in African American literary theory from the 1920s through the present. Contributions are organized chronologically beginning with the rise of a black aesthetic criticism, through the Black Arts Movement, feminism, structuralism and poststructuralism, queer theory, and cultural studies. Annotation copyrighted by Book News Inc., Portland, OR

Queer Words, Queer Images - R. Jeffrey Ringer 1994

In many arenas the debate is raging over the nature of sexual orientation. *Queer Words, Queer Images* addresses this debate, but with a difference, arguing that homosexuality has become an issue precisely because of the way in which we discuss, debate, and communicate about the concept and experience of homosexuality. The debate over homosexuality is fundamentally an issue of communication—as we can see

by the recent controversy over gays in the military. This controversy, termed by one gay man as the annoying habit of heterosexual men to overestimate their own attractiveness, has been debated in communication-sensitive terms, such as morale and discipline. The twenty chapters address such subjects as gay political language, homosexuality and AIDS on prime-time television, the politics of male homosexuality in young adult fiction, the identification of female athleticism with lesbianism, the politics of identity in the works of Edmund White, and coming out strategies. This is must reading for students of communication practices and theory, and for everyone interested in human sexuality. Contributing to the book are: James Chesebro (Indiana State), James Darsey (Ohio State), Joseph A. Devito (Hunter College, CUNY), Timothy Edgar (Purdue), Mary Anne Fitzpatrick (Wisconsin, Madison), Karen A. Foss (Humboldt State), Kirk Fuoss (St. Lawrence), Larry Gross (Pennsylvania), Darlene Hantzis (Indiana State), Fred E. Jandt (California State, San Bernardino), Mercilee Jenkins (San Francisco State), Valerie Lehr (St. Lawrence), Lynn C. Miller (Texas, Austin), Marguerite Moritz (Colorado, Boulder), Fred L. Myrick (Spring Hill), Emile Netzhammer (Buffalo State), Elenie Opffer, Dorothy S. Painter (Ohio State), Karen Peper (Michigan), Nicholas F. Radel (Furman), R. Jeffrey Ringer (St. Cloud State), Scott Shamp (Georgia), Paul Siegel (Gallaudet), Jacqueline Taylor (Depaul), Julia T. Wood (North Carolina, Chapel Hill).

The Anatomy of Prejudices - Elisabeth Young-Bruehl 1998

Among the many forms of prejudice, Young-Bruehl pays particular attention to four - antisemitism, racism, sexism, and homophobia - which she exposes in their distinctiveness and their similarities.

Homosexuality and Psychoanalysis - Tim Dean 2001-06

Why has homosexuality always fascinated and vexed psychoanalysis? This groundbreaking collection of original essays reconsiders the troubled relationship between same-sex desire and psychoanalysis, assessing homosexuality's status in psychoanalytic theory and practice, as well as the value of psychoanalytic ideas for queer theory. The contributors, each distinguished clinicians and specialists, reexamine works by Freud, Klein, Reich, Lacan, Laplanche, and their feminist and queer revisionists. Sharing a commitment to conscious and unconscious forms of homosexual desire, they offer new perspectives on pleasure, perversion, fetishism, disgust, psychosis, homophobia, AIDS, otherness, and love. Including two previously untranslated essays by Michel Foucault, *Homosexuality and Psychoanalysis* will interest cultural theorists, psychoanalysts, and anyone concerned with the fate of sexuality in our time.

Homosexual Desire in Revolutionary Russia - Dan Healey 2012-04-26

The first full-length study of same-sex love in any period of Russian or Soviet history, *Homosexual Desire in Revolutionary Russia* investigates the private worlds of sexual dissidents during the pivotal decades before and after the 1917 Bolshevik Revolution. Using records and archives available to researchers only since the fall of Communism, Dan Healey revisits the rich homosexual subcultures of St. Petersburg and Moscow, illustrating the ambiguous attitude of the late Tsarist regime and revolutionary rulers toward gay men and lesbians. *Homosexual Desire in Revolutionary Russia* reveals a world of ordinary Russians who lived extraordinary lives and records the voices of a long-silenced minority.

Gays and the Military - Marc Wolinsky 1993-09-07

In April 1987 Joseph C. Steffan, one of the ten highest ranking midshipmen in his class at the U.S. Naval Academy, and only six weeks from graduation, was denied his diploma and forced to resign his commission because he answered "Yes, sir" to the question, "I'd like your word, are you a homosexual?" Six years later his cause, and that of other gay men and lesbians seeking to serve their country by enlistment in the military, has become the subject of intense national controversy. This unusual and innovative work, based on the litigation strategy and court papers filed in the case of *Joseph C. Steffan v. Richard Cheney, Secretary of Defense, et al.*, brings the resources of clinical psychiatry, clinical and social psychology, cultural history and political science to bear upon the fundamental questions at issue: How is sexual orientation determined? How and why have socially prejudiced stereotypes about male and female homosexuals developed? Why have gays faced special obstacles in defending themselves against

discrimination? How much political power do gays have? Marc Wolinsky and Kenneth Sherrill argue that gays constitute a politically powerless class that has been unjustly deprived of its constitutional right to equal protection under the law. They have collected here the affidavits filed on behalf of Joseph Steffan in his suit against the United States government, together with the counter-arguments of the Department of Defense and the extraordinary opinion of the U.S. District Court for the District of Columbia. Whatever the outcome of the case, presently on appeal to the United States Court of Appeals for the District of Columbia Circuit, this book will stand as a lasting and indispensable guide to the sources of sexual discrimination.

LGBT Studies and Queer Theory - Karen Lovaas 2013-05-13

Find out how the tension between LGBT studies and queer theory exists in the classroom, politics, communities, and relationships *LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain* examines the similarities and differences between LGBT studies and queer theory and the uneasy relationship between the two in the academic world. This unique book meets the challenge that queer theory presents to the study and politics of gay and lesbian studies with a collection of essays from leading academics who represent a variety of disciplines. These original pieces place queer theory in social and historical contexts, exploring the implications for social psychology, religious studies, communications, sociology, philosophy, film studies, and women's studies. The book's contributors address queer theory's connections to a wide range of issues, including the development of capitalism, the evolution of the gay and lesbian movement, and the study of bisexuality and gender. Many scholars working in gay and lesbian studies still question the intellectual and political value of queer theory. As a result, queer theory has often been concentrated in the humanities, while gay and lesbian studies are concentrated in the social sciences and history. But this has begun to change in the past 10-15 years, as documented by the 12 essays presented in *LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain*. *LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain* includes: historical notes on LGBT studies and queer theory some continuing tensions between LGBT studies and queer theory doubts about whether queer theory can lead to social change an analysis of the current state of "proto-fields" of LGBT studies and queer studies in religion concerns that queer theory's "erasure of identity" feeds into late capitalism an analysis of variability in social psychologists' studies of anti-homosexual prejudice an exploration of the commodification of queer identities in independent cinema how and why the category of bisexuality has been marginalized a historical review and assessment of recent bisexual theory a case study of Provincetown, Massachusetts an investigation of the interarticulation of race/ethnicity and gender a case study of the struggle to introduce LGBT studies in the curriculum at West Chester University and much more *LGBT Studies and Queer Theory: New Conflicts, Collaborations, and Contested Terrain* is an essential read for researchers, academics, and practitioners involved in exploring multifaceted aspects of LGBT Studies and Queer Theory and their points of convergence and divergence.

A Church of Our Own - R. Stephen Warner 2005

In this definitive collection of essays spanning fifteen years, R. Stephen Warner traces the development of the "new paradigm" interpretation of American religion. Originally formulated in the 1990s in response to prevailing theories of secularization that focused on the waning plausibility of religion in modern societies, the new paradigm reoriented the study of religion to a focus on communities, subcultures, new religious institutions, and the fluidity of modern religious identities. This perspective continues to be one of the most important driving forces in the field and one of the most significant challenges to the idea that religious pluralism inevitably leads to religious decline. A leading sociologist of religion, Warner shows how the new paradigm stresses the role that religion plays as a vehicle for the bonding and expression of communities within the United States--a society founded on the principle of religious disestablishment and characterized by a diverse and mobile population. Chapters examine evangelicals and Pentecostals, gay and lesbian churches, immigrant religious institutions, Hispanic parishes, and churches for the deaf in terms of this framework. Newly written introductory and concluding essays set these groups within the broad context of the developing field. A thoughtfully organized and timely collection, the volume is a valuable classroom resource as well as essential reading for scholars of contemporary religion.

The Treatment of Homosexuals With Mental Health Disorders - Michael W Ross 2014-05-22

A major text for clinicians and researchers who have an interest in homosexuality and homosexual patients

with mental disorders, this book is an up-to-date review as well as a handbook covering the full range of affirmative treatments and therapies for lesbian and gay clients. Expert contributors look at problems caused by stigma and homophobic societal attitudes and discuss methods that can be used to work with gay clients in a positive context. Other issues of particular importance in working with lesbians and gay men are addressed.

Homosexuality and Family Relations - Marvin B Sussman 2012-11-12

The first book of its kind, *Homosexuality and Family Relations* focuses on the effects of homosexuality and being homosexual on individuals in families and on the family as a group. Edited by Frederick W. Bozett, RN, DNS, and Marvin B. Sussman, PhD, this informative and enlightening volume examines the multiple varieties of family forms in which gay men and lesbians live, addresses the ramifications of homosexuality on family relationships, and explores the countless aspects of parenthood as they are experienced by gay men and lesbians, including adoption and foster care by lesbians and gay men, and the choice of increasing numbers of lesbians to bear children through artificial fertilization. Any professional who is interested in the family--educators, clinicians, academicians, researchers, and students, as well as others interested in families and in human sexuality and men's and women's studies--family science, gay studies, nursing, medicine, law, psychology, sociology, social work--will find this book useful, insightful, and unique.

Sexuality and Its Discontents - Jeffrey Weeks 2002-05-03

Few topics evoke so much anxiety and pleasure, pain and hope, discussion and silence as sexuality.

Throughout the Christian era it has been a major moral preoccupation. Since the eighteenth century it has also been the focus of 'scientific' exploration and political activity. But, despite this obsessive concern, we are still as baffled as our predecessors about the 'true' meaning of sex. In this book Jeffrey Weeks unravels the dense web of historical, theoretical and political forces that have culminated in the contemporary crisis of sexual meanings and values. The book begins with a powerful evocation of our present discontents and their potent signs: the rise of the New Right, the retreat of progressive forces and a wave of moral panics around sex. It argues that this crisis is rooted in a tradition which has ascribed an inflated importance to sexuality, whilst claiming a privileged access to truth. The author then examines radical debates of recent years, and asks whether they contain the potentiality for taking us beyond the existing boundaries of sexuality. From this analysis emerges a controversial 'radical pluralist' approach to sexuality built on an acceptance of diversity and choice. By linking our present discontents to a clear understanding of the past, Jeffrey Weeks presents a rational, optimistic and challenging vision of a realizable future.
