Close the Door Softly As You Go - Laurel Elizabeth Keyes
1982-01-01

This book offers a beautiful series of stories reflecting transitions of life, emotional maturation and its gifts. Every time we grow to a new

understanding, we die a little to the old, so life becomes many deaths, the closing of many doors. The wise person is one who walks through each new doorway to a new life, letting the old one close behind without regret, or despair, or

clinging hold. Whatever your problem may be, know that the same one has been met and conquered by someone, with bravery and with understanding. Facing the problem and overcoming it will make you a better, happier person because by that effort, you will release your Imprisoned Splendor.

Seeing Through Your Illusions - Laurel Elizabeth Keyes 1983

In this book Paul Chivington presents an exciting challenge to each of us to be able to look at life, the world, and the universe in a totally new light. Based upon the principles of holography, Paul and Laurel Keyes show us how to break through every day illusions and see the truth. From Hologram Therapy to Quantum Physics and the Power to be Conscious, you will experience new doors of perception opening before your mind. You will find your consciousness unfolding along with the book as you read it. Paul has the amazing ability to take difficult concepts from the Quantum Physicists like

Rupert Sheldrake, Fred Wolf, Ken Wilber, Karl Pribram and Michael Talbot and communicate in very clear, concise language. The authors have succeeded in making a rather complex subject quite clear and easy to understand. This allows you to share in their excitement about the dawning of a new age of understanding.

Born Together—Reared Apart - Nancy L. Segal 2012-06-18
The Minnesota Study of Twins Reared Apart startled scientists by demonstrating that twins reared apart are as alike, across a number of personality traits and other measures, as those raised together, suggesting that genetic influence is pervasive. Segal offers an overview of the study's scientific contributions and effect on public consciousness.

The Mystery of Sex - Elizabeth Keyes 1975

What causes men and women to have almost opposite concepts of the word 'love'? Why do men feel superior to women? Why do women find it

easier to use intuition than logic? Why can men fight, shake hands and forget it, but women who fight never forget it? Why the importance given virginity in women but not in men? Why have women revolted against their natural role of motherhood? Why homosexuality? Are we missing greater experiences by confining sex to a physical level? These and other questions are answered in this book, from sources of ancient and modern wisdom, gathered by the author over many years of study and research. Sex is one of the most dominating subjects of our time. It is substituted for love; it is used with love and without love. People are confused about it. Some do not know which sex they are. It is the most misunderstood, misused and commercialized force in our culture. Polarity exists on every level, and is essential to the creation of all life. An understanding of this principle brings harmony out of conflict; cooperation instead of competition.

Dust Thou Art - Laurel Elizabeth Keyes 1973

This book is about Laurel Keyes own experiences growing up on a high plains ranch, and stories of those family members, friends and neighbors from whom she learned decency, kindness, strength and character. Those pioneers could not have been plunged into a vast, rugged land of beauty and hardship without courage and drama having been a part of their lives, and often they held secrets which were revealed only through death. Laurel writes of rich and passionate stories of courage and hope in a most difficult and wonderful period of our history. She gives credit not only to the valiant spirit of the majority of the people, especially the women, who came West and lived here, but to help you recapture the feeling of the world they knew their sufferings and endurance, their humor and faith, the every-day living which brought people from oxen-drawn covered wagons to men on the moon in less than

one century. The most incredible century in all history, the most discoveries, innovations, fantastic developments which we accept today as a springboard into an even greater futureâbegan with people such as these.

How to Win The Losing Fight - Elizabeth Keyes 1973

A practical approach to weight management successfully used for more than 50 years by people of many nationalities. Laurel Keyes teaches you how to eat what you want until you are completely satisfied. This method works! Instead of looking for ?what?s wrong with you,? we look for ?what?s right.? As a sculptor focuses attention on the image of the finished statue he intends to bring out of the stone, letting chips from his chisel fall away unnoticed, so do we keep a picture of the potentialities of each person before us?we help the Real Person emerge from his or her prison of fat, and let the faults and failures drop away as they will.If you have tried everything and you believe that nothing will

conquer your weight and appetite and that no one understands your problem, you are wrong. Laurel Keyes struggled with an overweight problem all of her life and could not lose at all. ?My will power was exhausted.?She was convinced that the chief factor in treating obesity had been overlooked. Treatment had been for the result of overeating instead of the cause. She found a way to do it and lose weight, and keep it off!

Discussion of Happiness -

Laurel Elizabeth Keyes 1977

This little book gives clear, concise discussions of how we create our own happiness through duty, sincerity, planning, and many additional actions. There is a River of Truth which flows down through the ages. Its waters nourish all religions and all philosophies and whatever it is that makes people strive to be better than they find themselves to be. Essence from that River has been fashioned to fill the needs of every nation and every time. The River can no more be confined to one people or one name than rain clouds can be possessed by one race or one person. Its Living Waters have trickled down through fairy tales, folk lore, operas, myths, and legends which have lived through centuries, as well as in every holy book that has been written. Yet, through all the

years of telling and retelling of man's search to know Truth, the River has remained the same.

The Jumbee - Pamela Keyes
2010-10-14

When Esti Legard starts theater school on Cariba, she's determined to step out of the shadow of her late father, a famous Shakespearean actor. But on an island rife with superstition, Esti can't escape the darkness. In the black of the theater, an alluring phantom voice-known only as Alan-becomes her brilliant drama tutor, while in the light of day Esti struggles to resist her magnetic attraction to Rafe, the local bad boy. Toppled sets, frightening rumors of jumbee ghosts, and brewing tropical storms culminate in a tantalizingly spooky finale where romance sizzles and truths are unmasked. Laced with eerie mystery and the lush scenery of the West Indies, this modern Phantom is perfect for readers who like their love stories served with spine-tingling suspense.

Rethinking Gender in Popular Culture in the 21st

Century - Astrid M. Fellner
2017-11-06

This book explores popular culture representations of gender, offering a rich and accessible discussion of masculinities and femininities in 21st-century popular media. It brings together contributors from various European countries to investigate the workings of gender in contemporary pop culture products in a brave, original, and rigorous way. This volume is both an academic proposal and an exercise of commitment to a serious analysis of some of the media that influence us most in our everyday lives. Representation matters, and the position we take as viewers or consumers during reception matters even more.

The Way of the Beloved -
Robert Arsdale 2016-11-18

The foundation of the Way of the Beloved is discovered in the heart of love itself, where there lives and moves a will to exaltation of the other. To truly love another is to will the

spiritual ideal upon that beloved one. When there is a mutual intention to exalt infusing the daily life of a man and woman, they enter into the Way of the Beloved. This handbook is an attempt to put into book form what authors Robert and Diana Van Arsdale have been teaching to small groups of couples since 1976. Their workshops offer an ageless set of protocols for the transformation of the love relationship between a woman and a man into a path of spiritual development. Here they present an integrated body of progressive, experiential exercises and meditations that were taught originally taught by Herman Rednick. Simply stated, The Way of the Beloved teaches a couple how to actualize the potential of their relationship through the intensification of love and compassion. Designed for couples in search of spiritual and emotional exploration, this guide offers methods intended to help them realize a vision of love fulfilled.

Romance - Martha Keyes
2019-07-01

Kate Matcham needs a fortune or a husband. She wants neither. With a tainted inheritance in the balance, she receives one offer to become a scoundrel's mistress and another offer of a marriage of convenience. Before resigning herself to a choice, she accepts the invitation to visit a childhood friend, considering it a last hurrah before embarking on a bleak future. The visit goes sideways when she falls for the gentleman her friend intends to marry, a man well out of Kate's league--and one who seems to be hiding something. Smuggling has overtaken the county, and it seems that everyone is complicit in the trade that killed her father. One by one, her options dwindle as she struggles against her strengthening feelings for a duplicitous man, a determination not to hurt her friend, and keeping the promise she made long ago: to stand up to the people who killed her father.

The Brightest Star in the Sky -
Marian Keyes 2011-02
June the first, a bright summer's evening, a Monday . . .
. And into the busy, bustling homes at 66 Star Street slips, unseen, a mysterious visitor. As the couples, flatmates and repentant singletons of No 66 fall in and out of love, clutch at and drop secrets, laugh, cry and simply try to live, no one suspects the visitor patiently waiting in the wings. For soon, really very soon, everything is going to change . . .

Living Can Be Fun - Elizabeth Keyes 1979-01-01

Our reactions and attitudes are the framework of our lives. Realizing how we unconsciously react and what our beliefs and attitudes are can enable us to change them and make living not simply survival, but fun.
