Control of Rape - Suzanne S.
Ageton 1985

Taking Action to Prevent
Adolescent Violence - 1995

Lesson guide for captioned
films, XX - 1984

Rape in America - Rob Hall
1995-06

The book examines the legal
definition of rape, identifies the
nature of sexual assault

through a review of common
rape myths, presents a
description of rapist types and
motivations, and offers
statistical profiles of both
rapists and victims. Pros and
cons of major response options
to sexual assault are identified,
and legal, medical, and
psychological procedures and
ramifications of rape are
discussed. Because the book
compiles a wide variety of
current information sources, it
should be helpful to students,
scholars, researchers,
journalists, administrators and
victim advocates of women's
shelters and rape crisis
centers, rape prevention
instructors, legislators and
policymakers, law enforcement
personnel, and interested
laypersons. Book chapters

specifically deal with the cycle of rape victimization, pornography, and problems with sexual assault studies. Additional chapters consider procedures, trends, and developments related to law enforcement, judicial, and correctional systems and to the medical treatment of sex offenders. A directory of major providers of services for victims and offenders and an annotated bibliography of print and nonprint resources for further research are included. References and figures.
Top Secret - 1982

The Police Chief - 1983

Sexual Assault and Child Sexual Abuse - Linda Webster 1989

Includes "approximately 2,700 local agencies/organizations, and 100 national organizations ... concerned with sexual assault and child sexual abuse." Main section contains agency profiles, geographically arranged. Entries give such information as type of agency, clients and services, and

languages used. Miscellaneous appendixes.

Child Sexual Abuse Prevention - Cordelia Anderson 1983

Child Sexual Abuse - Christopher Bagley 2003-09-02
A comprehensive overview of the causes, treatment and prevention of child sexual abuse which approaches the problem from the perspectives of the victims, their families and the offenders themselves.

Focus on Sexuality - Elizabeth Ann Poe 1990
Introduces teens to various aspects of sexual development during adolescence, such as physical changes, pregnancy, birth control, and sexually transmitted diseases. Includes annotated lists of fiction, nonfiction, and nonprint materials, as well as hotlines and organizations related to each topic.

Challenging Ourselves - Metropolitan Toronto School Board 1996

The reproducible worksheets and activities in this timely book will help students learn to

identify sexist behaviour and find positive ways of relating to each other. Novel approaches to conflict resolution will help students make constructive changes in their attitudes and behaviour. Useful background information and three complete units of study are included that progress naturally from issues of the self and gender images through interpersonal relationships and sexism to more specific issues of family and dating violence and conflict resolution.

No is Not Enough - Caren Adams 1984

Talking with Your Teenager - Ruth Bell 1983

Discusses the problems that challenge the adolescent, including smoking, drinking, drugs, and sex.

Health Promotion - 1986

Group Protocols - Diane Gibson 2014-04-04

Here is a valuable book intended to help those occupational therapists working in mental health settings to refine their critical

thinking about the group activities they select and the protocols they design. Experts focus on practicing sound clinical reasoning and clinical decision making to ensure careful assessment of which activities, structured in what fashion, are appropriate for particular populations. They also address the topic of providing services that are relevant, practical, have already delineated goals and objectives, produce outcome data, and can be replicated across settings. Group Protocols: A Psychosocial Compendium offers readers a systematic approach to the assessment and design of group protocols, plus a wide variety of sample protocols from which treatment strategies may be drawn.

Because this volume represents a style of thinking rather than a singular theoretical frame of reference, it will be useful to any occupational therapist for whom groups are an essential aspect of professional practice.

Sexuality Education - Carol Cassell 2017-05-18

Originally published in 1989. This book describes a variety of ways to plan and implement sexuality education and provides in-depth information on resources available. Each contributor describes one aspect of the practice of sexuality education: its goals, theory, planning and development, implementation, evaluation, teacher-training, or the role of community agencies. Articles in each section offer practical and useful guidelines for conducting sexuality education and also serve as a sound introduction to the subject. Annotated bibliographies appear at the end of each section.

Child Sexual Abuse - Diane H. Schetky 2014-01-09

First published in 1988. Child sexual abuse involves the exploitation of a child for the sexual gratification of an adult. A narrower form of child sexual abuse is incest, which refers to

the sexual exploitation of the child by another family member. This book provides us a comprehensive and comprehensible current account of what is known and what is not known on the subject of child sexual abuse. Drs. Schetky and Green, both highly skilled and talented child psychiatrists, have a wealth of information and experience that they share in an admirably straightforward and sensible way. They pull no punches, providing the available data, and where no adequate scientific data are available, they draw on their considerable practical knowledge. Each problem area is faced directly and forthrightly, making this book the single-most useful volume for all health care and legal professionals who work with sexually abused children and their families.
