**How to Sexually Satisfy Your Woman** - Peter Suenos 2020-10-20

There are few things that can compare with the wonderful feeling of being in love. In fact, that feeling gets to the peak when it is accompanied with mind blowing sex regularly. But sometimes beyond the initial excitement, the happy relationship soon run into troubled waters due to the actions and inactions of one or both partners. In some cases, they make up and move on; at other times, the relationship is never the same again and they both have to endure the relationship. For you to be able to win your woman's heart you have to learn how to satisfy her sexual desires. No woman wants to stay with a man who will not be able to satisfy her sexual

desires because it could make her look outside the relationship for someone who can do that for her. Most men only focus on getting their satisfaction during sexual intercourses so much that once they reach orgasm they fill satisfied not even minding if their woman has reached hers or not. For you to be able to be able to satisfy her sexual desires very well you have to know that sexual orgasm most often occurs faster in men than in women. In this book, I am going to write exclusively on the steps you need to follow to satisfy the sexual desires of your woman.

The Technology of Orgasm - Rachel P. Maines 2001-06-15

The author explores hysteria in Western medicine throughout the ages and examines the characterization of female sexuality as a disease requiring treatment. Medical authorities, she writes, were able to defend and justify the clinical production of orgasm in women as necessary to maintain the dominant view of

sexuality, which defined sex as penetration to male orgasm - a practice that consistently fails to produce orgasm in a majority of the female population. This male-centered definition of satisfying and healthy coitus shaped not only the development of concepts of female sexual pathology but also the instrumentation designed to cope with them.

**Super Sexual Orgasm** - Barbara Keesling, PhD  
2009-03-17

Sex is one of the purest forms of human endeavor--the ultimate arena of sharing between people. It is the nourishing confluence of so many special elements: touch, physicality, communication, play, arousal, and intimacy. So why so often does the entire focus of sex for women become: Will I have an orgasm or won't I? Wouldn't it be wonderful--for both men and women--if female orgasm were no longer an uncertainty, but rather, a given? Dr. Barbara Keesling allows this fantasy of sexual fulfillment to be any woman's reality--following her unique

exercises designed to strengthen and gain control over a little-known, rarely exercised internal area of the female body, it is possible for all women to control and guarantee orgasm! Once loving partners are no longer worried about climax, the pressure often associated with lovemaking gives way--and sex can reach its full potential. To this end, Dr. Keesling paves the way for wonderful sensual payoffs by including racy and romantic exercises to help couples rediscover that sex is much more than striving for a big finish--it's the sensual stops along the way that make it worthwhile.

**Sex Guide All about Positions and How to Make Her Happy** - Tino Mario 2017-02-24

If you want to make your woman beg for more, you need to understand the way that the female mind works. There is a vast difference between what men see as sexual satisfaction and what a woman experiences as satisfaction. In this guide, I'll show you the difference. There's no beating

around the bush. The positions suggested are those that will make her beg for bedtime and want to be in your embrace. We have also included a section on positions and behaviors to avoid. These are seen as turn-offs for women and it is unlikely that you will gain any points in the bedroom if your behaviors fall into this category. Learn to play the role of the lover, rather than thinking about your own pleasure. Her pleasure assures your pleasure in a way that you never thought possible. Believe me, the positions detailed in this book will give you the edge. The exact percentage of women who come out of the bedroom without having had an orgasm is higher than you may imagine and most of this is unnecessary. Men being unaware of what it takes to make a woman climax is often the cause. The positions mentioned in the book put her in control to a certain degree and to involve her in the equation will also make sex better for you. Often men don't take the time. They believe that making love is more of an animal instinct,

whereby woman need more than that. Their needs are almost always going to be emotional and I explain just which positions will make her feel secure enough to allow her the luxury of equality in the bedroom. The male and female psyche is different. Once you understand how that works, you are in a better position to please her and to actually make her climax every time you make love. It doesn't have to be the hit and miss affair. Lovemaking can be a wonderful experience that brings intimacy into the picture. When it does, you are much more likely to keep your woman interested and willing to try out new things. The book explains how. Here is a Preview of what you'll Learn... The Male and Female Psyche Positions That She Will Love Positions That Allow Fantasies to Become Realities Experimental Sexual Positions And Much, Much More!
