Football - Stephen Mumford 2019-05-13

Football is the most popular sport on the planet partly because it's so simple to play - but as philosopher, novelist and avid fan Stephen Mumford shows, behind the straightforward rules of the game there lurks a world of intriguing complexity. Mumford considers the intellectual basis upon which football rests, guiding readers through a number of issues at the heart of the game. How can a team be greater than the sum of its individual players? What is the essential role of chance? Should we want to win at all costs? What does it mean to control space? And can true beauty be found in football? Rich with colourful examples from football's past and present, Mumford's book is both a love letter to football and a reflection on its enduring capacity to enthrall and excite.

Jacques Ellul and the Technological Society in the 21st Century - Helena M. Jerónimo 2013-07-08

This volume rethinks the work of Jacques Ellul (1912-1994) on the centenary of his birth, by presenting an overview of the current debates based on Ellul's insights. As one of the most significant twentieth-century thinkers about technology, Ellul was among the first thinkers to realize the importance of topics such as globalization, terrorism, communication technologies and ecology, and study them from a technological perspective. The book is divided into three sections. The first discusses Ellul's diagnosis of modern society, and addresses the reception of his work on the technological society, the notion of efficiency, the process of symbolization/de-symbolization, and ecology. The second analyzes communicational and cultural problems, as well as threats and trends in early twenty-first century societies. Many of the issues Ellul saw as crucial - such as energy, propaganda, applied life sciences and communication - continue to be so. In fact they have grown exponentially, on a global scale, producing new forms of risk. Essays in the final section examine the duality of reason and

revelation. They pursue an understanding of Ellul in terms of the depth of experience and the traditions of human knowledge, which is to say, on the one hand, the experience of the human being as contained in the rationalist, sociological and philosophical traditions. On the other hand there are the transcendent roots of human existence, as well as "revealed knowledge," in the mystical and religious traditions. The meeting of these two traditions enables us to look at Ellul's work as a whole, but above all it opens up a space for examining religious life in the technological society.

Scarlet Soul, Volume 1 - Kira Yukishiro 2019-12-13

The kingdom of Nohmur has been a peaceful land for humans since the exorcist Eron Shirano repelled the demons and sealed the way to the underworld of Ruhmon. Generations later, sisters Lys and Rin are the heirs of the illustrious Shirano family, the most powerful exorcist clan charged with watching over the barrier and maintaining balance between the two worlds with the aid of Hikaten, the Sword of a Hundred Souls. Until one day, for unknown reasons, demons begin slipping through once more... and suddenly, Lys vanishes without a trace, leaving the sacred sword behind for her

little sister to take up. As the underworld threat grows, Rin sets out alongside her companion, the mysterious Aghyr, to find her missing sister and figure out how to fortify the weakening barrier between her world and that of the monstrous creatures that threaten her kingdom once again.

Last Day on Earth - Eric Puchner 2017-02-21

A boy on the edge of adolescence fears his mother might be a robot; a psychotically depressed woman is entrusted with taking her niece and nephew trick-or-treating; a reluctant dad brings his baby to a coke-fueled party; a teenage boy tries to prevent his mother from putting his estranged father's dogs to sleep. Ranging from a youth arts camp to an aging punk band's reunion tour, from a dystopian future where parents no longer exist to a ferociously independent bookstore, the stories in this collection revolve around the endlessly complex, frequently surreal system that is family.

The Native American World Beyond Apalachee - John H. Hann 2006

This is the first book-length study to use Spanish language sources in documenting the original Indian inhabitants of West Florida who, from the late 16th century to the 1740s, lived to the west and the north of the Apalachee. Previous authors who studied the forebears of Creeks and Seminoles from the Chattahoochee Valley have relied exclusively on English sources dating from the second half of the 18th century, with the exception of John R. Swanton, who had limited access to Spanish records for his classic works from 1922 to 1946. In this history of the region's Native Americans, Hann focuses on the small tribes of West Florida--Amacano, Chine, Chacato, Chisca and Pansacola--and their first contacts with Spanish explorers, colonists, and missionaries. He also gives significant perspective to the forebears of the Lower Creeks, with an emphasis on the late 17th century, when Spanish documents recorded the important events of the interior regions of the Southeast. As Hann's fifth study of Florida natives, this book includes chapters on the Yamasee War and its aftermath and the early 18th-century dissolution of many societies and withdrawal of Spaniards from the region. This volume will be of great interest to archaeologists

working in the Lower Southeast, historians and ethnohistorians specializing in Native American or Spanish colonial history, Latin American and Caribbean scholars concerned with Spanish colonial contexts, and anyone interested in Native Americans or Florida history.

The Mysterious Death of Miss Austen - Lindsay Jayne Ashford 2011

When Jane Austen dies at the age of just 41, Anne, governess to her brother, Edward Austen, is devastated and begins to suspect that someone might have wanted her out of the way. Now, 20 years on, she hopes that medical science might have progressed sufficiently to assess the one piece of evidence she has - a tainted lock of Jane's hair. Natural causes or murder? Even 20 years down the line, Anne is determined to get to the bottom of the mysterious death of the acclaimed Miss Austen.

Bruegel in Detail - Manfred Sellink 2018-09-20

The perfect companion for the Bruegel year of 2019: an introduction to the famous painter through stunning large close-up details in a beautiful coffee table book. Flemish painter Pieter Bruegel the Elder (1525-1569), known for his beautiful landscapes and peasant scenes, is among the most popular artists in the history of Netherlandish painting. Reproducing all of Bruegel's best-known paintings, drawings and prints, this book reveals them as never before, in stunning large close-up details that showcase his mastery. Organized by his major themes - landscapes, daily life, biblical subjects and festive celebrations - it offers astonishing views of popular works of art such as *Hunters in the Snow*, *Peasant Wedding* and *The Tower of Babel*. The printings and drawings section includes his series on *Sins and Virtues*. Bruegel expert Manfred Sellink reveals how the painter introduced new subject matter into fine art and examines his use of landscape, perhaps the artist's greatest innovation.
