

Animals And Tourism Understanding Diverse Relationships Aspects Of Tourism

The Elephant Tourism Business - Eric Laws 2020-11-23

Elephant tourism is a growing activity in many countries across Asia and Africa and is popular with tourists from all parts of the world. Elephant tourism has grown rapidly, providing the only viable way for elephants and their owners to survive since the banning of logging. Old logging camps have been developed into sanctuaries for some elephants, but many other camps were established as entertainment centres, resulting in serious welfare issues for the elephants and their mahouts. The profits from elephant tourism in Asia have encouraged African operators to follow a similar business model. This book draws attention to the need for a comprehensive and rigorous focus on local solutions to improve the welfare of captive elephants, their mahouts and local residents, and to enhance tourists' experiences of elephant tourism.

Wilderness of Wildlife Tourism - Johra Kayeser Fatima 2017-05-08

Wildlife tourism is a growing multimillion-dollar industry within the hospitality and tourism industry. Wildlife tourism, in its simplest sense, is the creation of tour packages for watching wild animals in their natural habitats, and is particularly important in African and South American countries, Australia, India, Canada, Indonesia, Bangladesh, Malaysia, Sri Lanka, and Maldives, among others. This new book brings together the best voices in the field of wildlife tourism and provides a key understanding of wildlife tourism. It explores many important aspects of wildlife to date with related implications for various sectors, such as technology, education, corporations, and policymaking.

Tourist Behaviour - Philip L. Pearce 2019

Comprehensive and accessible, this Companion offers a thorough investigation into both traditional and fresh topics in tourist behaviour and experience. Arranged chronologically, the chapters examine tourist experience from the very idea of a tourist visit to the aftermath of returning home.

Wild Animals and Leisure - Neil Carr 2018-03-05

Wild animals form an integral component of the human leisure experience. They are a significant part of the leisure industry and are economically valuable entities. However, as sentient beings, animals also have rights and welfare needs, and, like humans, may also have their own leisure desires and requirements. This collection provides an in-depth analysis of the rights and welfare of humans and wild animals as the two relate to one another within the sphere of leisure studies. It examines a wide array of animals, such as wolves, elephants, dolphins and apes, in a diverse range of leisure settings in international locations, from captive wild animals in zoos, hunting, swimming with dolphins and animals used as educators and for tourist entertainment. This book provides a forum for future considerations of wild animals and leisure and a voice for animal welfarist agendas that seek to improve the conditions under which wild animals interact with and are engaged with by humans.

Corporate Sustainability and Responsibility in Tourism - Dagmar Lund-Durlacher 2019-05-03

This book offers essential insights into how the world's second largest industry, tourism, is responding to challenges involved in expanding the corporate social responsibility (CSR) concept to corporate sustainability and responsibility, referred to as CSR 2.0. It analyzes the typical setup of tourism with various types of commercial agents: corporations, small and medium sized enterprises, public-private partnerships, social enterprises and local cooperatives. In addition, the book examines a broad range of voluntary initiatives, the effectiveness of these efforts, and how contextual and wider policy features shape these relationships. The book is divided into three parts, the first of which elaborates on strategic drivers and rationales for CSR. In turn, the second part introduces readers to design approaches for CSR programs and envisaged impacts, while part three focuses on implementation, certification, reporting, and possible outcomes. Each part offers a mixture of theoretical perspectives, synthesis analyses and case studies. The respective chapters tackle a broad spectrum of tourism sub-sectors, e.g. the cruise industry, aviation, gastronomy, nature-based tourism, and urban destinations.

Tourism and Animal Welfare - Neil Carr 2018-05-25

Animals are among the most sought after tourist attractions and the

impact on them is a matter of concern to an increasing number of people. *Tourism and Animal Welfare* uniquely addresses the issue of animal welfare within the tourism experience. It explores important foundations such as the meaning of 'animal welfare' and its relation to ethics, animal rights and human obligations to animals. It also explores the nature and diversity of the position and role of animals within tourism. From students and academics to vets and those working within the tourism industry, this book will provide an engaging and thought-provoking read. It will also appeal to those with an interest in animal welfare, particularly in relation to the tourism industry. 'Tales from the front line' is the section of the book that provides the reader with the views and experiences of animal welfare organisations, individual leaders, tourism industry organisations and operators, and academic experts. These case studies and opinion pieces will encourage the reader to consider their own position regarding animals in tourism and their welfare.

Tourism in Development - Peter U.C. Dieke 2020-11-20

Over the last fifty years, tourism has become firmly established as a development option around the world. Commensurate with this, the study of tourism's developmental role has also expanded significantly. There now exists a broad understanding of the policies and processes, opportunities and challenges that apply to tourism's potential contributions to development. As the tourism environment now faces numerous challenges and transformations, it is timely to reflect on contemporary understandings of the relationship between tourism and development and to consider future directions. This thought-provoking volume challenges the orthodoxy of tourism and development, highlights past and current events and considers longer term repercussions and developments. It will be a relevant and enduring resource for academics and undergraduate and postgraduate students in tourism.

Communicating in the Anthropocene - C. Vail Fletcher 2021-02-04

The purpose of *Communicating in the Anthropocene: Intimate Relations* is to tell a different story about the world. Humans, especially those raised in Western traditions, have long told stories about themselves as individual protagonists who act with varying degrees of free will against a background of mute supporting characters and inert landscapes. Humans can be either saviors or destroyers, but our actions are explained and judged again and again as emanating from the individual. And yet, as the coronavirus pandemic has made clear, humans are unavoidably interconnected not only with other humans, but with nonhuman and more-than-human others with whom we share space and time. Why do so many of us humans avoid, deny, or resist a view of the world where our lives are made possible, maybe even made richer, through connection? In this volume, we suggest a view of communication as intimacy. We use this concept as a provocation for thinking about how we humans are in an always-already state of being-in-relation with other humans, nonhumans, and the land.

Advanced Research Methods in Hospitality and Tourism - Fevzi Okumus 2022-11-04

In the era of technology and big data, advanced and innovative research methods and conducting effective research to solve emerging problems in tourism and hospitality is critical, making *Advanced Research Methods in Hospitality and Tourism* a necessity for academics and practitioners.

Exploring non-human work in tourism - Jillian M. Rickly 2021-02-22

Critical animal studies is increasingly interfacing with tourism research in an effort to shed light on the various ways animals are incorporated into touristic experience. *Exploring non-human work in tourism: From beasts of burden to animal ambassadors* builds upon the theoretical connections of animal ethics, agency, and welfare as it foregrounds specifically the work that animals perform in the industry. While some types of animal labor are more readily identified, readers of this volume may be surprised by how many forms of animal labor are overlooked. Taking a widely international perspective, with cases from the Arctic, China, Costa Rica, China, Finland, Greece, Mexico, New Zealand, and the United Kingdom, this volume offers readers diverse scenarios of animals working. The book is arranged along three themes of work. Performative work focuses on the animals whose performances are front and center of tourists' motivations and experiences. Value-added work turns attention

to the co-working relationships of animals, while the political work of animals as ambassadors and icons is examined within the chapters on hidden labor. Additionally, the book makes theoretical considerations of the implications of positioning animals as workers and offers reflections on ways this focus on working animals extends current scholarship in the field.

Handbook of Tourism Impacts - Stoffelen, Arie 2022-05-13

This Handbook provides a comprehensive overview of current developments, issues and good practices regarding assessment in social science research. It pays particular attention to the challenges in evaluation policies in the social sciences, as well as to the specificities of publishing in the area.

Conservation Criminology - Meredith L. Gore 2017-05-08

This important new text introduces conservation criminology as the interdisciplinary study of environmental exploitation and risks at the intersection of human and natural systems. Taking an interdisciplinary approach, the book enhances understanding of the various human and organizational behaviors that pose risks to the environment, humans, and drive conservation crime. As human population growth, global market economies, climate change, deforestation, and illegal exploitation of natural resources continue to increase, academic research from numerous disciplines is needed to address these challenges.

Conservation Criminology promotes thinking about how unsustainable natural resources exploitation is a cause and a consequence of social conflict. Case studies profiled in the book demonstrate this cause and effect type situation, as well as innovative approaches for reducing risks to people and the environment. This text encourages readers to consider how humans behave in response to environmental risks and the various mechanisms that constitute effective and ineffective approaches to enforcement of wildlife crimes, including environmental and conservation policy. Case studies from the USA, Latin America, Africa, and Asia highlight corruption in conservation, global trade in electronic waste, illegal fishing, illegal logging, human-wildlife conflict, technology and space, water insecurity, wildlife disease, and wildlife poaching. Taken together, chapters expand the reader's perspective and employ tools to understand and address environmental crimes and risks, and to provide novel empirical evidence for positive change. With established contributors providing interdisciplinary and global perspectives, this book establishes a foundation for the emerging field of conservation criminology.

Handbook on Tourism and Rural Community Development -

Heather Mair 2023-01-20

This Handbook brings together experts from around the world to reflect critically on the relationship between tourism and rural community development. It first orients the reader in the important conceptual and epistemological foundations of the topic, before moving to consider key concepts and the most significant and salient theoretical and methodological developments in the field.

Tourism and Animal Welfare - Neil Carr 2018

The first part of this book explores the meaning of animal welfare and its relation to ethics, animal rights, and human obligations to animals. Part Two builds upon concepts and ideas and reflects the views of a variety of animal welfare organizations and individual leaders, tourism industry organizations, tourism operators, and academic experts, about the nature of the tourism industry, the welfare needs of animals, and whether or how the two can co-exist. The case studies and opinion pieces that constitute this section encompass differing perspectives on animal welfare and tourism. With contributions from Jane Goodall, Founder - the Jane Goodall Institute and UN Messenger of Peace.

Wildlife Tourism, Environmental Learning and Ethical Encounters - Ismar Borges de Lima 2017-06-13

This book outlines the status quo of worldwide wildlife tourism and its impacts on planning, management, knowledge, awareness, behaviour and attitudes related to wildlife encounters. It sets out to fill the considerable gaps in our knowledge on wildlife tourism, applied ecology, and environmental education, providing comprehensive information on and an interdisciplinary approach to effective management in wildlife tourism. Examining the intricacies, challenges, and lessons learned in a meaningful and rewarding tourism niche, this interdisciplinary book comprehensively examines the major potentials and controversies in the wildlife tourism industry. Pursuing an insightful, provocative and hands-on approach, it primarily addresses two questions: 'Can we reconcile the needs of the wildlife tourism industry, biodiversity conservation, ecological learning and animal ethics issues?' and 'What is the Future of the Wildlife Tourism Industry?'. Though primarily intended as a research

text, it also offers a valuable resource for a broad readership, which includes university and training students, researchers, scholars, tourism practitioners and professionals, planners and managers, as well as the staff of government agencies.

Exploring non-human work in tourism - Jillian M. Rickly 2021-02-22

Critical animal studies is increasingly interfacing with tourism research in an effort to shed light on the various ways animals are incorporated into touristic experience. *Exploring non-human work in tourism: From beasts of burden to animal ambassadors* builds upon the theoretical connections of animal ethics, agency, and welfare as it foregrounds specifically the work that animals perform in the industry. While some types of animal labor are more readily identified, readers of this volume may be surprised by how many forms of animal labor are overlooked. Taking a widely international perspective, with cases from the Arctic, China, Costa Rica, China, Finland, Greece, Mexico, New Zealand, and the United Kingdom, this volume offers readers diverse scenarios of animals working. The book is arranged along three themes of work. Performative work focuses on the animals whose performances are front and center of tourists' motivations and experiences. Value-added work turns attention to the co-working relationships of animals, while the political work of animals as ambassadors and icons is examined within the chapters on hidden labor. Additionally, the book makes theoretical considerations of the implications of positioning animals as workers and offers reflections on ways this focus on working animals extends current scholarship in the field.

Animals and Tourism - Kevin Markwell 2015

This book is the first to critically examine the many ways in which tourism and animals intersect and aims to make a meaningful contribution to the growing body of knowledge concerning the relationships between animals, tourists and the tourism industry.

Animals, Food, and Tourism - Carol Kline 2018-01-31

Food is routinely given attention in tourism research as a motivator of travel. Regardless of whether tourists travel with a primary motivation for experiencing local food, eating is required during their trip. This book encompasses an interdisciplinary discussion of animals as a source of food within the context of tourism. Themes include the raising, harvesting, and processing of farm animals for food; considerations in marketing animals as food; and the link between consuming animals and current environmental concerns. Ethical issues are addressed in social, economic, environmental, and political terms. The chapters are grounded in ethics-related theories and frameworks including critical theory, ecofeminism, gustatory ethics, environmental ethics, ethics within a political economy context, cultural relativism, market construction paradigm, ethical resistance, and the Global Sustainable Tourism Criteria. Several chapters explore contradicting and paradoxical ethical perspectives, whether those contradictions exist between government and private sector, between tourism and other industries, or whether they lie within ourselves. Like the authors in *Tourism Experiences & Animal Consumption: Contested Values, Morality, & Ethics*, the authors in this book wrestle with a range of issues such as animal sentience, the environmental consequences of animals as food, viewing animals solely as an extractive resource for human will, as well as the artificial cultural distortion of animals as food for tourism marketing purposes. This book will appeal to tourism academics and graduate students as a reference for their own research or as supplementary material for courses focused on ethics within tourism.

Whale-watching Impacts: Science, Human Dimensions and

Management - Aldo S. Pacheco 2022-02-02

Culture and Communication in Thailand - Patchanee Malikhao 2017-05-02

This book features research papers that examine a host of contemporary issues in Thailand. Coverage includes culture, gender violence, tourism, human trafficking, environmental and ecological issues, sustainability and the sufficiency economy, the (mis)handling of elephants, and more. It features a sociological and anthropological perspective with a dash of communication for sustainable social change. The papers investigate the various phases of communication technology and its impact on cultural change in the country. They explore the use of social networks and privacy issues as well as ethical journalism in the contexts of Thai Buddhism, Thai culture, and other enabling environmental factors. The contributors focus on documentary research of both quantitative and qualitative data on Thai social change as a consequence of globalization and digital technology. They first provide a general overview of social media and communication in the country. Next, the authors go on to

explore the specifics of digital communication. This includes a look at its impact on the various ways of Thai communication given politico-economic and religious influences.
