**Discovering Michael** Michael James 2014-03 Are you truly happy? This is the question that helped me to change my life. When I stopped to seriously consider this question, I realized that the answer was no. In fact, I began to wonder what happiness really was. Upon recognizing this void, a quiet yet persistent voice within demanded attention to this, even though I did not know what to do. Eventually, I was guided to take that hard and honest look within. The search initially was to understand why things were going wrong in my life. I was experiencing problems in my job and relationships. On the surface, others perceived me as successful, yet within I felt different, alone, unworthy, confused, and lost. *Discovering Michael* is an inspirational story and guide about overcoming a life of adversity and challenges. It is a personal account and reflection of learnings about the journey and the methods used for personal growth and self-

discovery. It is about changing unhealthy attitudes, beliefs, and behaviors into healthier choices, supportive of greater levels of happiness, meaning and purpose.

The Political Economy of Organ Transplantation Hagai Boas 2022-09-09 “This thought-provoking work examines how the relationships of organs, tissues, and cells transferred from one body to another through donation, sale, or gift are mediated by the state, market, and family. The book is a thorough review of the sociological, anthropological, and ethical literature surrounding transplant organs but encased within the author’s own personal dilemmas and lived experience. His work skillfully underscores the negotiations and accommodations inherent in the use of these technologies and reveals the situatedness of decisions that belie any simplistic readings of the ethics of transplantations... This is a stimulating and accessible book for those with an interest in transplantation, ethics, or the social implications of medical technologies. Its strength lies in the reflexive accounts from the author of his own experience juxtaposed with the sensitive appraisals of the workings of the state, market, and family in the organ economy.” Andrea Whittaker, Monash University, reviewed for Social Forces This innovative work combines a rigorous academic analysis of the political economy of organ supply for transplantation with autobiographical narratives that illuminate the complex

experience of being an organ recipient. Organs for transplantations come from two sources: living or post-mortem organ donations. These sources set different routes of movement from one body to another. Postmortem organ donations are mainly sourced and allocated by state agencies, while living organ donations are the result of informal relations between donor and recipient. Each route traverses different social institutions, determines discrete interaction between donor and recipient, and is charged with moral meanings that can be competing and contrasting. The political economy of organs for transplants is the gamut of these routes and their interconnections, and this book suggests how such a political economy looks like: what are its features and contours, its negotiation of the roles of the state, market and the family in procuring organs for transplantations, and its ultimate moral justifications. Drawing on Boas' personal experiences of waiting, searching and obtaining organs, each autobiographical section of the book sheds light on a different aspect of the discussed political economy of organs - post-mortem donations, parental donation, and organ market - and illustrates the experience of living with the fear of rejection and the intimidation of chronic shortage. *A Political Economy of Organ Transplantation* is of interest to students and academics with an interest in bioethics, sociology of health and illness, medical anthropology, and science and technology studies.

**When The Health Requires Wealth** Doctor Phil OZ 2013-12-30

Some parts of the book could make you smile or cry or do nothing

at all! It is about the endless struggle to make the end user happy from one side and the carelessness from an award-winning organisation from the other side. It is about the weakness of a system believed to be strong. I recommend this book to anyone who is interested in the reality I experienced in the UK care industry. The message of the book is not absolutely the bad that is behind the scenes; rather it highlights the vulnerability of a system that should work perfectly - a system that costs lots and lots of money to the taxpayer, the government, and the end user. It highlights the vulnerability of the system because of the human nature that talks of selfishness, laziness, carelessness, or, with one word: human frailty. It is strange to use these words about something that is meant to reach exactly the opposite target. Everybody has the right to have their own judgement to decide what to feel about the written facts. I have also highlighted the legal slavery of the modern age. A chain is only as strong as its weakest link. (Thomas Reid's Essays on the Intellectual Powers of Man)

*My Man's Best Friend II* Tresser Henderson 2013-05-01 Love happens when you least expect it. Derrick knows this all too well after falling for Kea, his best friend's girlfriend. But as fate would have it, he has just found out the love of his life is also his sister. Derrick is devastated by the news, but the beautiful and alluring Trinity is more than eager to help him forget about the turmoil

he's going through. Little does Derrick know that Trinity has her own secrets, and she's willing to do whatever it takes to keep them buried. Kea understands the emotional rollercoaster Derrick is on, because she's on her own downward spiral. Kicking her boyfriend Jaquon out of her life is a start, but it won't solve everything, because in spite of it all, she's still in love with him. Jaquon knows Kea means it this time, and he's determined to change for the better to get his baby back. He's slowly working his way back into Kea's good graces, but he's not alone in his quest for her heart. Derrick, who believes the DNA test is not true, convinces Kea to have another test done to prove they are not related. Trinity, Jaquon, and even Zacariah are against this test happening, afraid it will change the dynamics of their relationships. Not every story has a happy ending. Will anyone succeed in getting the love they are so eagerly seeking? And who will be left mourning the loss of a loved one? Tresser Henderson continues to deliver the drama in My Man's Best Friend II.

Lighting Up a Hidden World Valerie Free 2016-09-30 The onset can be fast and shocking or slow and insidious. It can happen to anyone at any age. A flu, a vaccination, or an infection can be the innocent beginnings to the potentially life-long and disabling illness called myalgic encephalomyelitis (ME), which is more commonly known as chronic fatigue syndrome (CFS) or ME/CFS in North America. In the mid 1980s, the U.S. Centers for Disease Control (CDC) was called in by concerned doctors who were witnessing an influx of patients with a mysterious illness. Eventually the CDC labeled the condition “chronic fatigue syndrome” which turned out to be very misleading. Decades later, in 2016, health agencies are finally beginning to agree with international experts that ME/CFS is a serious, chronic, multi-system illness. Through artwork, poetry, story-telling, and meticulous research, Lighting Up a Hidden World: CFS and ME takes readers into the fascinating, yet frightening, landscape of ME/CFS. Author Valerie Free shares her personal experiences and delivers illuminating first-hand perspectives from patients, caregivers, journalists, and medical professionals from within the global community in short easy-to-read segments. These stories reveal the disgrace, controversy, and tragedy of worldwide neglect by political and health care systems, leaving ME/CFS research underfunded and millions of people marginalized, sick, and socially unsupported. Lighting Up a Hidden World: CFS and ME advocates for those too ill to speak out, abounds with patient resources, and offers realistic hope for the future. People living with this illness, along with their family and friends, will find compassion and camaraderie in its pages. This book reaches beyond the ME/CFS community exposing the themes of human suffering, resilience, and the need for social change.

**Food for Health and Cure** Marie F. Dubreuil 2014-10-22 This book is a precious gift that anyone can be happy to receive, have, read, and empower themselves with beneficial knowledge to be healthy and stay healthy as long as possible. To be healthy makes no distinction in religion, race, color, creed, power, well-being, social status or how famous and talented you are or what political party you choose. What's in this book makes no distinction about your choice of love, romance, and type of family, work, career, business, and sexual preference. The goal of this book is to be happy, healthy, live a prosperous life, get along with each other, and tolerate each other, smile, and laugh, say hi, hello, look at each other, and do much more with each other. Once in a while, take time ask yourself, who am I? Why am I here on this earth at this time in this century with all these other people? You can say to yourself, I could've been born in another century with all the other people. But I am here in this century with all the other people with you and me. Let us be healthy, love each other, and live longer.
