

# Centering And The Art Of Intimacy A New Psychology Of Close Relationships

The Science of Intimate Relationships - Garth J. O. Fletcher 2019-08-19  
Provides a unique interdisciplinary approach to the science of intimate human relationships This newly updated edition of a popular text is the first to present a full-blooded interdisciplinary and theoretically coherent approach to the latest scientific findings relating to human sexual relationships. Written by recognized leaders in the field in a style that is rigorous yet accessible, it looks beyond the core knowledge in social and evolutionary psychology to incorporate material and perspectives from cognitive science (including brain-imaging studies), developmental psychology, anthropology, comparative psychology, clinical psychology, genetic research, sociology, and biology. Written by an international team of acclaimed experts in the field, *The Science of Intimate Relationships* offers a wealth of thought-provoking ideas and insights into the science behind the initiation, maintenance, and termination of romantic relationships. The 2nd Edition features two new chapters on health and relationships, and friends and family, both of which shed new light on the complex links among human nature, culture, and romantic love. It covers key topics such as mate selection, attachment theory, love, communication, sex, relationship dissolution, violence, mind-reading, and the relationship brain. Provides a coherent and theoretically integrative approach to the subject of intimate relationships Offers an interdisciplinary perspective that looks beyond social and evolutionary psychology to many other scientific fields of study Includes two new chapters on 'Relationships and Health' and 'Friends and Family', added in response to feedback from professors who have used the textbook with their classes Presented by recognized leaders in the field of relationships Features PowerPoint slides and an online Teaching Handbook *The Science of Intimate Relationships*, 2nd Edition is designed for upper-level undergraduate students of human sexuality, psychology, anthropology, and other related fields.

Contemporary Authors New Revision Series - Tracey Watson 2005-04  
A biographical and bibliographical guide to current writers in all fields including poetry, fiction and nonfiction, journalism, drama, television and movies. Information is provided by the authors themselves or drawn from published interviews, feature stories, book reviews and other materials provided by the authors/publishers.

The Cumulative Book Index - 1994

A world list of books in the English language.

**CENTERING AND THE ART OF INTIMACY** - Gay Hendricks  
1993-03-08

With this enlightening book, readers can conquer the most common obstacles to satisfying love--the twin fears of aloneness and closeness. The keys to surmounting these fears lie in developing awareness, honesty and commitment. The authors offer activities and exercises to help readers develop these relationship skills.

**American Book Publishing Record** - 2005

**Bottom Line Year Book 1995** - 1995

**Books in Print** - 1994

Forthcoming Books - Rose Arny 2003-04

**Know Your Truth, Speak Your Truth, Live Your Truth** - Eileen R. Hannegan 2009-09-29

Buffeted about by the demands and priorities of others, directed by the shoulds and shouldn'ts of society and religion, the true self and inner voice can be lost and silenced. In this inspirational self-help resource, counselor and consultant Eileen Hannagan provides a practical road map that leads readers back to the core of their true selves. Exercises & worksheets.

Intimate Creativity - Irving Sarnoff 2002-11-05

Integrating the psychology of love and creativity, this pioneering book explores both how a couple's involvement as lovers influences their creative collaboration and how working together affects their relationship. Representing a variety of genres—painting, sculpture, photography, and installation art—the celebrated couples profiled here

include, among others, Christo and Jeanne-Claude, Elizabeth Diller and Ricardo Scofidio, and Kristin Jones and Andrew Ginzler. Intrigued by this process of "intimate creativity," psychologists Irving and Suzanne Sarnoff (themselves partners in love and work) decided to conduct in-depth interviews with partners in visual art because they defy the supremely individualistic tradition of their field. Whatever their age or sexual orientation, these artist-couples combine their talents to form a collective identity as a professional team. Passionately intense about their shared commitment, they communicate endlessly to resolve conflicts and reach consensus. Providing mutual validation and support, they increase their productivity and the quality of their work; they minimize their fear and frustration and enhance their pleasure in being together. The authors also draw on historical and contemporary literature about similar couples, ranging from Jean Arp and Sophie Taeuber to Gilbert and George to Claes Oldenburg and Coosje van Bruggen. Stimulating and engaging, this book highlights the features of a unique collaborative process, considers the connection between creativity and sexuality, and suggests possibilities for any couple to expand their intimacy.

**The Handbook of Sexuality in Close Relationships** - John H. Harvey  
2004-04-26

Although sexuality is an integral part of close romantic relationships, research linking these two constructs is to some extent under developed. The editors' goal is to integrate this research into one volume with the hope that the book will serve as a forum for enhancement of dialogue about the centrality of sexual issues in close relationships.

Miracles - J. Harold Ellens 2008

Can science, psychology, and biology explain miracles? This work explores this subject. It examines "miracles" of body, mind, and spirit, presenting the research and writing on these uncommon events.

Bibliographic Guide to Psychology - New York Public Library. Research Libraries 1998

**Intimate Relationships** - Sharon S. Brehm 1985

Miracles [3 volumes] - J. Harold Ellens 2008-07-30

Can science, psychology, and biology explain miracles? This three-volume set attempts to answer that question, presenting the latest, as well as classic, thinking and research regarding miracles from fields that include psychology, psychiatry, theology, biology, and history. We have all heard of what seem miraculous events, which have surfaced across history. They range from stigmata and bleeding icons to deadly tumors that disappear and healers who succeed just by laying hands on the afflicted; from people who can predict unexpected events to so-called mediums and those who can allegedly see and speak with the dead. These books, led by an eminent scholar who serves as series editor for the Praeger series Psychology, Religion, and Spirituality, examine miracles of body, mind, and spirit, presenting the most recent research and writing on these uncommon events, aiming to bring hard science to some of the most persistent and peculiar phenomena associated with the human race. Can science, psychology, and biology explain miracles? This three-volume set attempts to answer that question, presenting the latest, as well as classic, thinking and research regarding miracles from fields that include psychology, psychiatry, theology, biology, and history. From news of a crippled woman who left her wheelchair and walked after an evangelist prayed over her, to stories of people who died on the operating table only to be revived to tell of bright lights and the pathway to the afterlife, we've all heard of what seem miraculous events. They have surfaced across history. They range from stigmata and bleeding icons to deadly tumors that disappear, and healers who succeed just by laying hands on the afflicted; from people who can predict unexpected events to so-called mediums and those who can allegedly see and speak with the dead. Some miracles are intricately tied to religious beliefs, but there are millions of people who ascribe to no particular religion, yet still believe that things happen that defy all laws of nature, and thus defy scientific explanation. In these books, eminent scholar J. Harold Ellens and his team of expert contributors examine miracles of body, mind, and spirit, presenting the most recent research and writing on these

uncommon events as they aim to bring hard science to some of the most persistent—and peculiar—phenomena associated with the human race. *Cognition in Close Relationships* - Garth J.O. Fletcher 2013-05-13  
The past decade has witnessed an explosion of interest and research on close relationships and social cognition. In both areas, numerous handbooks, textbooks, and journal articles have been published. However, it is the editors' impression that although cognitive theories and concepts have filtered through to research dealing with close relationships, much of this research reflects a relatively untutored understanding of the theoretical and empirical work in social cognition. Conversely, the research literature that provides a more sophisticated perspective on the role of cognition in close relationships typically reveals a relatively limited knowledge of the literature on close relationships. As researchers who have worked in both social cognitive processes and close relationships, Fletcher and Fincham are convinced that each field has much to offer the other. In fact, their book is based on

two important postulates: first, that a social cognitive framework offers a valuable resource for developing our understanding of close relationships; and, second, that studying cognition within close relationships has the potential to inform our understanding of basic social cognitive processes.

CENTERING AND THE ART OF INTIMACY - Gay Hendricks 1985-01-02

**Bottom Line Yearbook** - 1995

**Subject Guide to Books in Print** - 1993

**The Sacred Bedroom** - Jon Robertson 2001

In this book by the author of "Sacred Kitchen", readers will learn how to create their own personal sanctuary as they create a bedroom that is a refuge for relaxation and restoration.
