When I Was a Loser - John McNally
2007-03-06

For Anyone Who's Ever Been a Teenager Who's teenage years weren't terrible? Remember the scary older kids? The sadistic gym teacher? The smelly kid who sat next to you in science class? Your first fumbling kiss? That time you threw up in the cafeteria? Your first attempt at putting on a condom? The period that arrived unexpectedly? That awful fight with your

parents? The first time you got drunk? That note you wrote that you shouldn't have written? The day you forgot to zip your fly? That monster zit? When, you wondered, would it all end? In *When I Was a Loser*, John McNally, author of the novel *America's Report Card*, assembles twenty-five original essays--often hilarious, sometimes tenderhearted, always evocative--about defining moments of high school loserdom. Brad Land, Julianna Baggott, Owen King, Johanna Edwards, and many more fresh, talented writers explore their own angst, humiliation, heartache, and other staples of teen life. These essays perfectly capture what it was like to be in high school: to experience so many things for the first time, to assert independence while desperately trying to fit in, to feel misunderstood and unable to articulate the wild swings between heartbreak, anger, and euphoria. One writer recalls how his grandmother helped him with his home perm in preparation for the Senior Class picture; another recounts her discovery, sometime after hitting

puberty, of the power she held over boys and men, while at the same time she felt herself at their mercy; a third remembers the casual cruelties visited on him by the cooler kids, and the cruelties he, in turn, inflicted on kids below him on the social ladder. Utterly candid and compulsively readable, these essays conjure up and untangle those raw and formative years. The writers cringe and laugh at the teenagers they were, but at the same time, they honor their adolescence and the way it shaped their lives. Because, in truth, beneath the layers of adult respectability, we all still carry a little bit of our teenage selves around with us.

It's Not Rocket Science: Down-to-Earth Advice on Raising Stellar Kids - Alice Licata

complex, media-overloaded, maze-like world, parents need to know the essentials of truly successful parenting more than ever. Based on her specialized training and professional practice in psychology as well as her hands-on experiences as a parent, Dr. Alice Licata presents her positive approach, unique in its simplicity, eschewing formulaic for a fresh, highly readable, and widely applicable strategy. Dr. Licata emphasizes a fundamental principle which can offer answers to nearly every parenting concern and challenge. With engaging chapters such as "Be a Pachyderm," "It's Not You, It's Me," and "You Too Can be a Supermodel," this book is replete with practical examples and advice as well as touching anecdotes--a must-read for all parents wanting to avoid the too common pitfalls of today's childrearing.

Five Kids and One Gun - Bryan Stevenson
2012-07-25

In this book I have taken true life events that

have actually occurred in my lifetime. My inspiration was about a real life game of Russian roulette. The last soul survivor of five young teenage boys was the one who told me his story. They did not all die from the actual playing of the game, but it did cause the boys a deep depression that took their lives, one by one. However, they did not all die the way my book describes. In fact, one of the boys' deaths was context I used from a real incident that took place when I was growing up. He was my friend. This boy was being bullied by six other teenage boys. After beating him up and ramming his head through a plate glass window of the local paramount theater, he decided to end it all and jump in front of a train. Bullying is a serious matter that can effect young minds in ways that are so horrible, you might not find out what is really going on with them, until it is too late. May Tommy rest in peace. But I could not end this book here. I believe that when something bad happens, there are always good things to

fall in its place. So I threw a few twists into my writings. There is a forest on the outskirts of my home town that was declared the historical cottonwoods, in which I use as the setting for this book. Wandering through the forest one day, I discovered a rather large naturally hollowed out cottonwood tree. This is where one lucky boys adventures begin. The boys built a real working elevator inside the tree that would lead to the bottom of a two story tree house they also constructed. But it does not end there. A magical book of secrets reveals itself. In this book it tells the story about an underground city as it really happens. Inside the hollow of the tree and approximately ten feet below the surface, an underground elevator is activated, once the owner of the book comes forward. This will lead to a hallway full of doors, each leading to mystical places beyond your wildest dreams. At the end of the first hallway is a rather large room where all hallways begin. A hidden ceiling door slides open with a thunderous ear

deafening screech. It is the glass bottom of the Fraser river, in which you are able to view underwater creatures in their natural habitat. Down one of the hallways there is a door to an ancient library that tells the history of the underground. It is referred to as the spell room. There is also another door that leads to the four seasons. A big wooden door separates the hallways full of doors from an underground city called the Packs. Inside this city is a rather unique arena where there is a hockey game like you have never seen before.

and How To Talk About It - Cynthia Malu

2012-03-04

ABOUT THE BOOK From the giggly four-year old who proclaims that he wants to marry his teacher to the pre-teen who gushes over the cute boy who sits next to her in class, your child's first crush is a new frontier, and its best to prepare yourself long before it happens. As a parent, you can take an active part in helping your child navigate his or her romantic feelings. To be a positive part of your child's first experience with puppy love, the most important thing you can do is help your child feel comfortable communicating with you. A crush is no more than an infatuation. Unlike a true romantic relationship, when two individuals acknowledge their deep feelings for one another, a crush is often a one-sided attraction. When children have a crush, they are not focused on loving the object of their affection as an entire person, flaws and all. Instead, they build up a fantasy of sorts in their minds, and spend time

daydreaming about what it would be like to be together. EXCERPT FROM THE BOOK Try to find out how your child's crush is responding to him. Ask him if his crush talks to him at school. This will help you gauge the level of intensity and the direction things are headed. If his crush returns his feelings, he may be on the verge of a relationship. While you won't be able to change the eventual outcome of your son's crush, you can guide him as he navigates the unfamiliar waters of romantic feelings. The way you approach the subject will depend on your child's age. For a young child, be positive but truthful when you talk about the crush. Explain that it's normal to have strong feelings for people when you like their looks and behavior, but make sure your child knows that it's not necessary to act on those feelings. Guide him or her in making appropriate decisions. For instance, if your daughter wants to give a gift to a boy she likes on Valentine's Day, help her choose something that won't be overwhelming for either party. If

the object of your young child's affection is an adult, don't be overly concerned.
