

# High Risk Sexual Behavior Interventions With Vulnerable Populations

**EU Criminal Justice, Financial & Economic Crime** - Marc Cools 2011

This fifth volume of the Governance of Security (GofS) Research Paper series addresses a wide variety of topical issues focusing on European criminal justice and financial and economic crime. The first cluster of articles is concerned with European criminal justice matters particularly relating to EU mutual recognition, such as: conceptualization, unwanted effects in the context of prisoner transfer and sentence execution, impact for cross-border gathering and use of forensic expert evidence, and interrogational fairness standards. A second cluster of articles addresses the subjects of financial and economic crime, ranging from informal economy (among street children) to formal/informal economy (vulnerability of the hotel and catering industry to crime) and white collar crime phenomena like (transnational) environmental crime and corruption. A final cluster groups together a variety of selected topical issues, including juvenile offending and mental disorders, desistance theories, and sexually transmitted infections.

**Adolescent Health Care** - Lawrence S. Neinstein 2008

This practical, easy-to-use guide is a staple in health care facilities that treat adolescents, is widely used for board preparation, and is recommended by the American College of Physicians for their internal medicine library. The substance abuse section has been completely reorganized, and new chapters cover psychosomatic illness as well as complementary medicine.

**Treating Risky and Compulsive Behavior in Trauma Survivors** - John Briere 2019-04-19

From leading authority John Briere, this book provides a comprehensive treatment approach for survivors of childhood trauma who numb or avoid emotional distress by engaging in substance abuse, risky sexual activities, self-injury, suicidality, bingeing and purging, or other self-harming behaviors. Briere shows how to help clients identify and manage the triggers of these "distress reduction behaviors," learn to regulate intrusive emotional states, and safely process trauma- and attachment-related memories. Emphasizing the therapeutic relationship, Briere's approach draws on elements of psychodynamic, interpersonal, and cognitive-behavioral therapy; mindfulness training; and dialectical behavior therapy. The book combines cutting-edge clinical and experimental research with clearly described interventions, case examples, and reproducible handouts and forms. Purchasers get access to a Web page where they can download and print the reproducible materials in a convenient 8 1/2" x 11" size.

**HIV/AIDS: Global Frontiers in Prevention/Intervention** - Cynthia Pope 2014-06-11

HIV/AIDS: Global Frontiers in Prevention/Intervention provides a comprehensive overview of the global HIV/AIDS epidemic. The unique anthology addresses cutting-edge issues in HIV/AIDS research, policymaking, and advocacy. Key features include: · Nine original essays from leading scholars in public health, epidemiology, and social and behavioral sciences · Comprehensive information for individuals with varying degrees of knowledge, particularly regarding methodological and theoretical perspectives · A look into the future progression of HIV transmission and scholarly research HIV/AIDS: Global Frontiers in Prevention/Intervention is will serve as a precious resource as a textbook and reference for the university classroom, libraries, and researchers

**Adolescent Pregnancy** - Dr. Naomi Farber Ph.D., MSW 2009-06-16

"Adolescent pregnancy is an important public health issue and this valuable, well-referenced book covers the risk factors, child-family outcomes, and prevention .This is a very useful book for social workers and other professionals as a single source of current information about adolescent pregnancy and prevention." - Doody's This new edition of Adolescent Pregnancy contains everything a social worker needs to know to address adolescent sexual health risks and the recent rise in teen pregnancy rates. The second edition presents a new focus on cultural competence, presenting up-to-the-minute research on ethnically diverse populations. This edition goes beyond just adolescent pregnancy, discussing STI and HIV risks, as well as drug and alcohol abuse. Other cutting-edge topics include the sexualization of children, secondary

prevention, the impact of abstinence-only programs, and controversies over access to birth control and abortion. Key features: Guidelines for identifying pregnancy risk levels in adolescents, and determining appropriate interventions New information about STI and HIV/AIDS prevention strategies Theories of illegitimacy and teen pregnancy, and why pregnancy rates vary among ethnic groups Research on pregnancy prevention programs that help both young men and women avoid unwanted pregnancy Chapters on adolescent parenting, and secondary prevention among adolescent parents With this book, practitioners can provide young men and women with the tools they need to regain control of their lives and their sexual health. A critically important read for social workers, health professionals, and policy makers who are concerned about adolescent pregnancy.

**Drugs, Sex, Gender-Based Violence, and the Intersection of the HIV/AIDS Epidemic with Vulnerable Women in South Africa** - Wendee M. Wechsberg 2010-05-20

Recent innovative research has identified key factors that put vulnerable South African women at risk of HIV/AIDS and gender-based violence, including high-risk patterns of alcohol abuse and sexual partnering, gender norms that place men in control in sexual relationships, low educational levels and limited access to employment, poor health care, inadequate housing, and sex work. These studies suggest that targeted HIV-prevention interventions can effect improvement for this vulnerable population when programs remain sensitive to gender and cultural differences and expectations and address the social and economic inequalities that make women vulnerable. Solving these problems on a larger economic scale will require institutional participation and political support for women's equity, HIV-prevention literacy, and a broader HIV-prevention agenda. This can be accomplished with a multilevel, collaborative response from government, community, and international partners using multiple prevention strategies and fostering sustainability.

**Reducing the Risks for Substance Abuse** - Raymond P. Daugherty 2013-03-08

Authors Raymond P. Daugherty and Carl Leukefeld argue for replacing the youth-based, 'zero tolerance' approach to substance abuse prevention that has been dominant in the field over the past two decades. Their dynamic alternative is the Lifestyle Risk Reduction Model, which revises standard prevention strategies to make them relevant throughout the entire life span. Features of this revolutionary new paradigm include Five Principles of Lifestyle Risk Reduction (LRR), Five Conditions of Effective LRR, and the LLR Formulas.

**Behavioral Interventions for Prevention and Control of Sexually Transmitted Diseases** - Sevgi O. Aral 2007-06-06

Before AIDS, the role of behavioral interventions in preventing transmission of sexually transmitted diseases was acknowledged in text books and journals but rarely promoted effectively in public health practice. This book addresses the complexities and social contexts of human behaviors which spread STDs, the cultural barriers to STD education, and the sociopolitical nuances surrounding treatment.

**Handbook of Missing Persons** - Stephen J. Morewitz 2016-12-19

This ambitious multidisciplinary volume surveys the science, forensics, politics, and ethics involved in responding to missing persons cases. International experts across the physical and social sciences offer data, case examples, and insights on best practices, new methods, and emerging specialties that may be employed in investigations. Topics such as secondary victimization, privacy issues, DNA identification, and the challenges of finding victims of war and genocide highlight the uncertainties and complexities surrounding these cases as well as possibilities for location and recovery. This diverse presentation will assist professionals in accessing new ideas, collaborating with colleagues, and handling missing persons cases with greater efficiency—and potentially greater certainty. Among the Handbook's topics: ·A profile of missing persons: some key findings for police officers. ·Missing persons investigations and identification:

issues of scale, infrastructure, and political will. ·Pregnancy and parenting among runaway and homeless young women. ·Estimating the appearance of the missing: forensic age progression in the search for missing persons. ·The use of trace evidence in missing persons investigations. ·The Investigation of historic missing persons cases: genocide and “conflict time” human rights abuses. The depth and scope of its expertise make the Handbook of Missing Persons useful for criminal justice and forensic professionals, health care and mental health professionals, social scientists, legal professionals, policy leaders, community leaders, and military personnel, as well as for the general public.

**Child Poverty and Inequality** - Duncan Lindsey 2008-09-12

One of the United States great promises is that all children will be given the opportunity to work to achieve a comfortable standard of living. That promise has faded profoundly for children who grow up in poverty, particularly black and Hispanic children, and many of the deepening fault lines in the social order are traceable to this disparity. In recent years the promise has also begun to fade for children of the middle class. Education and hard work, once steady paths to economic success, no longer lead as far as they once did. But that doesn't have to be the case, as Duncan Lindsey shows in this articulate, impassioned volume. We can provide true opportunity to all children, insuring them against a lifetime of inequality, and when we do, the walls dividing the country by race, ethnicity, and wealth will begin to crumble. Long a voice for combating child poverty, Lindsey takes a balanced approach that begins with a history of economic and family policy from the Great Depression and the development of Social Security and moves onward. He details the shocking extent of economic inequality in the U.S., pointing out that this wealthiest of countries also has the largest proportion of children living in poverty. Calling for reform, Lindsey proposes several viable universal income security policies for vulnerable children and families, strategies that have worked in other advanced democracies and also respect the importance of the market economy. They aim not just to reduce child poverty, but also to give all children meaningful economic opportunity. Just as Social Security alleviates the sting of poverty in old age, asset-building policies can insulate children from the cumulative effects of disadvantage and provide them with a strong foundation from which to soar. Politicians, pundits, and parents always say that children are the future, but as long as so many grow up poor or without opportunity, that slogan will sound hollow. Duncan Lindsey's book should be read by anyone who wants to know how we can take real action to brighten the future for children and for society as a whole.

*High-Risk Sexual Behavior* - Evvie Becker 2014-01-15

*Building Healthy Individuals, Families, and Communities* - Ted N. Strader 2000

This work describes a programme, Creating Lasting Family Connections, which is based on COPE's demonstration programme, Creating Lasting Connections (CLC). CLC was designed as an ecumenical, community based programme that focused on increasing community, family and individual (youth) protective factors that would lead to delaying the onset and reducing the frequency of alcohol and other drug use among at-risk 12-14 year olds. CLC received the Center for Substance Abuse Prevention's Exemplary Prevention Program Award for 1994; it has been included in the International Youth Foundation's YouthNet International, a directory of youth programmes worldwide; finally, it was selected as one of only seven model prevention programs by the Center for Substance Abuse Prevention for national dissemination.

*AIDS and Social Policy in China* - Joan Kaufman 2020-10-26

This first English language book on China's AIDS epidemic provides a picture of the current state of the epidemic, a social science and interdisciplinary perspective on gaps in the response, and a blueprint for needed actions. The book's editors are leading experts on China's AIDS epidemic, health and political systems. Contributors comprise some of the world's leading Chinese and international researchers, policy-makers, and civil society representatives working on HIV/AIDS in China. The multi-disciplinary work provides a critically needed social science perspective and analysis of the epidemic, offers a framework for

thinking about the spread of HIV in China, and includes suggestions for an effective policy response that also addresses social determinants.

*AIDS Research* - 1993

*Encyclopedia of Social Problems* - Vincent N. Parrillo 2008-05-22

From terrorism to social inequality and from health care to environmental issues, social problems affect us all. The Encyclopedia will offer an interdisciplinary perspective into these and many other social problems that are a continuing concern in our lives, whether we confront them on a personal, local, regional, national, or global level.

*High-Risk Sexual Behavior* - Evvie Becker 2013-06-29

High-risk sexual behavior has been linked to social problems such as substance abuse, domestic violence, homelessness, and deprivation. This volume's unique multidisciplinary biopsychosocial approach combines relevant medical information regarding disease states with the cultural, social, and psychological facets of successful prevention programs. Becker and Rankin outline specific interventions that address the needs of particularly vulnerable populations: women, ethnic minorities, and the gay community. Useful chapter summaries which review the pros and cons of different approaches will aid both the student and the practitioner.

**The Handbook of Global Health Communication** - Rafael Obregon 2012-03-12

International in scope, The Handbook of Global Health Communication offers a comprehensive and up-to-date analysis of the role of communication processes in global public health, development and social change. Brings together 32 contributions from well-respected scholars and practitioners in the field, addressing a wide range of communication approaches in current global health programs. Offers an integrated view that links communication to the strengthening of health services, the involvement of affected communities in shaping health policies and improving care, and the empowerment of citizens in making decisions about health. Adopts a broad understanding of communication that goes beyond conventional divisions between informational and participatory approaches.

**Stopping Domestic Violence** - Pamela J. Jenkins 2001-04-30

This volume examines models of collaboration between personnel in social service agencies, women's centers, domestic violence programs, medical and mental health settings, and law enforcement. Techniques are detailed that allow knowledge about domestic violence and primary prevention to be integrated into a community response by all those involved. It is an excellent resource for educators, social workers, public health professionals, clinicians, medical and mental health professionals, and law enforcement personnel.

**AIDS, Behavior, and Culture** - Edward C Green 2016-06-16

AIDS, Behavior, and Culture presents a bold challenge to the prevailing wisdom of “the global AIDS industry” and offers an alternative framework for understanding what works in HIV prevention. Arguing for a behavior-based approach, Green and Ruark make the case that the most effective programs are those that encourage fundamental behavioral changes such as abstinence, delay of sex, faithfulness, and cessation of injection drug use. Successful programs are locally based, low cost, low tech, innovative, and built on existing cultural structures. In contrast, they argue that anthropologists and public health practitioners focus on counseling, testing, condoms, and treatment, and impose their Western values, culture, and political ideologies in an attempt to “liberate” non-Western people from sexual repression and homophobia. This provocative book is essential reading for anyone working in HIV/AIDS prevention, and a stimulating introduction to the key controversies and approaches in global health and medical anthropology for students and general readers.

**Health Behavior Change in Populations** - Scott Kahan 2014-11-26

With an emphasis on the application of theory and research to practice, this textbook presents current and future public health professionals with a range of methods geared towards helping people make healthy choices, from informing the individual to modifying the surroundings and circumstances that drive decision-making.
