Heaven on Earth Sharifa Oppenheimer 2006-08 As we see a shift of old forms that were once the foundations of our daily lives, parents--who must prepare the next generation to meet the changing world--have more questions today than ever before. Although our cultural values and family structures may change, it is the atmosphere in the home that continues to form the foundation of a child's life. In Heaven on Earth, parent and educator Sharifa Oppenheimer reveals how parents can make the home environment warm, lively, loving, and consistent with their highest ideals. Heaven on Earth balances a theoretical understanding of child development with practical ideas, resources, and tips that can transform family life. Readers will learn how to create the regular life rhythms needed to establish a foundation for learning; how to design indoor play environments that allow children the broadest development of skills; and how to create outdoor play spaces that encourage vigorous movement and a wide sensory palette. Through art, storytelling, and the festival celebrations, this book is an invaluable guide to building a "family culture" based on the guiding principle of love--a culture that supports children and encourages the free development of each unique soul. Sharifa Oppenheimer offers a gift from the heart. Heaven on Earth is a practical, inspiring resource that brings the author's informed, intuitive understanding of young children into the heart of the home. "Sharifa Oppenheimer has given the world a great gift in the pages of this book. The important child-development information is exquisitely combined with the best 'How-to's' I have seen in any book for parents. Her book, is a ready guide that insures joyful, enthusiastic children who learn easily and contribute to their families and society for a lifetime. I have delighted in every page and feel this is absolutely A must read for parents, grandparents, teachers, and perhaps everyone who will ever touch the life of a child." --Carla Hannaford, Ph.D., biologist and international educational consultant to 32 countries and author of Smart Moves: Why Learning Is Not All in Your Head and Awakening the Child Heart, Handbook for Global Parenting "This delightful book will be a wonderful resource for parents. They will certainly appreciate its warm, friendly, personal, and reassuring tone. I would have loved such a book when I was a young mother! For those whose children already attend Waldorf programs, it provides a helpful resource for creating a bridge between home and kindergarten. For others, this lovely book offers wonderful glimpses into the wise and nurturing practices of Waldorf early childhood education. In a world where childhood is increasingly 'media'ted and 'adult'erated, this book offers much-needed support for the protection of childhood. " --Susan Howard, chairperson, Waldorf Early Childhood Association of North America and coordinator, International Association for Steiner/Waldorf Early Childhood Education "Being a parent is a challenging assignment, but with the help of Sharifa Oppenheimer's book, Heaven on Earth, our work immediately becomes easier. This book is both heartfelt and practical. It offers sound parenting principles with down-to-earth examples of how to raise children with both insight and grace." --Jack Petrash, director, Nova Institute, and author, Navigating the Terrain of Childhood: A Guidebook for Meaningful Parenting and Heartfelt Discipline

Ask Your Angels Alma Daniel 2011-06-22 Angels have been with us in every time and culture, and in many religious traditions. Ask Your Angels vividly chronicles how they are currently reaching out to every one of us in a totally new way, bridging our physical reality with their pure spiritual energy. From historical writings and widespread contemporary experience that includes their own workshops, the authors show us how we can draw on the power of angels to reconnect with our lost inner selves and to achieve our goals, whether they be better relationships, healing an illness, or recovery from addiction To align with the angelic energy field, you will use five simple steps, as well as exercises, meditations, and visualizations, to learn how to talk with your angels—in your mind, in letters, in dreams, on a computer—and ask their guidance in matters from the inspired to the mundane. From Gabriel, Michael, Raphael, and Uriel to the angels of birth and death, from the Earth Angel to the guardian or companion angel who is your personal teacher, comforter, and intimate friend, this guide will introduce you to humor, wisdom, and companionship that come from contact with angels, for they are a doorway to the Divine within us.

After Heaven Robert Wuthnow 2023-04-28 The evolution of American spirituality over the past fifty years is the subject of Robert Wuthnow's engrossing new book. Wuthnow uses in-depth interviews and a broad range of resource materials to show how Americans, from teenagers to senior citizens, define their spiritual journeys. His findings are a telling reflection of the changes in beliefs and lifestyles that have occurred throughout the United States in recent decades. Wuthnow reconstructs the social and cultural reasons for an emphasis on a spirituality of dwelling (houses of worship, denominations, neighborhoods) during the 1950s. Then in the 1960s a spirituality of seeking began to emerge, leading individuals to go beyond established religious institutions. In subsequent chapters Wuthnow examines attempts to reassert spiritual discipline, encounters with the sacred (such as angels and near-death experiences), and the development of the "inner self." His final chapter discusses a spirituality of practice, an alternative for people who are uncomfortable within a single religious community and who want more than a spirituality of endless seeking. The diversity of contemporary American spirituality comes through in the voices of the interviewees. Christians, Jews, Buddhists, Muslims, Hindus, and Native Americans are included, as are followers of occult practices, New Age religions, and other eclectic groups. Wuthnow also notes how politicized spirituality, evangelical movements, and resources such as Twelve-Step programs and mental health therapy influence definitions of religious life today. Wuthnow's landmark book, *The Restructuring of American Religion* (1988), documented the changes in institutional religion in the United States; now *After Heaven* explains the changes in personal spirituality that have come to shape our religious life. Moreover, it is a compelling and insightful guide to understanding American culture at century's end.

The Spirit of Conscious Capitalism Michel Dion 2022-10-20 This book provides a constructive criticism of the emerging practice of conscious capitalism from the perspective of world religions and spiritualities. Conscious capitalism, to many of its adherents, represents an evolutionary step forward beyond the dominant neo-liberal paradigm, where it often appears that just about everything is for sale. Is conscious capitalism consistent with the values inherent in religious and spiritual world-views and does it provide a better fit for bringing out the best that business has to offer? This book answers these questions and many more. An appealing read for researchers in business ethics as well as any reader critical of the excrescences of capitalism.

Feet on Earth, Head in Heaven Norma Jean Duncan 2012-11-29 Norma Jean Duncan found God following a personal revelation of his love. In a life now dedicated to him, she offers her readers an account of her journey that illustrates the difficulties of living in a secular world with a heavenly perspective. Duncan weaves personal reflections into her discussions on the glory of God, prayer, love, forgiveness, obedience, and terminal illness

and shows the relevance of scriptural wisdom to the life of every modern believer. There are chapters on eternal scriptural truth, and the factors that corrupt it and lead to the promotion of intolerance and injustice in organized religion. The author examines this difficulty in relation to subjects like creation, sexuality, gender submission, faith and works, the spiritual standing of those who have no knowledge of Christ, and the rise of aggressive atheism. Through discussion of these controversial but important topics, her intention is that the Christian community will lead and not follow the contemporary secular world.

The Honeymoon Effect Bruce H. Lipton 2014-04-01 From the bestselling author of *The Biology of Belief* Discover the secret to manifesting and maintaining the Honeymoon Effect—a state of bliss, passion, energy, and health in the early stages of a great love—throughout your entire life Think back on the most spectacular love affair of your life—the Big One that toppled you head over heels. For most, it was a time of heartfelt bliss, robust health, and abundant energy. Life was so beautiful that you couldn't wait to bound out of bed in the morning to experience more Heaven on Earth. It was the Honeymoon Effect that was to last forever. Unfortunately for most, the Honeymoon Effect is frequently short lived. Imagine what your planetary experience would be like if you could maintain the Honeymoon Effect throughout your whole life. Bruce H. Lipton, Ph.D., best-selling author of *The Biology of Belief*, describes how the Honeymoon Effect was not a chance event or a coincidence, but a personal creation. This book reveals how we manifest the Honeymoon Effect and the reasons why we lose it. This knowledge empowers readers to create the honeymoon experience again, this time in a way that ensures a happily-ever-after relationship that even a Hollywood producer would love. With authority, eloquence, and an easy-to-read style, Lipton covers the influence of quantum physics (good vibrations), biochemistry (love potions), and psychology (the conscious and subconscious minds) in creating and sustaining juicy loving relationships. He also asserts that if we use the fifty trillion cells that live harmoniously in every healthy human body as a model, we can create not just honeymoon relationships for couples but also a "super organism" called humanity that can heal our planet.

Heaven's Kitchen Courtney Bender 2011-04-15 How do people practice religion in their everyday lives? How do our daily encounters with people who hold different religious beliefs shape the way we understand our own moral and spiritual selves? In *Heaven's Kitchen*, Courtney Bender takes a highly original approach to answering these questions. For more than a year she worked in New York City as a volunteer for a nonprofit, nonreligious organization called God's Love We Deliver, helping to prepare home-cooked meals for people with AIDS. Paying close attention to what was said and not said, Bender traces how the volunteers gave voice to their moral positions and religious values. She also examines how they invested their conversations, and mundane activities such as cooking, with personal meaning that in turn affected how they saw their own spiritual lives. Filled with vibrant storytelling and rich theoretical insights, *Heaven's Kitchen* shows faith as a living practice, reshaping our understanding of the role of religion in contemporary American life.

The Chakras in Shamanic Practice Susan J. Wright 2007-06-29 How to work with the chakra centers to heal unresolved psychic wounds • Reveals how psychic injuries become lodged within the energy body • Links one major developmental stage with each major chakra • Provides a detailed guide to healing and clearing the tensions each chakra holds The chakra system identifies eight centers in the psycho-anatomy of humans, each one associated with a different part of the physical or energy body. Susan J. Wright, a practicing shaman and Gestalt psychotherapist, uses her own life journey to show that each chakra also is linked to a different stage of emotional and spiritual development. In *The Chakras in Shamanic Practice*, she identifies eight key developmental stages of life, from birth to old age/death. Each of these life stages has various developmental challenges and potential traumatic events that will likely occur and affect the health and well-being of the individual. Wright explains that life traumas experienced in particular developmental stages become lodged within the energy body as they cling to their corresponding chakra. By identifying and working with the chakra involved, a doorway can be opened to a world of transformative images, allowing powerful shamanic techniques to heal these psychic wounds. Providing both physical exercises and guided meditations that utilize the techniques of soul retrieval, working with power animals, and transcending trauma, Wright offers practitioners a way to gather and nurture the fragmented parts of their energy body and lead themselves to physical, emotional, and spiritual well-being.

Heavenly Wisdom Dr. Dragan P. Bogunovic 2013-02-13 This book is exclusively written on the foundation of sacred books called Bible and on the experience of many good and great people, for man who was created for hard work, accordingly to its given gift calls talent. (1Co. 12:4) Which is precisely given accordingly to everybodys abilities. (1Co. 12:7). To do good work and to become son of living God (Jn. 15:15) and eventually on the end to become god, (Ps. 82:6) when come time to give its record and hear; well done my faithful son, enter into my rest. In this book it is not my intention to teach anyone but only to incite everyone to think about, to speak about and to recommend in order improving life for entire humanity independent, of race, color, ethnicity, languages or religion for everyone to become in agreement according to its given gift, which is powerful Spirit of love, what we call talent. It is not my idea that proves that, but myriad of humans as modern prophets that by their work witnessed for real life directed by the powerful Spirit of love call talent is only one way only one direction toward goodness for entire humanity, which pleases only One whom we call Great Creator. We may call it as universal secular religion or secular ideology as you wish which is universal and founded on free gift, given talent and responsibility while divine religion is religion of individuals gathered in the congregation founded on faith and obedience, while both are blessed with the power of love. It is true and is easy to understand that life that is directed by the given talent as a life purpose for the love toward One who sent you to do it and for devoted love for entire humanity as a fulfillment of first law to love your Great Creator and not only your neighbor but entire humanity to be like sun that shine from above for all and rain that comes for above for all as a HEAVENLY WISDOM An end I would like to hear from you about your opinion and suggestion in order to further improve that given program suggested from many and for

goodness for entire humanity. Dr. Dragan P. Bogunovic MD FAAFP.
