Fifteen Minutes of Summer - Heather Wardell
2015-06-04

"As long as people keep talking about me, I'm happy." Former reality-TV contestant and current fashion designer/celebrity reporter Summer Young lives by those words. Since her time on the "Ragged Royalty" program Summer's been looking for her big break in either fashion or show biz, whichever will let her show her family of literal geniuses that she can still be a success without being smart. Touched to be asked to help her ex-husband Kent and his crazily private fiancée Madeleine-Cora plan their nuptials, Summer throws herself into taking charge of everything and being the perfect bridesmaid and even making MC's bridal gown. At the same time, she's juggling her romance with show-mate Aaron and her growing friendship with Kent's brother Ron and the pressure from her celebrity-gossip-site boss who's demanding every intimate wedding detail Kent and MC would never want shared. If Summer shares those details with the world, she'll get the attention and approval she's always wanted, but she'll lose her friends and the people who matter most to her. Are her fifteen minutes of fame worth the privacy they'll cost?

Head Above Water - Benjamin Jones 2012-02-09

A self described adult fairy tale, Head Above Water is the tale of a man named Darryl and a girl named Leena who both work at the same company but work in two different offices a thousand miles apart. A chance meeting sparks a fire in the both of them but circumstances prevent them from being together. Through the course of their lives they find it hard to remain apart and, though they are fated to be apart, they remain determined to be together. Head Above Water asks the question - how much would you sacrifice for love? What people are saying about Head Above Water: "I have to tell you, I'm an avid reader and book clubber and I have never read a book like this. There's so much detail and imagination! I can appreciate

that it was a love story sprinkled with a little science fiction. I'm not really into romance novels honestly, but this book worked for me; mostly because I could relate to the characters and bits and pieces of Darryl and Leena's relationship. Who hasn't been crazy in love at least once in their life?" - Kim Bailey "I recommend this book, even if you're not a regular romance genre reader. It has something for everyone." - Julie Harris "...Wow, well, I don't really know where to begin with this review, except to say that this book is very original and it definitely surprised me in terms of how the story progressed and in terms of the almost experimental styling of the book. This is not your everyday romance novel. Yes, it contains romance and is written well; the dialogue between the characters is fluid and realistic. All the characters are believable, and one thing this author succeeds in doing where many others fail, is in reminding us that we are all human and all capable of making wrong choices and hurting others inadvertently by our actions." - Maria Savva

make men feel comfortable, creating a calm and enjoyable atmosphere. So, for this reason I'm addressing the people who like you, are shy and who would like to have a capable friend who could help breaking the ice with women. Maybe you're thinking that you're the only guy who's not able to approach girls you like, and all around, you see over and over again less attractive, interesting and funny men... always in company! Have you ever wondered what they have in addition in comparison with you? Do you think they have a secret move to make all girls go crazy for them? I can assure you that they do not have any secret move: often, you can win a woman over by using a word in the right moment, a nice action, a joke: well, the so-called soul willingness. You just have to put your terrible shyness apart (or use it in your favour: I will explain it!) Anyway, you have to know that you're in good company: as a matter of fact, shyness is really common among you guys, and from my experiences, I convinced myself that this causes "blocks" when a man tries to approach a woman, even if inside he would do anything to talk to her calmly. Good, it's time to make a break. I want to teach you how to overcome this problem, that right now could seem insuperable. We can also say that, nowadays, women seem free, strong, independent and this could create a lot of confusion in men. Maybe as a child you grew up with stereotypes that clash with reality: it's true, there aren't any princesses waiting for the prince charming. But do not forget that little girls too used to read the same fairy tales, and every girl, deep inside, dream of living one. So, where is the catch? Believe me if I tell you that this is a matter of points of view. For example, did you know that shy people are great observers, reflective people and in general more intelligent than anyone else? You just have to find your strength points and turn them in your advantage. How? We will see how together. For now, you just have to consider that I will bring you out from your dolt shell, and after reading and putting into practice my advices, your relationship with women will improve in a surprising way. We will start by trying to understand what kind of shy man you are; then we will work together in order to turn you into a more self-confident man; we will take a look at

the female universe to understand in a better way women, their weak points, what they love and what they hate; then, I will show you some typical situation in which you can find yourself when it comes to approach a girl; I will explain to you what to do and what to say, and lastly I will give you some easy but also valid tricks to win the woman of your dreams over.
