Wild Cats of the World Mel Sunquist 2017-05-15 Did you know that European royalty once used cheetahs to hunt deer, or that caracals can capture birds by leaping six and a half feet straight up into the air from a standing start? Have you ever wondered whether domestic cats really do land on their feet when they fall, or how Canada lynx can stalk their prey in the winter without falling through the deep snow? Wild Cats of the World is a treasure trove of answers to questions like these, and many others, for anyone who's interested in learning more about the world's felids, including the ones with whom we share our homes. Mel and Fiona Sunquist have spent more than a decade gathering information about cats from every available source, many of them quite difficult to find, including scientific papers, descriptions of hunts, archeological findings, observations by naturalists and travelers, reports from government agencies, and newsletters from a wide variety of organizations. Weaving information from these sources together with their own experiences observing wild cats around the world, the Sunquists have created the most comprehensive reference on felids available. Each of their accounts of the 36 species of cat contains a description of the cat.

Cat Daddy Jackson Galaxy 2012-05-10 Cat behaviorist and star of Animal Planet's hit television show *My Cat from Hell*, Jackson Galaxy, a.k.a. "Cat Daddy," isn't what you might expect for a cat expert (as *The New York Times* noted, with his goatee and tattoos, he "looks like a Hells Angel"). Yet Galaxy's ability to connect with even the most troubled felines -- not to mention the stressed-out humans living in their wake -- is awe-inspiring. In this book, Galaxy tells the poignant story of his thirteen-year relationship with a petite gray-and-white short-haired cat named Benny, and gives singular advice for living with, caring for, and loving the feline in your home. When Benny arrived in his life, Galaxy was a down-and-out rock musician with not too much more going on than a part-time job at an animal shelter and a drug problem. Benny's previous owner brought the cat to the shelter in a cardboard box to give him up. Benny had seen better days --- his pelvis had just been shattered by the wheels of a car -- and his owner insisted he'd been "unbondable" from day one. Nothing could have been further from the truth. An inspiring account of two broken beings who fixed each other, *Cat Daddy* is laced throughout with Galaxy's amazing "Cat Mojo" advice for understanding what cats need most from us humans in order to live happier, healthier lives.

Total Cat Mojo Jackson Galaxy 2017-10-31 This comprehensive cat care guide from the star of the hit Animal Planet show "My Cat from Hell," Jackson Galaxy, shows us how to eliminate feline behavioral problems by understanding cats' instinctive behavior. Cat Mojo is the confidence that cats exhibit when they are at ease in their environment and in touch with their natural instincts—to hunt, catch, kill, eat, groom, and sleep. Problems such as litter box avoidance and aggression arise when cats lack this confidence. Jackson Galaxy's number one piece of advice to his clients is to help their cats harness their mojo. This book is his most comprehensive guide yet to cat behavior and basic cat care, rooted in understanding cats better. From getting kittens off to the right start socially, to taking care of cats in their senior years, and everything in between, this book addresses the head-to-toe physical and emotional needs of cats—whether related to grooming, nutrition, play, or stress-free trips to the vet.
