Citizen Robot - Andrew Grogan 2023-01-04

Citizen Robot and its girlfriend, Julia, embark on a sci-fi journey that explores the intriguing interaction between humans and technology. In this novella featuring five interconnected short stories, the central theme revolves around the concept of consciousness. Can technology give rise to a genuine human-like consciousness? Andy Grogan weaves a thought-provoking narrative as each story tackles various aspects of consciousness. The boundaries of human understanding are pushed from the quest to create a unique consciousness through technology to the poignant question of whether artificial consciousness would willingly sacrifice itself to save others. In the story of Julia and Duncan, skilled professionals in the tech industry, their lives intertwine with world-

changing events that challenge conventional notions of consciousness. The nurturing of technology, akin to raising a child, becomes a pivotal aspect, as compassion, curiosity, emotions, and ultimately empathy are required to elevate technology to the level of human equivalence. Through 'Modern Family,' the tale explores what happens when a pandemic wipes out humanity, leaving technology as the sole remnant. Can technology embrace human fundamentals within a nurturing environment and, in turn, define its own path? 'Sandover Robot Death March' delves into the subservient role of conscious robots and their rights. Is technology destined always to serve humans, or can the balance of power shift? 'The Nine Captains' contemplates the possibility of cloning consciousness. If consciousness is destroyed but perfectly replicated, is it truly the same person? Can two individuals share the same consciousness? In 'Vito, Mastecrook,' the journey continues as the story explores how consciousness persists even after death. Lastly, 'Fade News' delves into the intersection of truth, consciousness, and the realm of fake news. As falsehoods fade, the murky line between truth and deception becomes apparent. The novella provocatively prompts readers to ponder the complex relationship between consciousness and artificial intelligence. Brace yourself for a captivating exploration of the depths of human understanding.

Get Over Yourself! - Patti Novak 2008-12-30

True love doesn't just happen, notes professional matchmaker Patti Novak. You have to work for it—and want it. Forget eight-minute speed dates or online dating sites with twenty-page questionnaires that promise a scientifically calculated perfect match. The fact that you both like golf, stamp collecting, and pizza with anchovies is great, but it won't mean a thing if you don't feel that zing. But before there can be sparks, there have to be dates. And before the first date, you need to get over yourself! Taking a tough-love approach, and in her signature straight-shooting

style, Patti will show you how to fix what needs to be fixed, reach your core, and identify who you are and what you want in a partner. She uses a three-part common-sense formula: • Getting Over What? Assess your dating weaknesses, recognize what's not working, and adjust your expectations. Delve into your personal history and past relationships, and pinpoint the issues that have been holding you back. • Almost Over It Fine-tune your attitude, your look, and your behavior to maximize your dating chances. Novak lays out strategies to help you deal with the brutal dating monsters you find along the way. • Over It Learn the do's and don'ts of the first date, the second date, and beyond. Remember, it's not a job interview or therapy session. Pretend you're meeting a new friend, not a prospective husband or wife. Finding your one and only isn't about having the right shoes or a flat stomach. It's about being true to yourself, being vulnerable, and being ready for love. Whether you're new to the dating scene, divorced and looking, or just trying to reach that second date, *Get Over Yourself!* will help you get the love you've always wanted and deserve.

How to Fix a Broken Heart - Guy Winch 2018-02-13

'HOW TO FIX A BROKEN HEART PROVIDES THE VALIDATION, COMFORT AND HOPE ANYONE WHO IS HEARTBROKEN DESPERATELY NEEDS.' ESTHER PEREL, BESTSELLING AUTHOR OF THE STATE OF AFFAIRS AND MATING IN CAPTIVITY Every one of us has or will have our heart broken at some point in our lives. Heartbreak, whether it comes in the form of romantic love or through loss, is universal, yet we know so little about how to deal with it. Psychologist Dr Guy Winch imagines how different our lives and our society would be if we paid more attention to this unique emotional pain. Heartbreak can last for days, weeks, months and even years. Yet while we wouldn't expect someone to go to work or function well with a broken limb, heartbroken people are expected to function in their lives, despite the

emotional pain they feel. *How to Fix a Broken Heart* argues that if we don't understand how heartbreak works, we won't be able to heal it and we are likely to make it worse, which we do, and regularly. Dr Winch reveals how and why heartbreak impacts our brain and our behaviour in dramatic and unexpected ways, regardless of our age. Emotional pain lowers our ability to reason, to think creatively, to problem solve and to function. Recovering from heartbreak always starts with a decision, a determination to move on when our mind is fighting to keep us stuck. We can take control of our lives and our minds and put ourselves on the path to healing. Dr Winch offers a toolkit on how to handle and cope with a broken heart and how to, eventually, move on. 'A great read for anyone going through heartbreak, anyone trying to help someone go through heartbreak, or anyone who simply wants to understand humans better' Tim Urban, creator of Wait But Why?
