Justice Through Public Interest Litigations - Navkiran Singh
2022-03-19

The state of Punjab witnessed a great deal of Political turmoil between the years 1984 and 1994 on account of political uprisings demanding more power to the state. Human rights violations were rampant and were used as a means to quell anti-State rhetoric. To combat this, a group of lawyers came together and fought against State repression while forming a non-profit organization in the 1990's titled "LAWYERS FOR HUMAN RIGHTS INTERNATIONAL". Their motto was to uphold Human rights using Public Interest Litigation as a tool. This book is a compilation of the Public Interest litigations (PILs) filed in The High Court of Chandigarh by the author Advocate Navkiran Singh written with the hope of inspiring young Lawyers, Social activists and Human Rights enthusiasts. Its aim is to pass down knowledge and experience to young, pro-democracy citizens of India. It throws light on how Public Interest Litigations can be used as a tool not only to uphold justice and Human Rights but to also strengthen India as a democracy.

Three Contributions to the Theory of Sex - Sigmund Freud
2015-11-16

The fact of sexual need in man and animal is expressed in biology by the assumption of a "sexual impulse." This impulse is made analogous to the impulse of taking nourishment, and to hunger. The sexual expression corresponding to hunger not being found colloquially, science uses the expression "libido." Popular conception makes definite assumptions concerning the nature and qualities of this sexual impulse. It is supposed to be absent during childhood and to commence about the time of and in connection with the maturing process of puberty; it is supposed that it manifests itself in irresistible attractions exerted by one sex upon the other, and that its aim is sexual union or at least such actions as would lead to union. But we have every reason to see in these assumptions a very untrustworthy picture of reality. On closer examination they are found to abound in errors, inaccuracies and hasty conclusions. If we introduce two terms and call the person from whom the sexual attraction emanates the sexual object, and the action towards which the impulse strives the sexual aim, then the scientifically examined experience shows

us many deviations in reference to both sexual object and sexual aim, the relations of which to the accepted standard require thorough investigation.
